Phillips on Religious Language, Religious Truth, and God Hyoseok Kim, 2022-02-25 D Z Phillips 1934 2006 was one of the most influential ingenious and perhaps controversial thinkers in the Anglo American philosophy of religion In particular he is widely regarded as a leading proponent of a Wittgensteinian approach to the philosophy of religion While almost every book on religious language or Anglophone philosophy of religion deals with Phillips thought or at least mentions his name all too frequently his position has been grossly misunderstood and has often attracted unwarranted criticism from various sides Seeking to offer a constructive presentation and critical discussion of Phillips view of philosophy religious language religious truth and God Hyoseok Kim endeavors to resolve some misunderstandings refute undue criticisms of Phillips position and make some suggestions concerning directions in which his view might and ought to be further developed **The Concept of Correlation** John P. Clayton, 2011-12-22 No detailed description available for The Concept of Correlation Destroying Idols Norman K. An Analytical Philosophy of Religion Willem Frederik Zuurdeeg, 2013-05-02 This original study published initially in 1959 introduces students of philosophy and of theology to a treatment of religion based upon the methods of modern philosophy particularly logical empiricism and existentialism Above and beyond the importance of its point of view this book is distinguished by its clarity and by its objective and understanding presentation of
