everyday in Woolf's ethics The Everyday Justin Derry, Martin Parrot, 2014-10-17 The Everyday Experiences Concepts and Narratives is an interdisciplinary book problematizing the slippery notion of Everyday Life Contributing to a tradition of 20th century scholarly work focusing on Everyday Life this book specifically attends to the multiple ways that the quotidian aspects of our day to day existence become knotted into situated narratives and concepts In their depth and breadth the chapters compiled here all work with an understanding of everyday life that is i **Virginia Woolf** Lorraine Sim, 2016-02-11 In her timely contribution to revisionist approaches in modernist studies Lorraine Sim offers a reading of Virginia Woolf's conception of ordinary experience as revealed in her fiction and nonfiction Contending that Woolf's representations of everyday life both acknowledge and provide a challenge to characterizations of daily life as mundane Sim shows how Woolf explores the potential of everyday experience as a site of personal meaning social understanding and ethical value Sim's argument develops through readings of Woolf's literary representations of a subject's engagement with ordinary things like a mark on the wall a table or colour Woolf's accounts of experiences that are both common and extraordinary such as physical pain or epiphanic moments of being and Woolf's analysis of the effect of new technologies for example motor cars and the cinema on contemporary understandings of the external world Throughout Sim places Woolf's views in the context of the philosophical and lay accounts of ordinary experience that dominated the cultural thought of her time These include British Empiricism Romanticism Platonic thought and Post Impressionism In addition to drawing on the major novels particularly The Voyage Out Mrs Dalloway and To the Lighthouse Sim focuses close attention on short stories such as The Mark on the Wall Solid Objects and Blue nonfiction works including On Being Ill Evening over Sussex Reflections in a Motor car and A Sketch of the Past and Woolf's diaries Sim concludes with an account of Woolf's ontology of the ordinary which illuminates the role of the everyday in Woolf's ethics Locative Media Rowan Wilken, Gerard Goggin, 2014-08-07 Not only is locative media one of the fastest growing areas in digital technology but questions of location and location awareness are increasingly central to our contemporary engagements with online and mobile media and indeed media and culture generally This volume is a comprehensive account of the various location based technologies services applications and cultures as media with an aim to identify inventory explore and critique their cultural economic political social and policy dimensions internationally In particular the collection is organized around the perception that the growth of locative media gives rise to a number of crucial questions concerning the areas of culture economy and policy Henri Lefebvre, Metaphilosophy, and Modernity Patrick Gamsby, 2025-08-22 Henri Lefebvre Metaphilosophy and Modernity provides a new interpretation of the work of Henri Lefebvre 1901 1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre's The Production of Space as the point of departure and or on his theorizing of everyday life with his multi volume Critique of Everyday Life as the focal point This book argues

that it is Lefebvre's concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre's writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology

Radical Space Debra Benita Shaw, Maggie Humm, 2016-03-24 The spatial turn in the Humanities and Social Sciences has produced a considerable body of work which reassesses space beyond the fixed Cartesian coordinates of Modernity and the nation state In the process space has been revealed as a productively contested concept with methodological implications across and between disciplines The resulting understandings of space as fluid changeable and responsive to the situation of bodies both human and non human has prepared the ground for radical concepts and uses of space with implications for how we conceive of contemporary lived reality Rather than conceiving of bodies as constantly rendered docile within the spaces of the post industrial nation state Radical Space reveals how activists and artists have deployed these theoretical tools to examine and contest spatial practice Bringing together contributions from academics across the humanities and social sciences together with creative artists this dynamically multidisciplinary collection demonstrates this radicalization of space through explorations of environmental camps new explorations of psychogeography creative interventions in city space and mapping the extra terrestrial onto the mundane spaces of everyday existence
