Fighting Racism In World War II:

Fighting Racism in World War II Cyril Lionel Robert James, George Breitman, Ed Keemer, 1980 A week by week account from 1939 to 1945 of efforts to advance the Black rights struggle in face of patriotic appeals to postpone resistance to lynch mob terror and racist discrimination until after US victory in World War II These struggles of a piece with rising anti imperialist battles in Africa Asia and the Americas helped lay the basis for the mass civil rights movement in the postwar decades Publisher s description **Fighting Racism in World War II** Fred Stanton, 2009 *Black Americans in World War II* Arthur Williams, The entry of the United States into World War II in December 1941 presented Black Americans with a profound paradox that would define their wartime experience and shape the trajectory of the civil rights movement for decades to come While the nation mobilized to fight fascism and defend democracy abroad Black Americans faced systematic discrimination segregation and denial of basic civil rights at home creating what civil rights leaders termed the Double V campaign victory against fascism overseas and victory against racism in America This dual struggle would transform both the war effort and American society as Black Americans demanded that the democratic ideals for which they were asked to fight be extended to their own communities The pre war situation of Black Americans in 1941 reflected decades of institutionalized racism and legal segregation that had relegated the vast majority of African Americans to second class citizenship despite their constitutional rights and their contributions to American society The Jim Crow system in the South enforced strict racial segregation in all aspects of public life while informal but pervasive discrimination in the North limited economic opportunities housing options and social mobility for Black families seeking to escape the legacy of slavery and build better lives for their children The military services that Black Americans would be asked to join and serve in during World War II were themselves strictly segregated institutions that reflected and reinforced the racial hierarchies that governed American society The Army Navy Marine Corps and Army Air Forces all maintained separate and unequal facilities training programs and assignments for Black personnel while senior leadership positions remained exclusively white and Black units were typically assigned to non combat roles that were deemed appropriate for what many white officers considered their limited capabilities and reliability **Dancing Down the Barricades** Matthew Frye Jacobson, 2024-11-26 A deep dive into racial politics Hollywood and Black cultural struggles for liberation as reflected in the extraordinary life and times of Sammy Davis Jr Through the lens of Sammy Davis Jr s six decade career in show business from vaudeville to Vegas to Broadway Hollywood and network TV *Dancing Down the Barricades* examines the workings of race in American culture The title phrase holds two contradictory meanings regarding Davis s cultural politics Did he dance the barricades down as he liked to think or did he simply dance down them as his more radical critics would have it Davis was at once a pioneering barrier busting anti Jim Crow activist and someone who was widely associated with accommodationism and wannabe whiteness Historian Matthew Frye Jacobson attends to both threads analyzing how industry norms productions scripts roles

and audience expectations and responses were all framed by race against the backdrop of a changing America In the spirit of better understanding Davis s life and career *Dancing Down the Barricades* examines the complexities of his constraints freedoms and choices for what they reveal about Black history and American political culture Anti-Racism as Communism Paul Gomberg,2024-01-11 In the United States there have been brilliant examples of anti racist struggle black soldiers in the Civil War coal miners of Alabama and especially the anti racist working class struggles led by the Communist Party Yet racism persists Jim Crow replaced racial slavery and mass incarceration has replaced Jim Crow Why Paul Gomberg argues that racism is functional for capitalism supplying low wage vulnerable labor and driving down conditions for all workers How can anti racists put an end to racist society Gomberg argues for race centered Marxism anti racism must lead working class struggle but racism will end only in a communist society that creates opportunity for all American Women during World War II Doris Weatherford,2009-10-16 *American Women during World War II* documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion *American Women during World War II* provides a handy one volume collection of information and images suitable for any public or professional library

The Routledge Atlas of African American History Jonathan Halperin Earle,2000 From the 16th century African slave trade to the 20th century struggle for equality *The Routledge Atlas of African American History* examines the geographical and historical context of the African American Experience Focusing on issues and events that resonate to this day topics include slave revolts black patriots slave communities the Civil War African Americans in the armed services the spread of Jim Crow the Negro Baseball League the Civil Rights Movement the Voting Rights Act the Harlem Renaissance the expansion of the black middle class and much more Also includes 50 color maps **The Fight for Asian American Civil Rights** Sarah M Griffith,2018-03-01 From the early 1900s liberal Protestants grafted social welfare work onto spiritual concerns on both sides of the Pacific Their goal to forge links between whites and Asians that countered anti Asian discrimination in the United States Their test uprooting racial hatreds that despite their efforts led to the shameful incarceration of Japanese Americans in World War II Sarah M Griffith draws on the experiences of liberal Protestants and the Young Men s Christian Association in particular to reveal the intellectual social and political forces that powered this movement Engaging a wealth of unexplored primary and secondary sources Griffith explores how YMCA leaders and their partners in the academy and distinct Asian American communities labored to mitigate racism The alliance s early work based in mainstream ideas of assimilation and integration ran aground on the Japanese exclusion law of 1924 Yet their vision of Christian internationalism

