The Handbook of Communication History addresses central ideas social practices and media of communication as they have developed across time cultures and world geographical regions It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies The Handbook editors view communication as encompassing patterns processes and performances of social interaction symbolic production material exchange institutional formation social praxis and discourse As such the history of communication cuts across social cultural intellectual political technological institutional and economic history The volume examines the history of communication history the history of ideas of communication the history of communication media and the history of the field of communication Readers will explore the history of the object under consideration relevant practices media and ideas review its manifestations in different regions and cultures comparative dimensions and orient toward current thinking and historical research on the topic current state of the field As a whole the volume gathers disparate strands of communication history into one volume offering an accessible and panoramic view of the development of communication over time and geographical places and providing a catalyst to further work in communication history

Labor, Class Formation, and China's Informationized Policy of Economic Development Yu Hong, 2011-03-31

In *Labor Class Formation and China's Informationized Policy of Economic Development* Yu Hong examines crucial connections between the evolving political economy of information and communications technology ICT and the reconstitution of class relations in China Situating China's ICT development over the last thirty years at the intersection of transnational trends domestic policies and institutional arrangements Hong shows how evolving class relations in the ICT sector are shaped by and shaping the transnational capitalist dynamics and domestic socio economic transformations She goes on to argue that the huge and still expanding pool of Chinese ICT workers and their newly attained identities as wage labor rather than consumers constitute a missing but important dimension of human experiences of the rise of the information society

The Routledge Companion to Labor and Media Richard Maxwell, 2015-07-16

Labor resides at the center of all media and communication production from the workers who create the information technologies that form the dynamic core of the global capitalist system and the designers who create media content to the salvage workers who dismantle the industry's high tech trash *The Routledge Companion to Labor and Media* is the first book to bring together representative research from the diverse body of scholarly work surrounding this often fragmentary field and seeks to provide a comprehensive resource for the study and teaching of media and labor Essays examine work on the mostly unglamorous side of media and cultural production technology manufacture and every occupation in between Specifically this book features wide ranging international case studies spanning the major global hubs

of media labor interdisciplinary approaches for thinking about and analyzing class and labor in information communication technology ICT consumer electronics CE and media cultural production an overview of global political economic conditions affecting media workers reports on chemical environments and their effect on the health of media workers and consumers activist scholarship on media and labor and inspiring stories of resistance and solidarity **Media and Class** June Deery, Andrea Press, 2017-10-16 Although the idea of class is again becoming politically and culturally charged the relationship between media and class remains understudied This diverse collection draws together prominent and emerging media scholars to offer readers a much needed orientation within the wider categories of media class and politics in Britain America and beyond Case studies address media representations and media participation in a variety of platforms with attention to contemporary culture from celestoids to selfies Downton Abbey to Duck Dynasty and royals to reality TV These scholarly but accessible accounts draw on both theory and empirical research to demonstrate how different media navigate and negotiate caricature and essentialize or contain and regulate class **Working in the Global Film and Television Industries** Andrew Dawson, Sean Holmes, 2012-08-07 This multi disciplinary collection of essays provides a thorough analysis of working life in the film and television industries International in scope it is the first truly global introduction to film and TV production **Knowledge Workers in the Information Society** Catherine McKercher, Vincent Mosco, 2008-01-01 Knowledge Workers in the Information Society addresses the changing nature of work workers and their organizations in the media information and knowledge industries These knowledge workers include journalists broadcasters librarians filmmakers and animators government workers and employees in the telecommunications and high tech sectors Technological change has become relentless Corporate concentration has created new pressures to rationalize work and eliminate stages in the labor process Globalization and advances in telecommunications have made real the prospect that knowledge work will follow manufacturing labor to parts of the world with low wages poor working conditions and little unionization McKercher and Mosco bring together scholars from numerous disciplines to examine knowledge workers from a genuinely global perspective *Deliberation, Democracy, and the Media* Simone Chambers, Anne N. Costain, 2000 Interdisciplinary discussion of the ways in which the media is and can be used in the service of deliberative equality within the public sphere and of the ways in which the media can function to both facilitate and inhibit deliberative democracy back cover **Reflections on the International Association for Media and Communication Research** Jörg Becker, Robin Mansell, 2023-04-29 Throughout its 65 year history the International Association for Media and Communication Research IAMCR has sought to facilitate international exchanges and research collaborations among academics and journalists in the field of media and communication Created during a time of strong ideological tension following World War II in 1957 and with the support of UNESCO the contributors to this edited collection highlight how the IAMCR and its members shaped the field of media and communications research From its beginnings focusing on the mass media including the press and

