

The background of the entire image is a photograph of a sunset or sunrise over a body of water. The sky is filled with soft, pinkish-purple clouds, and the sun is a bright, glowing orb just above the horizon. The water in the foreground is calm, reflecting the colors of the sky. In the distance, a thin, dark line represents the horizon, with a few small, indistinct shapes that could be buildings or trees.

**The First Five Years of the Priesthood** Dean R. Hoge, 2017-06-15 Catholic Press Association Award Winner Reports indicate that many newly ordained men are feeling demoralized and some are resigning The accounts raised many questions How widespread is the problem What difficulties are the recently ordained priests facing Is the problem due to changes in lay attitudes or to changes in the ordained themselves Is the situation different from what it was ten or twenty years ago The First Five Years of the Priesthood is a collaborative work of the National Federation of Priests Councils and the Life Cycle Institute of The Catholic University of America that considers this phenomenon It explores the experience of early

priesthood and is based on a pilot survey of two groups recently ordained priests active in service and those who have resigned. The research team minimized interpretative work on the findings and engaged credible voices in American Catholic life to write commentaries on the implications of the findings. *The First Five Years of the Priesthood* includes both the research findings and commentaries. Chapters are: The Setting of the Priesthood Today; Attitudes of Newly Ordained Active and Resigned Priests; What Makes for Satisfied Newly Ordained Priests; Four Types of Resigned Priests; Life Experiences of Newly Ordained Active and Resigned Priests; and Recommendations Made by the Priests. Dean R. Hoge is a professor in the department of sociology at The Catholic University of America in Washington D C. He has done sociological research serving American churches for 31 years and has authored several books and articles on American religion. *In Defense of Married Priesthood* Vivencio O. Ballano, 2023-08-30. This book offers an analysis of the sociological, historical, and cultural factors that lie behind mandatory clerical celibacy in the Roman Catholic Church and examines the negative impact of celibacy on the Catholic priesthood in our contemporary age. Drawing on sociological theory and secondary qualitative data together with Church documents, it contends that married priesthood has always existed in some form in the Catholic Church and that mandatory universal celibacy is the product of cultural and sociological contingencies rather than sound doctrine. With attention to a range of problems associated with priestly celibacy, including sexual abuse, clerical shortages, loneliness, and spiritual sloth, *In Defense of Married Priesthood* argues that the Roman Catholic Church should permit marriage to the priesthood in order to respond to the challenges of our age. Presenting a sociologically informed alternative to the popular theological perspectives on clerical celibacy, this book defends the notion of the married priesthood as a legitimate means of living the vocation of Catholic priesthood, one which is eminently fitting for the contemporary world. It will therefore appeal to scholars and students of religion, theology, and sociology. ***Yoga Journal***, 1988-03. Kassam, 2017-06-22. Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology, this book focuses on contemporary selected experiences of women and how their lives interface with religion. Religion has often been perceived as the source of constriction for women's roles in society. This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms relating to economics, public participation, politics, and culture. As such, it is revealed that religion can be a powerful force for social change and ameliorating women's lives despite use of religious doctrine in the past to limit women. Editor Zayn R. Kassam, PhD, and the contributors cover not only the commonly considered Asian traditions of Hinduism, Islam, and Buddhism but also Christianity.

Judaism Bahai and indigenous traditions The book reveals that the challenges and opportunities Asian women face arise both from within and outside whether in terms of developments within their countries or in relation to international political and economic regimes The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics economics education and the law consider the varying ways in which family and motherhood are affected by the state s construction of the gendered citizen by social constructs of motherhood and by policies regarding women and children s access to health care and identify the roles played by religion and spirituality in these circumstances

**Celibacy, Seminary Formation, and Catholic Clerical Sexual Abuse** Vivencio O. Ballano,2024-04-30 Does the current celibate semi monastic and all male seminary formation contribute to the persistence of clerical sexual abuse in the Roman Catholic Church Applying sociological theories on socialization total institutions and social resistance as the primary conceptual framework and drawing on secondary literature media reports the author s experience interviews and Church documents this book argues that the Catholic Church s institution of the celibate seminary formation as the only mode of clerical training for Catholic priests has resulted in negative unintended consequences to human formation such as the suspension of normal human socialization in society psychosexual immaturity and weak social control against clerical sexual abuse The author thus contends that celibate training while suitable for those who do live in religious or monastic communities is inappropriate for those who are obliged to live alone and work in parishes As such an alternative model for diocesan clerical formation is advanced A fresh look at the aptness and effects of celibate formation for diocesan clergy this volume is the first to relate the persistence of Catholic clerical sexual abuse to celibate seminary formation exploring the structural links between the two using sociological arguments and proposing an apprenticeship based model of formation which has numerous advantages as a form of clerical training It will therefore appeal to scholars and students of religion sociology and theology as well as those involved with seminary formation
