**Janes Fighting Ships, 1979-80**, Ed by Captain John Moore RN. ,1979      **Jane's Fighting Ships** Key Book Service, Incorporated,1985-01-01      *Jane's Fighting Ships, 1979-1980* ,1980      **The Royal Navy in the Cold War Years, 1966-1990** Edward Hampshire,2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy s role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990 91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike      *Military Review* ,1982      **Navies of South-East Asia** James Goldrick,Jack McCaffrie,2013 A comprehensive survey of the development and operations of the navies of South East Asia since the end of the Second World War from p 1      Shaping the General Purpose Navy of the Eighties United States. **COLD WARRIORS** Roy R. Manstan,2014 This is the story of a technological war There was no ambiguity behind the phrase mutually assured destruction nuclear weapons and the means to deliver them had become a reality The atomic bomb brought Japan to the USS Missouri for the formal surrender on September 2 1945 a date that marked the end of World War Two But this date also signaled the beginning of the Cold War as the Soviet Union emerged from the shadows There was no shot heard round the world no Fort Sumter no Pearl Harbor only the threat of a mushroom cloud far worse than what Japan experienced The Cold War remained cold because all the players aggressively pursued a strategy of deterrence aimed at keeping the opponent s finger off the trigger The people on the front lines and behind the scenes the Cold Warriors on both sides would come from the civilians who created the technology and the military that would be entrusted with its use When tensions escalated it was the Navy and the silent service that played a critical role In Cold Warriors the author describes a

Navy laboratory in New London Connecticut populated with pioneers in submarine and antisubmarine warfare technology Their mandate was to take the intellectual risks that would keep this country one step ahead of the Soviet Union But ideas alone would not win the Cold War The scientists relied on teams of field engineers whose willingness to take on physical risk would convert theory into reality One of these groups was simply known as the divers Beginning in the 1950s the U S Navy Underwater Sound Laboratory began sending a small number of its civilian staff one or two each year to train at one of the Navy s diving schools As the Laboratory in New London evolved into the Naval Undersea Warfare Center Newport Rhode Island that small team became the Engineering and Diving Support Unit For more than a half century the divers would travel the world this book is their story

**Soviet Military Policy: Since World War II** William T. Lee,1986 The Publishers Weekly ,1980

**The USSR in Third World Conflicts** Bruce D. Porter,1986-07-25 This is a thorough and sophisticated study of one of the most critical current issues in world politics Bruce Porter examines Soviet policy and behaviour in Third World conflicts in the postwar period focusing particularly on five examples the Yemeni civil war the Nigerian civil war the Yom Kippur war the Angolan civil war and the Ogaden war Aiming to illuminate various complex tactical and operational aspects of the USSR s policy in local conflicts the author draws on a wide and eclectic range of sources He pays close attention to the Soviet role as arms supplier and diplomatic actor in relation to both US policy and the dynamics of the local conflict and he concludes with a careful consideration of the effectiveness of Soviet policy and of the implications for the United States

The Real War Richard Nixon,2013-01-08 In this landmark 1980 bestseller Richard Nixon presents an effective analysis of strategic shortcomings and a prescription for renewed strength Nixon s tough minded views discussed in this book became a blueprint for Ronald Reagan s military buildup and strategic initiatives which ultimately paved the way for the end of the Cold War Highly relevant to contemporary times Nixon argues persuasively that America must assume a role of global leadership to make sure the war of annihilation never happens The economic material and technological capacities to prevail are not enough he cautions without the resolve of national will He utilizes the lessons of history from the Mongolian invasion of Russia to the revolution in Iran to instruct the future From his unique perspective as the former chief executive of the nation he tells us how we can use our political economic and military strengths to turn the tide

**Canadian Oceans Policy** Donald Malcolm McRae,Gordon Ross Munro,1989 This book deals with Canada s oceans management policies since the conclusion of the 1982 Convention of the Law of the Sea That Convention set out a jurisdictional framework for the management of the world s oceans but it did not provide states with precise guidance on all the issues that can arise As a state with one of the world s longest coastlines Canada was one of the principal beneficiaries under the 1982 Convention regime A study of Canadian policy is particularly significant as Canadian oceans management places in relief many of the difficult questions yet to be resolved The central theme of this book whose multidisciplinary contributors include leading Canadian participants in the

Third United Nations Conference on the Law of the Sea as well as leading Canadian academic and government oceans specialists concerns the adequacy of the Canadian management responses to a new oceans regime which grants substantial jurisdiction to the coastal state The chapters look at dispute settlement maritime boundaries and examine future Canadian and international policy directions They are both analytical and prophetic providing an assessment of the past and presenting a glimpse of the future Canadian Oceans Policy provides insights into how Canada is managing the oceans and ocean resources off its coast and looks at the problems that lie ahead The book also makes a major contribution to our understanding of an increasingly vital area of global politics It will be of interest both to academics and policymakers and to all those concerned with the future of the oceans Central American and Caribbean Security Assistance United States. Faltas,2012-12-06 Now that this book is being published as part of Hartinus Nijho's Studies in Industrial Organization I should like to point out two factors which strongly influenced the study There would have been no project on this scale if the Peace Research committee of the Free University Amsterdam had not commissioned a major empirical investigation into Western Europe's defence industries and provided the funds and facilities needed to carry it out I am grateful for this for the committee's confidence and its patience and for the unfailing support of the secretaries at the Department of International Relations The study was also submitted and approved as a doctoral dissertation at the Free University I am deeply indebted to my supervisors H W de Jong University of Amsterdam A J Vermaat Free University and G Junne University of Amsterdam who gave me all the guidance and the encouragement I needed to H Coppens and G Faber who were a constant source of advice and support and to N Brown Birmingham University F Barnaby and Th van den Hoogen Groningen University who offered their comments on several occasions **International Security Review** ,1980
