**Search of Julián Carrillo and Sonido 13** Alejandro L. Madrid, 2015-09-01 In the 1920s the Mexican composer Julián Carrillo 1875-1965 developed a microtonal system called *El Sonido 13* The 13th Sound Although his pioneering role as one of the first proponents of microtonality within the Western art music tradition elevated Carrillo to iconic status among European avant garde circles in the 1960s and 1970s his music and legacy have remained largely overlooked by music scholars critics and performers Confronting this paucity of scholarship on Carrillo and his music Alejandro L. Madrid goes above and beyond filling in the historical record Combining archival and ethnographic research with musical analysis and cultural theory Madrid argues that Carrillo and *Sonido 13* are best understood as a cultural complex a network of moments spaces and articulations in which Carrillo and his music continuously re-acquire significance and meaning Thus Madrid explores Carrillo's music and ideas not only in relation to the historical moments of their inception but also in relation to the various cultural projects that kept them alive and re-signified them through the beginning of the twenty-first century Eschewing traditionally linear historical frameworks *In Search of Julián Carrillo and Sonido 13* employs an innovative transhistorical narrative in which past present and future are explored dialogically in order to understand the politics of performance and self-representation behind Carrillo and *Sonido 13* *In Search of Julián Carrillo and Sonido 13* transforms the traditional genre of the composer study treating it not as a celebration of masters and masterworks but as a pointed

postcolonial intervention that offers invaluable insight into the politics of cultural exchange experimentalism marginality and cultural capital in twentieth century Mexico      **Inherit the Dust from the Four Winds of Revilla** José M.

Peña,2006-05-16 Rich in period analysis here is fascinating historical perspective covering 250 years of existence primarily of a 1750 Spanish settlement originally called Villa del Seor San Ignacio de Loyola de Revilla and now known as Guerrero Viejo Although many books cover the genealogical aspects of families that originated in this city the historical contributions of the early pioneers their descendents and the controversy related to land grants called Porciones awarded by the King of Spain have for the most part remained in the background This then is the principal objective of this book The book provides summaries on the evolution history wars and problems of Mexico Using some of his ancestors as a sample the author shows the hardships they endured and discusses their contribution in the formation of the two great nations that the United States and Mexico have become At the same time the book shows that the land grants and heirs took one of two alternate roads depending on their location when Texas and other territories were ceded to the United States People and land grants located on the Mexican side were victims of the violent and blood soaked history that Mexico has had On the other hand those located on the U S side were subjected to mischief and flagrant violations of the terms of the Treaty of Guadalupe Hidalgo Sadly in 1953 the Falcon Dam inundated Guerrero Viejo and many of the land grants Thus for all intents and purposes the heirs of most land grants met the same end and a financial obligation of 193 0 Million plus interest exchanged between the U S and Mexico has remained unpaid for over 80 years The reader will long remember the amazing facts developed in this book

caballos los amores los amores las pasiones los bandidos bajo el maravilloso cielo de Coahuila y Texas      The Little Old Lady Killer Susana Vargas Cervantes, 2017-04-25 The surprising true story of Mexico's hunt, arrest and conviction of its first female serial killer. For three years amid widespread public outrage, police in Mexico City struggled to uncover the identity of the killer responsible for the ghastly deaths of forty elderly women, many of whom had been strangled in their homes with a stethoscope by someone posing as a government nurse. When Juana Barraza Samperio, a female professional wrestler known as la Dama del Silencio (the Lady of Silence), was arrested and eventually sentenced to 759 years in prison for her crimes as the Mataviejitas (the little old lady killer), her case disrupted traditional narratives about gender criminality and victimhood in the popular and criminological imagination. Marshaling ten years of research and one of the only interviews that Juana Barraza Samperio has given while in prison, Susana Vargas Cervantes deconstructs this uniquely provocative story. She focuses in particular on the complex gendered aspects of the case, asking: Who is a killer, Barraza, with her manly features and strength, her career as a masked wrestler in lucha libre, and her violent crimes? Is presented here as a study in gender deviance, a disruption of what scholars call *mexicanidad* or the masculine notion of what it means to be Mexican. Cervantes also challenges our conception of victimhood, specifically who counts as a victim. The Little Old Lady Killer presents a fascinating analysis of what serial killing, often considered killing for the pleasure of killing, represents to us.
