John Bale,1849 **Before the Closet** Allen J. Frantzen,2000-05 Examining the intolerance of homosexuality in the early medieval period this study challenges the long held belief that the early Middle Ages tolerated same sex relations The work focuses on Anglo Saxon literature but also includes examinations of contemporary opera dance and theatre *John Foxe and His World* Christopher Highley,John N. King,2017-07-05 Interest in John Foxe and his hugely influential text Acts and Monuments is particularly vibrant at present This volume the third to arise from a series of international colloquia on Foxe collects essays by established and up and coming scholars It broadly embraces five major areas of early modern studies Roman Catholicism women and gender visual culture the history of the book and historiography Patrick Collinson provides an entire overview of the field of Foxe studies and further essays place Foxe and his work within the context of their times
 Rethinking the Henrician Era Peter C. Herman,1994 **The Complete Plays of John Bale** John Bale,Peter Happé,1985 Two volume collection providing the first opportunity to consider Bale s surviving dramatic work as a whole in the original language His plays explore the theological and political implications of the English Reformation and offers a Protestant counterblast to the English mystery cycles Devon Inventories of the Sixteenth and Seventeenth Centuries Margaret Cash,1917 **Dutch Reformed Orthodoxy and Islam** Felipe Boechat Asseruy Silva,2025-03-10 However turbulent and virulent Christian Muslim Relations may have been throughout the centuries it does not mean that each side did not take the time to evaluate and appreciate each other s theological dogmas Felipe Boechat Asseruy Silva shows that although Christians were subjected to constant attacks and invasions by the Turks for multiple centuries they eventually Early Modern Period sought to refine their thinking about Islam and evaluate its theological tenets in a semi dispassionate form and to provide a large scale reply In the Medieval period in depth analysis of Islam from a purely theological philosophical point of view were rare Most publications frequently resorted to the use of offensive and inaccurate language which at times fomented a disagreement between the parties based not on real theological differences besides the obvious political differences but on imagined ones This volume shows that Post Reformation Reformed Orthodox theologians especially those from the Dutch Republic after having access to a long legacy of Christian Muslim written publications collected by Dutch Universities were

able to build much more refined arguments and indeed present well informed apologetical theological and historical arguments against Islam The author also shows that the intense commerce between Christian and Islamic nations and the contemporary flourishing of orientalist studies in the Dutch Universities contributed to the formation of an intellectual arena that was willing to overlook past animosities and focus on the theological differences addressing them as such *Plays of Persuasion* Greg Walker,1991-04-26 A detailed study of the interaction between drama and politics in the reign of Henry VIII The subject is addressed both in general terms and through a series of case studies of individual early Tudor plays Through its innovative use of dramatic texts as historical source material the book provides illuminating insights into the political and cultural history of the Henrician period and into the perceived character of the King himself It focuses on the troubled religious and political history of the reign the culture of the Court and the personality and governmental style of its head In doing so the book argues for a reassessment of the reign which places the King once more at the centre of affairs and acknowledges the determining effect which this egotistical charismatic but above all pragmatic monarch exercised on the artistic culture as much as on the politics of the Court The book also demonstrates the close and specific links between the drama and the politics of the reign through a detailed study of a number of key works links which have hitherto been viewed only as general or peripheral Strange Communion Jacqueline Vanhoutte,2003 *Strange Communion* concerns the development in Tudor culture of a tendency to identify the common good with the health of the motherland Playwrights polemicists and politicians such as John Bale Richard Morison and William Shakespeare among others relied on maternal representations of England to evoke a sense of common purpose Vanhoutte examines how such motherland tropes came to describe England how they changed in response to specific political crises and how they came by the end of the sixteenth century to shape literary ideals of masculinity While Henrician propagandists appealed to Mother England in order to enforce dynastic privilege their successors modified nationalist symbols as to qualify absolute monarchy The accessions of two queens thus encouraged a convergence of nationalist and patriarchal ideologies in late Tudor works evocations of the national family tend to efface class distinctions while reinforcing gender distinctions Dr Jacqueline Vanhoutte is an assistant professor at the University of North Texas The Dramatic Writings of John Bale John Bale,1966 **John Bale's Index of British and Other Writers** John Bale,1989 **John Foxe and the Elizabethan Church** V Norskov Olsen,Viggo Norskov Olsen,1973-01-01 Based on the author s thesis University of London Bibliography p 224 248
