**American Indian Creation Myths** Teresa Pijoan PhD, 2012-07-25 Myths tell us much about a people And all cultures have creation myths The myths collected by the author in this book tell us about the rich and varied lives and imagination of the first Americans They vary from simple to complex and all attempt to answer the question of human origin Native Americans are of profound beginnings Each Tribe Group or Pueblo hold their beginning to be truths unique from one another The beliefs in this book are only a sampling of the many that still exist today In collecting these tales the author says no tape recorder was used and no notes were taken during the telling Immediately after the session copious notes were taken and later expanded into a recreation of the myth Subjects were located through word of mouth and after a short time people started coming forward and volunteering their stories The people hold the stories May they continue to tell and share with their families communities and the outsiders We have much to learn from Creation from each other and from the holders of the stories TERESA PIJOAN was raised on the San Juan Pueblo Indian Reservation in New Mexico and later her family moved to the Nambe Indian Reservation She is a national lecturer storyteller research writer college professor and teacher She has lectured throughout Central Europe Mexico and the United States Her other books from Sunstone Press are *Healers on the Mountain* *Pueblo Indian Wisdom* *Ways of Indian Magic* and *Dead Kachina Man* *Hidatsa Social and Ceremonial Organization* Alfred W. Bowers, 1992-01-01 *Hidatsa Social and Ceremonial Organization* a study of an important horticultural Plains Indian tribe synthesizes the rich material Alfred W Bowers recorded in the early 1930s from the last generation of Hidatsas who lived in the historic village of Like a Fishhook This documentary record of their nineteenth century lifeways is now a classic in American ethnography The book is distinguished for its presentation of extensive personal and ritual narratives that allow Hidatsa elders to articulate directly their conceptions of traditional culture It combines archeological and ethnographic approaches to reconstruct a Hidatsa culture history that is shaped by a concern for cultural detail stemming from the American ethnographic tradition of Franz Boas At the same time its concern for the understanding of social structure reflects the influence of the British structural functional approach of A R Radcliffe Brown The most comprehensive account ever published on the Hidatsas it is of enduring value and interest **The Lone Man** Bernardo Atxaga, 1996 A Barcelona hotelier hides two Basque separatists and begins living off his nerves as the hotel is filled with police guarding a foreign soccer team The World Cup is on The hotelier an ex Basque revolutionary cannot decide whether he is taking such risk out of nobility of spirit or boredom *Becoming and Remaining a People* Howard L. Harrod, 2021-10-12 The power of religion to preserve individual and group identity is perhaps nowhere more evident than among Native American peoples In *Becoming and Remaining a People* Howard Harrod shows how the oral traditions and ritual practices of Northern Plains Indians developed how they were transformed at critical points in their history and how they provided them with crucial means of establishing and maintaining their respective identities This book offers a bold new

interpretation of anthropological studies demonstrating how religious traditions and ritual processes became sources of group and individual identity for many people Harrod reconstructs the long religious development of two village peoples the Mandans and the Hidatsas describing how their oral traditions enabled them to reinterpret their experiences as circumstances changed He then shows how these and other groups on the Northern Plains remained distinct peoples in the face of increased interactions with Euro Americans other Indians and the new religion of Christianity Harrod proposes that other interpretations of culture change may fail to come to terms with the role that religion plays in motivating both cultural conservatism and social change For Northern Plains peoples religion was at the heart of social identity and thus resisted change but religion was also the source of creative reinterpretation which produced culture change Viewed from within the group such change often seemed natural and was understood as an elaboration of traditions having roots in a deeper shared past In addition to demonstrating religious continuity and change among the Mandans and the Hidatsas he also describes instances of religious and social transformation among the peoples who became the Crows and the Cheyennes Becoming and Remaining a People adopts a challenging analytical approach that draws on the author's creative interpretations of rituals and oral traditions By enabling us to understand the relation of religion both to the construction of social identity and to the interpretation of social change it reveals the richness depth and cultural complexity of both past Native American people and their contemporary successors

dissatisfied and as far out to the vast universe only to reel back with the simple appreciation for the mundane and overlooked in The Woeful Dandelion and then getting lost in the wildly strange ride of Entropic Times in an Alley The Poems in A Spectrum of a State of Wonder ponder many questions and cross many styles making a myriad of observations of the nuanced world of which we inhabit Though largely different many of these Poems all use a core inspiration that of utter wonder of reality itself and the Poems of A Spectrum of a State of Wonder aim to share this curiosity **The Last Race**
