human rights violations is a contemporary issue gaining increased attention in both national and international politics Post conflict societies have to face the legacies of the dark past and dealing with a large group of victims is one of them Transitional justice mechanisms trying to cope with the past should not overlook the issue of reparation This research demonstrates how reparation for victims of gross and systematic human rights violations differs from reparation for isolated violations The Rwandan case study unveils the role of victim organisations in and the competition and politicisation of the reparation debate Although reparation for victims is a crucial element in transitional justice it becomes clear that the way in which the reparation debate unfolds does not necessarily contribute to the peaceful future of a post conflict society This study argues that remedying the process and debate of the search for reparation will lead to an improved and more constructive reparation policy

French Civil Liability in Comparative Perspective Jean-Sébastien Borghetti, Simon Whittaker, 2019-12-26 The French law of torts or of extra contractual liability is widely seen as exceptional For long it was based on a mere five articles of the Civil Code of 1804 but on this foundation the courts and legal scholars have constructed liabilities for fault and strict liability of an extraordinary breadth and significance While the rest of the general law of obligations including contract in the Civil Code was reformed in 2016 by executive ordonnance this area was left aside being the subject in 2017 of a proposal by the French Government for the legislative reform of the law of civil liability a new legislative category to include both contractual and extra contractual liability This work considers important aspects of this developing area of French law in a series of essays by French lawyers and comparative lawyers working in French law and other civil law systems In doing so it provides insight into the doctrinal thinking and judgments of French lawyers as well as the possible directions in which this area of the law may be developed in the future

Non-Contractual Liability Arising out of Damage Caused to Another Christian von Bar, 2009-08-17 Non contractual liability arising out of damage caused to another is one of the three main non contractual obligations dealt with in the DCFR The law of non contractual liability arising out of damage caused to another in the Common Law known as tort law or the law of torts but in most other jurisdictions referred to as the law of delict is the area of law which determines whether one who has suffered a damage can on that account demand reparation in money or in kind from another with whom there may be no other legal connection than the causation of damage itself Besides determining the scope and extent of responsibility for dangers of one's own or another's creation this field of law serves to protect fundamental rights in the private law domain that is to say horizontally between citizens inter se Based on pan European comparative research which annotates the work this volume presents model rules on liability Explanatory comments and illustrations amplify the policy decisions involved During the drafting process comparative material from over 25 different EU jurisdictions has been taken into account The work therefore is not only a presentation of a future model for European rules to come but provides also a fairly detailed indication of the present legal situation in the Member States

Festschrift Ahmed Sadek El-Kosheri Mohamed Abdel Raouf, Philippe Leboulanger, 2015-06-24 With this Festschrift the Bahrain Chamber for Dispute Resolution BCDR AAA is starting a tradition of honoring Arab scholars and practitioners who promote international arbitration and international law Over the last few decades international arbitration institutions and

international law societies have generously acknowledged the work of leading scholars and practitioners from the region. The time has come however for these individuals to be honored by institutions within the region. It should come as no surprise that the BCDR AAA is dedicating this first Festschrift to Professor Dr Ahmed El Kosheri. His immense contributions to international commercial arbitration, international investment arbitration and international law more broadly, as well as his significant influence on a generation of lawyers and students from the Arab region and beyond, fully justify this choice. As a testament to Dr El Kosheri's remarkable career, broad intellectual horizons and extensive geographical reach, the Festschrift includes contributions from forty-six authors, judges, arbitrators, practitioners and scholars representing twenty-one nationalities from the Middle East, North and Western Africa, East Asia, Europe and North and South America, who wrote on topics as diverse as international arbitration and ADR mechanisms, international investment law, public international law, including international administrative law and private international law, in Arabic, English and French. One can hardly think of another Arab figure who has done more than Dr El Kosheri to strengthen international law while bridging legal-cultural divides between the Arab region and the rest of the world. He will undoubtedly continue to inspire many generations to come.
