Long Conversation A Memoir Of David Jones:

The Long Conversation William Blissett, 1981 [David Jones on Religion, Politics, and Culture](#) David Jones, 2018-06-28

David Jones author of *In Parenthesis* the great poem of World War I is increasingly recognized as a major voice in the first generation of British modernist writers Acclaimed by the likes of T S Eliot W B Yeats and W H Auden his writing was deeply informed by his Catholic faith and Welsh blood This book makes available for the first time a number of previously unpublished statements by Jones that open new perspectives on his own work and the religious political and cultural engagements of British modernism more broadly Annotated throughout with detailed commentaries exploring the historical context of each document the volume presents the restored text of Jones s essay on Hitler and includes a letter to Neville Chamberlain an unfinished essay on Gerard Manley Hopkins and the transcript of an interview with Jones a year before his death These reveal an unknown side of Jones and give fresh insight into the influences and assumptions of 20th century British literary culture

David Jones and Rome Jasmine Hunter Evans, 2022-02-03 This interdisciplinary and archival study explores the reception of ancient Rome in the artistic literary and philosophical works of David Jones 1895 1974 the Anglo Welsh Roman Catholic First World War veteran For Jones the twentieth century was a period of crisis an age of conflict disillusionment and cultural decay all of which he saw as evidence of the decline of Western civilisation Across his lifetime Jones would create a dynamic vision of ancient Rome in an attempt both to understand and to challenge this situation His reimagining of Rome was not founded on a classical education Instead it was fashioned from his lived experience extensive reading and most importantly his engagement with four areas of contemporary discourse that were themselves built upon intricate and conflicting representations of Rome British political rhetoric cyclical history the Catholic cultural revival and the Welsh nationalist movement Tracing Jones s developing approach to Rome across these contexts can provide a way into his art and thought Whether in his poetic fragments watercolours essays letters marginalia or unique painted inscriptions Jones strove to question complicate and remake Rome s relationship with modernity In this way Rome appears in Jones s works both as a symbol of transhistorical imperialism totalitarianism and the mechanisation of life and simultaneously as the cultural and religious progenitor of the West and in particular of Wales with which artists must creatively reconnect if decline was to be avoided

David Jones and the Craft of Theology Elizabeth R Powell, 2020-10-01 This is an imaginative exploration of the art of David Jones which addresses Christian teaching through engagement with selected artistic works a poem a painted inscription and a wood engraving Elizabeth R Powell s study does not just enable readers to understand Jones but also to use his kind of loving attention in their own lives which Jones would argue is theology s most important task Through close readings of material objects Powell draws the reader into the participatory performative and dialogical possibilities of the craft of theology She frames an older style of theology in a distinctive and modern way as a graced human practice and a place of transforming relation with the divine Powell argues that Jones s art works offer places of beauty in

