Filling Out A Life

Filling Out A Life:

A Hope-Filled Life James R. Wilkes, 2021-03-02 Hope is part of the spiritual vocabulary of the believer in Jesus Christ. The word is found abundantly in the Scriptures. We speak of it in our testimonies and fellowship. We sing about it in our corporate worship. Yet it would seem at times that our concept of hope is understood in merely some vague way. Hope seems like an abstraction, something we consider only theoretically, not something that really matters or makes a difference. However, biblical hope is a gospel grace that provides joy and endurance for our lives right now. A Hope Filled Life seeks to define biblical hope and provide a practical theology for understanding and applying it to our lives. Hope is indeed not an optional add-on but a vital necessity. Embracing the many truths about hope in the Scriptures strengthens our hearts. As we run the race set before us, we must grow in our understanding that Jesus Christ is truly our great Savior and our sure and steadfast hope. *Impetus and Equipose in the Life-Strategies of Reason* Anna-Teresa Tymieniecka, 2000-12-31 Employing her original concept of the onto-poiesis of life, the author uncovers the intrinsic law of the primogenital logos that which operates in the working of the indivisible dyad of impetus and equipose. This is the crucial intrinsically motivated device of logico-constructivism. This key instrument is engaged is at play at every stage of the advance of life. In a feat unprecedented in the history of western philosophy, the emergence and unfolding of the entire orbit of the human universe is shown to bear out this insight. Furthermore, the intrinsic rhythms of impetus and equipose are taken as a guide in uncovering the workings of the logos all at once, in contrast to the piecemeal exposition of a single line of argument. In a schema covering the entire career of beingness in becoming, between the infinities of origin and destiny, an historically unprecedented harmonizing all sectors of rationality is accomplished in a span of reflection comparable to Spinoza's *Ethics*. The work draws on interdisciplinary investigations in both science and the arts. All of the history of Occidental philosophy finds summary in it, even as feelers, guidelines, leitmotifs are thrown out for its future development. A landmark of Occidental philosophy at the turn of the millennium. **The Life Audit** Caroline Righton, 2006-04-25 Ask yourself the big questions: Are you in control of your life?