and interracial cooperation maintained through the World War II internment trauma As Griffith shows liberal Protestants emerged from that dark time with a reenergized campaign to reshape Asian white relations in the postwar era Half American Matthew F. Delmont, 2024-01-09 The definitive history of World War II from the African American perspective by award winning historian and civil rights expert Winner of the 2023 Anisfield Wolf Book Award in Nonfiction A New York Times Notable Book of 2022 A 2022 Book of the Year from TIME Publishers Weekly Booklist and more More than one million Black soldiers served in World War II Black troops were at Normandy Iwo Jima and the Battle of the Bulge serving in segregated units while waging a dual battle against inequality in the very country for which they were laying down their lives The stories of these Black veterans have long been ignored cast aside in favor of the myth of the Good War fought by the Greatest Generation And yet without their sacrifices the United States could not have won the war Half American is World War II history as you've likely never read it before In these pages are stories of Black military heroes and civil rights icons such as Benjamin O Davis Jr the leader of the legendary Tuskegee Army Airmen who fought to open the Air Force to Black pilots Thurgood Marshall the chief lawyer for the NAACP who investigated and publicized violence against Black troops and veterans poet Langston Hughes who worked as a war correspondent for the Black press Ella Baker the civil rights leader who advocated on the home front for Black soldiers veterans and their families and James G Thompson the twenty six year old whose letter to a newspaper laying bare the hypocrisy of fighting against fascism abroad when racism still reigned at home set in motion the Double Victory campaign Their bravery and patriotism in the face of unfathomable racism is both inspiring and galvanizing An essential and meticulously researched retelling of the war Half American honors the men and women who dared to fight not just for democracy abroad but for their dreams of a freer and more equal America *Anti-Fascism in a Global Perspective* Kasper Braskén, Nigel Copsey, David J Featherstone, 2020-09-20 This book initiates a critical discussion on the varieties of global anti fascism and explores the cultural political and practical articulations of anti fascism around the world This volume brings together a group of leading scholars on the history of anti fascism to provide a comprehensive analysis of anti fascism from a transnational and global perspective and to reveal the abundance and complexity of anti fascist ideas movements and practices Through a number of interlinked case studies they examine how different forms of global anti fascisms were embedded in various national and local contexts during the interwar period and investigate the interrelations between local articulations and the global movement Contributions also explore the actions and impact of African Asian Latin American Caribbean and Middle Eastern anti fascist voices that have often been ignored or rendered peripheral in international histories of anti fascism Aimed at a postgraduate student audience this book will be useful for modules on the extreme right political history political thought political ideologies political parties social movements political regimes global politics world history and sociology Chapters 5 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY

NC ND 4 0 license **Race and US Foreign Policy** Mark Ledwidge,2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history A THREE PART BOOK:

Anti-Semitism:The Longest Hatred / World War II / WWII Partisan Fiction Tale Sheldon Cohen,2017-10-20 Two parts of this three part book are based upon fact anti Semitism and World War 2 One part of this book represents a fiction tale involving World War 2 Jewish refugees and Russian army soldiers teamed up for behind the lines partisan warfare against the invading Nazi army **Postwar Anti-Racism** Anthony Q. Hazard,2012-10-31 This book explores the discourse and practice of anti racism in the first two decades following World War II uncovering the ways scientific and cultural discourses of race continued to circulate in the early period of contemporary globalization through the lens on UNESCO **Encyclopedia of African American History, 1896 to the Present: O-T** Paul Finkelman,2009 Alphabetically arranged entries from O to T that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century Anti-racism and Multiculturalism Mark Alleyne,2017-09-08 All scholarly books are engagements with the existing literature often the published scholarly work of one established discipline This book originated with modest objectives to produce a work that would be in conversation with the literature of international relations even though not of relevance only to that field The professed goal of international relations is international peace The ethical lens of pondering the best means to achieve world peace is used to filter media content in the field of multiculturalism and anti racism Although there has been little work on the impact of racial difference on the contours of contemporary international order there has been a sizeable body of research intended to abolish the credibility of pseudo scientific racism Such racism has provided the ideological foundation and justification for imperialism colonialism the holocaust and apartheid Race has been debunked as a myth Because of this racism the ideology bred of human classification according to racial difference has been found to be intellectually and morally barren But the need to communicate egalitarian and scientific sentiments remains The contributors to this volume consider five questions How does the literature on antiracism improve our understanding of conflict resolution How does the analysis of the media s role in racist and anti racist

