book looks at the various sources of wealth in the area coal owning railway building possession of land in crucial areas contracting building property development shopkeeping and at the various origins from which the first generation entrepreneurs came It then examines closely the networks of power and influence that built up among the second generation entrepreneurs in the close and claustrophobic middle class society of the Porth Pontypridd area Its method is to take one extended family central to that society together with its vast network of friends and collaborators and to examine in great detail from original sources the often hair raising business methods of these people as well as their conflicts of interest at times of industrial unrest At the same time the changes in Valleys life are mirrored in the history of this group the original rags to riches stories of so many of the first generation the self sufficient confidence of so many of the second generation for whom the coal boom seemed bound to last for ever and the gradual move thereafter out of the coal industry and down to the towns on the coast just in time to avoid the decline of the industry **The WRNS in Wartime** Hannah Roberts,2017-11-24

The Women s Royal Naval Service WRNS was created in 1917 re formed in 1938 and maintained after 1945 This book determines for the first time the reasons for the expansion and contraction of the service and the impact key individuals had on it and in turn the influence it had on its members Hannah Roberts offers new insights into a previously little studied British military institution which celebrates its centenary in 2017 She shows how political and military decision making within the fluctuating national security situation coupled with a growing cultural acceptability of women taking on military roles allowed for the growth of the service in World War II into realms never expected of women Although it shared a similar pattern in its formation to the Auxiliary Territorial Service ATS and had a similar ethos to its Air Force counterpart the WAAF the WRNS took on a wider ranging role in the war in part due to the latitude afforded to the service because of its uniquely independent origins From 1941 onward the WRNS spread internationally and subverted the combat taboo by adopting semi combatant roles Using twenty one new oral histories and a multitude of archived personal documents this book demonstrates the pivotal importance of the Women s Royal Naval Service in both the world wars **The New York Times Book Review**
