Perspectives on the Age of the Earth and Why They Matter Francis Ö. Dudás, 2020-02-13 Polls show almost half of US adults believe that Earth is only 10 000 years old whereas scientists consider our planet to be 4 56 billion years old Examining these conflicting views illuminates aspects of the perceived conflict between religion and science and helps us understand the battles between evolutionist and

creationist advocates This book examines how we approach knowledge and how we look at certainty It disentangles the threads of the traditional knowledge we are taught from the knowledge we gain from our own investigation of truth It argues that nature the basis of science and scripture the basis of religion derive from a single source Because of their shared origins religious and scientific perspectives grounded in verifiable truths must be in harmony The book presents the science behind the reliability of isotopic dates and critiques young earth creationist attacks on isotopic studies Though the nature of time is a philosophical issue its measurement is a scientific venture that has affirmed that Earth is 4 56 billion years old The harmony of science and religion based on recognition of their single source is a prerequisite for the progress of humanity as a whole

Books in Print ,1991 **The Bahá'í World** ,2005 *Nature and Logos* William S. Hamrick,Jan Van der

Veken,2012-01-02 This is the first booklength account of how Maurice Merleau Ponty used certain texts by Alfred North Whitehead to develop an ontology based on nature and how he could have used other Whitehead texts that he did not know in order to complete his last ontology This account is enriched by several of Merleau Ponty s unpublished writings not previously available in English by the first detailed treatment of certain works by F W J Schelling in the course of showing how they exerted a substantial influence on both Merleau Ponty and Whitehead and by the first extensive discussion of Merleau Ponty s interest in the Stoics s notion of the twofold logos the logos endiathetos and the logos proforikos This book provides a thorough exploration of the consonance between these two philosophers in their mutual desire to overcome various bifurcations of nature and of nature from spirit that continued to haunt philosophy and science since the 17th century