discourses improve the process of theorizing on hate and war propaganda How can research on anti racist discourse improve UN peacekeeping What implications does this subject have for theory building and cultural diversity How and why should the literature on anti racism expand research in international relations This is a unique worthwhile framework for cross disciplinary research in race and intellectual consensus and conflict Racism and Anti-Racism Today Amanuel Elias,2024-05-02 Acknowledging efforts to dismantle racism at multiple levels this book examines racism and anti racism as interconnected rather than isolated issues proposing a framework for effective anti racist policy and practice *Race, Racism, and Science* John P. Jackson,Nadine M. Weidman,2006 Since the eighteenth century when natural historians created the idea of distinct racial categories scientific findings on race have been a double edged sword For some antiracists science holds the promise of one day providing indisputable evidence to help eradicate racism On the other hand science has been enlisted to promote racist beliefs ranging from a justification of slavery in the eighteenth century to the infamous twentieth century book *The Bell Curve* whose authors argued that racial differences in intelligence resulted in lower test scores for African Americans This well organized readable textbook takes the reader through a chronological account of how and why racial categories were created and how the study of race evolved in multiple academic disciplines including genetics psychology sociology and anthropology In a bibliographic essay at the conclusion of each of the book s seven sections the authors recommend primary texts that will further the reader s understanding of each topic Heavily illustrated and enlivened with sidebar biographies this text is ideal for classroom use **Reinhold Niebuhr against Racism** Ronald H. Stone,2024-10-18 This is Ronald Stone s fifth book on his mentor and friend Reinhold Niebuhr For the first time he analyzes all of Niebuhr s writings on race to correct the academic work of critics of Niebuhr who have ignored Niebuhr s creation of institutions fighting white supremacy in the South and who commented on Niebuhr while not reading his complete works It also publishes the text of his work as chairman of the mayor s committee on race in the strife torn Detroit of 1926 Stone argues that Niebuhr s work in total provides a complex theory for white and Black leaders to overcome white supremacy Niebuhr combines idealism and realism in the bulk of his work which is summarized in the two words of his well known social theory Christian Realism Both words need to be recognized to understand the depth of Niebuhr s synthesis As early as 1932 Niebuhr recognized the need for minorities to use economic power and Gandhian nonviolent strategies to overcome color or caste discrimination As late as the year of his death in 1971 he recommended to the Bicentennial Commission as one of three national priorities the overcoming of the racial discrimination that threatened American democracy Racism as sin is central to his theology and the breaking of white supremacy is essential to his hundreds of essays and editorials against racial discrimination and to democratic theory As editor of *Social Action* in 1968 Stone published *The Fate of the Negro in a Self Righteous Nation* widely regarded as Niebuhr s best essay on the subject and marking Niebuhr s late analysis and his development between the two commission reports of 1926 and 1968 Another relatively unknown source of Niebuhr on racism

is the seminar he taught from 1966 to 1968 It is reconstructed by Stone from the class notes of the seminar in which he served as class assistant To complete the circle James Cone asked Stone to lecture in his seminar the last three years he offered the seminar on Reinhold Niebuhr 106-2 Joint Committee Print: Annual Report on International Religious Freedom 2000, S. Prt. 106-61, November 2000 ,2001 Medgar Evers Michael Vinson Williams,2013-08-01 The sculptor Ed Hamilton presents information on his portrait bust of African American civil rights activist Medgar Wiley Evers 1925 1963 Evers was murdered on June 12 1963 He worked for the National Association for the Advancement of Colored People NAACP and campaigned to win equal rights for African Americans in the south The bust was cast in bronze at Bright Foundry in Louisville Kentucky General Mills Inc commissioned the bust
