The Archaeology of Anatolia Volume II Sharon R. Steadman, 2018-07-27 This second volume in the Archaeology of Anatolia series offers reports on the most recent discoveries from across the Anatolian peninsula. Periods covered span the Epipalaeolithic to the Islamic and sites and regions range from the western Anatolian coast to Van as well as the southeast. Also included here are both reviews of recent work at ongoing excavations and data retrieved from the last several years of survey projects. This series presents a forum in which scholars report their most recent data to a global audience allowing for productive engagement with others working in and near Anatolia. Published every two years, *The Archaeology of Anatolia Recent Discoveries Series* is an invaluable vehicle through which working archaeologists may carry out their most critical task: the presentation of their fieldwork and laboratory research in a timely fashion. **Quichean Civilization** Robert M. Carmack, 2024-06-21

The Quiche state in Guatemala flourished for several centuries before being destroyed by the conquistadors in 1524. During the early years of the ensuing period, the Quicheans recorded their past history and legends writing in their own language but using the Latin alphabet. Many of these chronicles have survived, each illuminating various aspects of pre-conquest Quichean culture. Organized in six sections, *Quichean Civilization* categorizes all the documented sources describing the Quiche Maya.
