London Millenium:

London City Churches Leigh Hatts,2003 London Sterling Professor of Humanities Harold Bloom,Donna Dailey,John Tomedi,Harold Bloom,2005 Discusses the city of London as a source of inspiration as well as a home to writers throughout history *A History of the Future* Peter J. Bowler,2017-11-02 In this wide ranging survey Peter J Bowler explores the phenomenon of futurology predictions about the future development and impact of science and technology on society and culture in the twentieth century Utilising science fiction popular science literature and the novels of the literary elite Bowler highlights contested responses to the potential for revolutionary social change brought about by real and imagined scientific innovations Charting the effect of social and military developments on attitudes towards innovation in Europe and America Bowler shows how conflict between the enthusiasm of technocrats and the pessimism of their critics was presented to the public in books magazines and exhibitions and on the radio and television A series of case studies reveals the impact of technologies such as radio aviation space exploration and genetics exploring rivalries between innovators and the often unexpected outcome of their efforts to produce mechanisms and machines that could change the world **Fairy Tales of London** Hadas Elber-Aviram,2021-01-28 Finalist for the 2022 Mythopoeic Scholarship Award for Myth and Fantasy Studies From the time of Charles Dickens the imaginative power of the city of London has frequently inspired writers to their most creative flights of fantasy Charting a new history of London fantasy writing from the Victorian era to the 21st century Fairy Tales of London explores a powerful tradition of urban fantasy distinct from the rural tales of writers such as J R R Tolkien Hadas Elber Aviram traces this urban tradition from Dickens through the scientific romances of H G Wells the anti fantasies of George Orwell and Mervyn Peake to contemporary science fiction and fantasy writers such as Michael Moorcock Neil Gaiman and China Mi ville *The London Cabbie's Quiz Book* Ian Beetlestone,2020-07-28 Get up to speed on London trivia and get inside the heads of black cab drivers with questions from the famously difficult test they have to pass Pay a visit to London and a black cab will probably be one of the first things you will see The London taxi drivers are almost as famous as the black cabs in which they drive this is mainly due to their in depth knowledge of London and ability in taking their occupants to their desired destination amid the congestion and the chaos that you often find when travelling through London s streets London taxi drivers go through stringent training to obtain their licence they need to pass The Knowledge a test which is among the hardest to pass in the world and has been described as like having an atlas of London implanted into your brain The test requires you to master no fewer than 320 basic routes all of the 40 000 streets that are scattered within the basic routes and approximately 20 000 landmarks and places of public interest that are located within a six mile radius of Charing Cross This book breaks the test down into a series of head scratching questions and features enough trivia about the capital to surprise even born and bred Londoners It s the perfect gift for anyone who thinks they know London inside out or wants to learn more Worlds So Strange and Diverse Grzegorz Trębicki,2015-02-05 This book represents an analysis of

contemporary fantasy non mimetic literature in all its richness and diversity and offers a preliminary definition of the major fields of taxonomical interest in addition to marking some of the unmapped territories of fantastic fiction In its first part the book presents an overview of all major previous theoretical discussions of the issue particularly those by Tzvetan Todorov Rosemary Jackson Darko Suvin Brian Attebery Marek Oziewicz and Farah Mendlesohn The second part of the book provides an interesting comprehensive taxonomy of its own based on the notion of supragenological types of literature first introduced by Andrzej Zgorzelski
