diplomacy *The Georgian London Town House* Kate Retford, Susanna Avery-Quash, 2019-03-07 For every great country house of the Georgian period there was usually also a town house Chatsworth for example the home of the Devonshires has officially been recognised as one of the country's favourite national treasures but most of its visitors know little of Devonshire House which the family once owned in the capital In part this is because town houses were often leased rather than being passed down through generations as country estates were But most crucially many London town houses including Devonshire House no longer exist having been demolished in the early twentieth century This book seeks to place centre stage the hugely important yet hitherto overlooked town houses of the eighteenth and early nineteenth centuries exploring the prime position they once occupied in the lives of families and the nation as a whole It explores the owners how they furnished and used these properties and how their houses were judged by the various types of visitor who gained access

The Making of London Alan Brooke, David Brandon, 2023-03-23 The Making of London explores the rich history of the Metropolis from the Roman settlement established 2 000 years ago in the area that came to be known as the Square Mile and traces the process whereby it eventually emerged as the world's greatest city London became the capital and seat of government of Britain a center of culture entertainment and retailing a major port and industrial center and world leader in international trade commerce and finance The focus is largely on central London but necessarily brings in other nearby districts when events involved interaction with these While examining a selection of major historical events consideration is also given to some of the more unusual and quirky aspects that have contributed to making London the diverse and fascinating place it remains today A largely chronological approach is taken which emphasizes how the lives of the ordinary people were shaped by the events they witnessed such as invasions riots and rebellions fires smogs wars epidemics and pandemics The story embraces the apparent glamour of areas such as Mayfair and the West End but does not neglect districts stalked by crime poverty and despair London has always been a place of paradoxes where flaunted wealth has existed alongside appalling social deprivation The juxtaposition of extravagance and poverty of high culture with the lowest of low life is a recurrent theme in London's history The Making of London will interest newcomers wishing to know about London's past but even those familiar with its history are likely to find something new in its pages **Sport in Britain** Richard William Cox, 1991 **A Popular, Pictorial and Practical Guide to London: its Public Buildings, Leading Thoroughfares, and principal Objects of Interest, with Notices of the Tate Gallery, Blackwall Tunnel, and other recent Additions** , 1898
