Astrogeographia Robert Powell, David Bowden, 2012-10-01 There are many books on the sacredness and the spirituality of our Earth Few books however deal with the relationship between the Earth and the cosmos which is the central theme for the research presented in this book Its point of departure is the one to one correspondence between the encircling starry heavens the celestial sphere and the sphere of the earthly globe David Bowden has not only worked out the mathematics of this one to one correspondence but has also written a computer program that applies it in practice Thus a new science has been born Astrogeographia concerning the one to one correspondence between the earthly sphere and the celestial sphere

Cooley,2013-03-19 Modern science historians have typically treated the sciences of the ancient Near East as separate from historical and cultural considerations At the same time biblical scholars dominated by theological concerns have historically understood the Israelite god as separate from the natural world Cooley s study bringing to bear contemporary models of science history on the one hand and biblical studies on the other hand seeks to bridge a gap created by 20th century scholarship in our understanding of ancient Near Eastern cultures by investigating the ways in which ancient authors incorporated their cultures celestial speculation in narrative In the literature of ancient Iraq celestial divination is displayed quite prominently in important works such as Enuma Eli and Erra and I um In ancient Ugarit as well the sky was observed for devotional reasons and astral deities play important roles in stories such as the Baal Cycle and Shahr and Shalim Even though the veneration of astral deities was rejected by biblical authors in the literature of ancient Israel the Sun Moon and stars are often depicted as active conscious agents In texts such as Genesis 1 Joshua 10 Judges 5 and Job 38 these celestial characters these sons of God are living dynamic members of Yahweh s royal entourage willfully performing courtly martial and calendrical roles for their sovereign The synthesis offered by this book the first of its kind since the demise of the pan Babylonianist school more than a century ago is about ancient science in ancient Near Eastern literature **Resurrection of the Dead in Early Judaism, 200**

BCE-CE 200 Casey Deryl Elledge, 2017 Resurrection of the dead represents one of the more enigmatic beliefs of Western religions to many modern readers In this volume C D Elledge offers an interpretation of some of the earliest literature within Judaism that exhibits a confident hope in resurrection He not only aids the study of early Jewish literature itself but expands contemporary knowledge of some of the earliest expressions of a hope that would become increasingly meaningful in later Judaism Christianity and Islam Elledge focuses on resurrection in the latest writings of the Hebrew Bible the Apocrypha Pseudepigrapha Dead Sea Scrolls as well as the writings of other Hellenistic Jewish authors He also incorporates later rabbinic writings early Christian sources and inscriptions as they shed additional light upon select features of the evidence in question This allows for a deeper look into how particular literary works utilized the discourse of resurrection while also retaining larger comparative insights into what these materials may teach us about the gradual flourishing of resurrection within its early Jewish environment Individual chapters balance a more categorical comparative approach to the problems raised by resurrection definitions diverse conceptions historical origins strategies of legitimation with a more specific focus on particular pieces of the early Jewish evidence 1 Enoch Dead Sea Scrolls Josephus Resurrection of the Dead in Early Judaism 200 BCE CE 200 provides a treatment of resurrection that informs the study of early Jewish theologies as well as their later reinterpretations within Rabbinic Judaism and Christianity