journalism education today the Association attracts researchers and practitioners who undertake critical analysis of contemporary media and communications including online platforms and their governance Consistent themes throughout the Association s history have been its concern with human rights law culture and the political economy of the media and communication industries Not content simply to understand developments in the media and communications field around the world the Association s membership has sought to change the world through its published research and its participation in global regional national and local policy debate and practice This volume is organised in four parts following an introduction authored by editors who are active members of IAMCR Part I highlights eight prominent scholarly traditions of research which have attracted the interest of scholars from around the world as well as the way the Association has sought to be inclusive of early career scholars Part II offers seven chapters which bring to light the political struggles of a membership seeking to engage in scholarship across the East West divide and to contribute to global debates aimed at fostering an inclusive fair and equitable international information and communication order through engagement with United Nations sponsored initiatives Part III turns to accounts of the way members from selected countries and regions have contributed to the Association s scholarly work The last part highlights the significant scholarly and institution building contributions of James Halloran IAMCR s President from 1972 to 1988 and other prominent contributors to the study of culture and the political economy of media and communications

Class Struggle in Hollywood, 1930-1950 Gerald Horne, 2022-02-24 A taut narrative in elegant prose Horne has unearthed a vitally important and mostly forgotten aspect of Hollywood and labor history Publishers Weekly As World War II wound down in 1945 and the cold war heated up the skilled trades that made up the Conference of Studio Unions CSU began a tumultuous strike at the major Hollywood studios This turmoil escalated further when the studios retaliated by locking out CSU in 1946 This labor unrest unleashed a fury of Red baiting that allowed studio moguls to crush the union and seize control of the production process with far reaching consequences This engrossing book probes the motives and actions of all the players to reveal the full story of the CSU strike and the resulting lockout of 1946 Gerald Horne draws extensively on primary materials and oral histories to document how limited a threat the Communist party actually posed in Hollywood even as studio moguls successfully used the Red scare to undermine union clout prevent film stars from supporting labor and prove the moguls own patriotism Horne also discloses that unnoticed amid the turmoil organized crime entrenched itself in management and labor gaining considerable control over both the product and the profits of Hollywood This research demonstrates that the CSU strike and lockout were a pivotal moment in Hollywood history with consequences for everything from production values to the kinds of stories told in films to permanent shifts in the centers of power

Symbiosis Ray Broadus Browne, Marshall William Fishwick, 1988 These essays written by experts in their fields demonstrate how necessary it is in the study of the humanities and social sciences to realize the interdependency of the fields and how rich the resulting study can be

The Routledge Companion to Cinema and Politics

Yannis Tzioumakis, Claire Molloy, 2016-07-01 The Routledge Companion to Cinema and Politics brings together forty essays by leading film scholars and filmmakers in order to discuss the complex relationship between cinema and politics Organised into eight sections Approaches to Film and Politics Film Activism and Opposition Film Propaganda Ideology and the State The Politics of Mobility Political Hollywood Alternative and Independent Film and Politics The Politics of Cine geographies and The Politics of Documentary this collection covers a broad range of topics including third cinema cinema after 9 11 eco activism human rights independent Chinese documentary film festivals manifestoes film policies film as a response to the post 2008 financial crisis Soviet propaganda the impact of neoliberalism on cinema and many others It foregrounds the key debates concepts approaches and case studies that critique and explain the complex relationship between politics and cinema discussing films from around the world and including examples from film history as well as contemporary cinema It also explores the wider relationship between politics and entertainment examines cinema's response to political and social transformations and questions the extent to which filmmaking itself is a political act

In The Company Of Media Hanno Hardt, 2019-04-02 This book explores the imaginative construction of a cultural history of the media in a series of essays that draw on various artistic and intellectual narratives of Western societies and trace incidental encounters with the means of social communication in cultural and political settings