which to become beauty along the way Located at the cross section of theology literature and the arts this volume shows that being interdisciplinary is nothing less than finding ways for theology and humanity to be more richly itself *David Jones: A Christian Modernist?* Jamie Callison,Erik Tønning,Anna Johnson,Paul Fiddes,2017-11-01 David Jones A Christian Modernist is a major reassessment of the work of the poet artist and essayist David Jones 1895 1974 in light of the complex ambiguous idea of a Christian modernism His richly experimental and palimpsestic poetry art and thought drew extensively on Christian tradition and symbolism as a key to the future rejecting a technocratic and utilitarian modernity in favour of a revitalised culture of sign and sacrament This volume examines historical influences on Jones s development his impassioned engagement with the idea of modernity and with modernist literature and art the theological sources and resonances of his work and contemporary or late modern perspectives on his achievement **Divine Cartographies** W. David Soud,2016-09-01 Recent critical studies of late modernism have explored the changing sense of both history and artistic possibility that emerged in the years surrounding World War II However relatively little attention has been devoted to the impact of poets theological deliberations on their visions of history and their poetic strategies *Divine Cartographies* God History and Poiesis in W B Yeats David Jones and T S Eliot triangulates key texts as attempts to map theologically driven visions of the relation between history and eternity W David Soud considers several poems of Yeats s final and most fruitful engagement with Indic traditions Jones s *The Anathemata* and Eliot s *Four Quartets* For these three poets working at the height of their powers that project was inseparable from reflection on the relation between the individual self and God it was also bound up with questions of theodicy subjectivity and the task of the poet in the midst of historical trauma Drawing on the fields of Indology theology and history of religions as well as literary criticism Soud explores in depth and detail how in these texts theology is poetics *Recharting the Thirties* Patrick J. Quinn,1996 The aim of *Recharting the Thirties* is to revitalize the awareness of the reading public with regard to eighteen writers whose books have been largely ignored by publishers and scholars since their major works first appeared in the thirties The selection is not based on a political agenda but encompasses a wide and divergent range of philosophies clearly the contrasts between Empson and Upward or between Powell and Slater indicated the wide ranging vision of the period Women writers of the period have largely been marginalized and the writings of Sackville West and Burdekin for example not only present distinct feminine voices of the period but also illuminate how much good literature has been forgotten **Handbook of British Literature and Culture of the First World War** Ralf Schneider,Jane Potter,2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown

how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War

The Third Spring Adam Schwartz,2005-02 This book is the first detailed examination of these four authors as part of a Roman Catholic counter modern community of discourse It is informed by extensive research in the writers works scholarship on them and their personal papers

Inward of Poetry George Johnston,William Blissett,2014-05-14 Inward of Poetry presents fifty years of thoughtful and by turns chatty letters between poet George Johnston and his good friend and frequent editor the scholar William Blissett Edited by former student Sean Kane this lively collection includes several hitherto unpublished Johnston poems and reveals the development and creative necessities of one of Canada s revered poets and translators

comparable to Cormac McCarthy especially his *Blood Meridian* Tolkien took note of a tight analytical connection between the vanity driving commercial civilization which Hume Smith and Ferguson all identified and the vanity driving the Promethean fantasies of apocalyptic politics War indeed total war is a predictable outcome of this analytical connection The three theses run 1 metaphysical the apocalyptic anxiety of Tolkien's lore is traceable to the gnostic rejection of the analogy of being typical of the philosophies of history that dominated his day 2 political in the English context Tolkien sided with the Tories against Whiggery defending monarchy as a counterweight to the vanity driving progressive philosophy of history 3 aesthetic Futurism's philosophy of history celebrated the Machine inverting the value order the Futurism art movement encoded anti Christianity fascist politics and apocalyptic war Tolkien's cosmogonical drama with its pastoralism and portraits of angels Gandalf and gods Nienna dramatizes an aesthetic resistance to Futurism **Dominican Gallery** Aidan Nichols, 1997

themes and allusions in modernist poetry are not just metaphors Following the religious turn in other disciplines literary critics have emphasized how modernists like Woolf and Joyce were haunted by Christianity's cultural traces despite their own lack of belief In *Poetry and Theology in the Modernist Period* Anthony Domestico takes a different tack arguing that modern poets such as T S Eliot W H Auden and David Jones were interested not just in the aesthetic or social implications of religious experience but also in the philosophically rigorous dogmatic vision put forward by contemporary theology These poets took seriously the truth claims of Christian theology for them religion involved intellectual and emotional assent doctrinal articulation and ritual practice Domestico reveals how an important strand of modern poetry actually understood itself in and through the central theological questions of the modernist era What is transcendence and how can we think and write about it What is the sacramental act and how does its wedding of the immanent and the transcendent inform the poetic act How can we relate kairos holy time to chronos clock time Seeking answers to these complex questions Domestico examines both modernist institutions the *Criterion* and specific works of modern poetry Eliot's *Four Quartets* and Jones's *The Anathemata* The book also traces the contours of what it dubs theological modernism a body of poetry that is both theological and modernist In doing so this book offers a new literary history of the modernist period one that attends both to the material circulation of texts and to the broader intellectual currents of the time
