American state governments have responded less effectively to rapid urban growth than Canadian provinces he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War while dispersed authority in American state governments fostered indecision and catered to parochial interests Most contemporary policy problems and their solutions are to be found in cities *Shaping the Metropolis* shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future **Planning Toronto**

Richard White, 2016-01-15 Paris is famous for romance Chicago the blues Buenos Aires the tango And Toronto Well Canada's largest urban centre is known for being a city that works a remarkably livable metropolis for its size In this lavishly illustrated book Richard White reveals how urban planning contributed to Toronto becoming a functional world class city Focusing on the period from 1940 to 1980 he examines how planners shaped the city and its development amid a maelstrom of local and international obstacles and influences Based on meticulous research of Toronto's postwar plans and supplemented by dozens of interviews *Planning Toronto* provides a comprehensive and lively explanation of how Toronto's postwar plans city metropolitan and regional came to be who devised them and what impact they had When it comes to the history of urban planning the question may not be whether a particular plan was good or bad but whether in the end it made a difference As White demonstrates in Toronto's case planning did matter just not always as expected 100 Fascinating

Londoners Michael Baker, Hilary Bates Neary, 2005-11-07 These brief biographies reflect a century and a half of London's history and reflect key events and fascinating adventures drawn from the lives of people from all walks of life who made a lasting impression on their hometown **E.C. Drury** Charles M. Johnston, 1986-12-15 In a fiercely fought provincial election in 1919 a new political movement came to power in Ontario The victorious party was the United Farmers of Ontario Its leader Ernest Charles Drury 1878-1968 became the province's eighth premier Idealistic agrarian reformer staunch temperance man free trade advocate Simcoe County yeoman and progressive populist Drury was a man of the people and of the land inevitably tagged the Farmer Premier In this biography Charles M Johnston follows the career of Drury through agrarian activism and partisan politics and explores the personal and ideological forces that directed him Drury began his career in the farm movement as leader of the Dominion Grange and Farmers Alliance He went on to act as the driving force behind the Canadian Council of Agriculture and then co-founded the UFO in 1913 Activist though he was Drury as a premier sought no dramatic departures from established political procedures When others of his party did notably J J Morrison and W C Good Drury disavowed their class consciousness and their formula of group government Instead he advocated the creation of a people's party based on what he called Broadening Out an appeal to all citizens regardless of class occupation or political stripe who were seen to share the farmer's desire for a more humane moral and progressive society in the wake of the First World War The question of Broadening Out was a controversial one within agrarian ranks and it led to dissension

among the leaders This weakening of the party combined with the shrewd tactics of Howard Ferguson's Tories to bring about the Drury government's downfall in 1923 During its four years in power it had enacted some solid social welfare legislation but its defeat was resounding With it came the effective end of Drury's political career Johnston offers a revealing study of a brief chapter in Ontario history and of the man whose principles and ideals shaped it *Old Man Ontario* Roger

Graham, 1990-12-15 For most of the twentieth century Progressive Conservatives have governed Ontario One of the great consolidators of the Ontario Tory dynasty was Leslie Frost premier from 1949 to 1961 This biography explores the life and career of one of the province's most successful politicians Frost was born in Orillia in central Ontario in 1895 He served in the First World War was severely wounded and underwent a lengthy convalescence In 1921 he graduated from Osgoode Hall and established a law practice in Lindsay with his brother He became an active member of the Conservative party and was elected to the provincial legislature in 1937 during the years of Liberal government under Mitchell Hepburn When the Conservatives came into power in 1943 Premier George Drew appointed Frost provincial treasurer and minister of mines Six years later when Drew stepped down as party leader Frost succeeded him Personally genial and politically pragmatic Frost consciously exemplified the values of small town Ontario He led his party through three elections and swept to victory each time During his term in office Ontario underwent enormous economic development His government initiated progressive legislation in health education and human rights and encouraged growth in the private sector through fiscal policy and public investment Ironically the burgeoning economy that was fuelled by Frost's programs led to a dramatic increase in urbanization and a substantial erosion of the small town values on which his political image was built But that small irony did no political harm to him or to the Tories When he stepped down as party leader and premier in 1961 he handed over to John Robarts the reins of a party that was not to be shaken from power for another quarter of a century *One Hundred Rings and Counting* Mark Kuhlberg, 2009-01-01 Looks at the history of forestry education and the forestry faculty at the University of Toronto

**Warring Sovereignties** adam strömbergsson-denora, 2020-12-01 *Warring Sovereignties* explores the battle between religious and non secular cultures for control of the university in the 1960s Canon law with particular emphasis on Oblate norms was a clear expression of Catholic sovereignty in the university While this sovereignty conditioned Oblate governance choices the Government of Ontario became increasingly keen on reforming the University of Ottawa into a non denominational corporation Government pressure was coupled with shifting cultural expectations of the university's social role while an increasingly lay professorate helped put pressure on the Oblates from within These twin pressures for removing religious control irked the Oblates who put up stiff resistance betraying their reticence to the liberalization of higher education While the government valued social policy the Oblates focused on educating individuals Although the Oblates ultimately lost history is as relevant as ever and this book comes at a time when social planning is becoming increasingly prevalent within universities Published in English **Hall-Dennis and the Road to Utopia** Josh Cole, 2021-07-15 The

quarter century that followed the end of the Second World War was marked by intense social and economic transformation the changing face of postwar capitalism a revolution in communications technology the rise of youth culture and the pronounced ascent of individual freedom all contributed to a dramatic push to remake and thus improve society This push was especially felt within education the primary vehicle for modernizing the postwar world from the ground up Hall Dennis and the Road to Utopia explores this moment of renewal through a powerful and influential education reform project 1968 s Living and Learning The Report of the Provincial Committee on Aims and Objectives of Education in the Schools of Ontario The Hall Dennis report as it became known urged Ontarians to accept a new vision of education in which students were no longer organized in classes their progress no longer measured by grades and their experience no longer characterized by the painful acquisition of subjects but rather by a joyous and open ended process of learning This new democratic system of education was associated with the highest ideals of postwar progress liberalism and humanism yet its recommendations were paradoxically both profoundly radical and fundamentally conservative Its avant garde research strategies and controversial post literate curricular reforms were balanced by a pedagogical approach designed to mould students into obedient citizens and productive economic actors As Canadians once again find themselves asking fundamental questions about the aims and objectives of education under radically changing circumstances Josh Cole revisits Hall Dennis to show how the committee and its report represent a significant moment in Canadian cultural and political history a prescient document in the history of education and a revealing expression of the fragmentary circumstances of global modernity in the second half of the twentieth century

administrative worlds Drawing on different methodologies this collection profiles a ministry as policy entrepreneur spender revenue generator capacity builder budget director program manager and intergovernmental agent The Guardian fills a significant gap in public administration literature and in so doing describes how Ontario s Ministry of Finance defined its role as guardian