Screen Acting Peter Kramer, Alan Lovell, 2014-04-08 While not everyone would agree with Alfred Hitchcock's notorious remark that actors are cattle there is little understanding of the work film actors do Yet audience enthusiasm for or dislike of actors and their style of performance is a crucial part of the film going experience Screen Acting discusses the development of film acting from the stylisation of the silent era through the naturalism of Lee Strasberg's Method to Mike Leigh's use of improvisation The contributors to this innovative volume explore the philosophies which have influenced acting in the movies and analyse the styles and techniques of individual filmmakers and performers including Bette Davis James Mason Susan Sarandon and Morgan Freeman There are also interviews with working actors Ian Richardson discusses the relationship between theatre film and television acting Claire Rushbrook and Ron Cook discuss their work with Mike Leigh and Helen Shaver discusses her work with the critic Susan Knobloch

The Political Economy of Communication Vincent Mosco, 1996-10-14 What is political economy and how can it be applied to the study of media communication The Political Economy of Communication is the definitive critical overview of the discipline for students of the social sciences It explains in detail the analytic tools that political economy can apply to today's increasingly global and technological information society Mosco presents an historical overview of the discipline and defines political economy by its focus on the relation between the production distribution and consumption of communication in historical and cultural context This comprehensive analysis of the commodity form in communication includes an examination of print broadcast and new electronic media the role and function of the audience and the problem of social control It concludes by addressing the relationship of political economy to the increasingly important fields of policy studies and

cultural studies **Framed!** Christopher R. Martin, 2018-08-06 Christopher R Martin argues that the mainstream news media and the large corporations behind them put the labor movement in a bad light even while avoiding the appearance of bias Martin has found that the news media construct common ground narratives between labor and management positions by reporting on labor relations from a consumer perspective Martin identifies five central storytelling frames using this consumer orientation that repeatedly emerged in the news media coverage of major labor stories in the 1990s the 1991 94 shutdown of the General Motors Willow Run Assembly Plant in Ypsilanti Michigan the 1993 American Airlines flight attendant strike the 1994 95 Major League Baseball strike the 1997 United Parcel Service strike and the 1999 protests against the World Trade Organization's conference in Seattle In Martin's view the news media's consumer take on the labor movement has the effect of submerging issues of citizenship political activity and class relations and elevating issues of consumption and the myth of a class free America Instead of facilitating a public sphere the democratic ideal in which the public can engage in discovery and rational critical debate Martin says news organizations have fostered a consumer sphere in which public discourse and action is defined in terms of consumer interests the impact of strikes lock outs shut downs and protests on the general consumer economy and the price quality and availability of things such as automobiles airline flights and baseball tickets

British Marxism and Cultural Studies Philip Bounds, David Berry, 2016-04-20 A comprehensive exploration of the profound influence of Marxist ideas on the development of Cultural Studies in Britain this volume covers a century of Marxist writing balancing synoptic accounts of the various schools of Marxist thought with detailed analyses of the most important writers Arguing that a recognisably Marxist tradition of cultural analysis began in the last two decades of the nineteenth century and continues unbroken to the present day British Marxism and Cultural Studies traces the links between contemporary developments in the field and the extended tradition of which they form a part With discussion of figures such as Jack Lindsay C L R James Julian Stallabrass and Mike Wayne as well as the cultural thinking of the New Left Gramscian Althusserian and Political Economy schools this book shows that the history of British cultural Marxism is broader and richer than many people realise As such it will be of interest to scholars and students of sociology cultural studies intellectual history and the history of the Left

Newsworkers Hanno Hardt, Bonnie Brennen, 1995 Focusing on the period from the 1850s through the 1930s the contributors show how issues of labor and class have been far more important in the formation of media institutions than previous accounts concede These essays recover the history of ethnic and cultural diversity including the contributions of women that have enriched the process of communication

Rethinking Communication International Communication Association, 1989-03 This second volume of the two volume set Rethinking Communication presents examples of the diversity of perspectives and theoretical problems that currently occupy the attention of the field Each of the 30 chapters exemplify a particular paradigm or perspective by describing a body of work or a particular research project Seeing the diversity of the field as a response to the realities of an increasingly pluralistic world the editors hope this

and the companion volume will help explain where the field is headed so scholars can seek answers to such questions as how to constitute a scholarly community in the face of existing pluralism how to construct a coherent educational curriculum and how to determine standards of evaluation The Cambridge Companion to Chomsky James McGilvray, 2017-04-13 This second edition discusses advances in Chomsky's science of language his view of the human mind and its study and his socioeconomic political contributions
