Hodgson, 2019-03-20 Like The Omega Project the premise behind this book starts back during World War Two with General William Donovan holder of the Army s four top medals including the CMH and the Office of Strategic Services better known as the O S S To most people outside of the Department of State it was obvious that communism was incompatible with the American way of life Therefore the Russians were most likely to become our next major enemy Based upon the OSS Project Omega plan and authorized by President Truman a series of secret shelters were built throughout the United States Each shelter designed to be self sufficient for long term survival and very comfortable for long term living So what would life be like in one of these secret bases What would people do while sitting around waiting for the end of the world as we knew it In this series many of the inhabitants work for the Defense Advanced Research Projects Agency doing advanced research

developing very advanced technology So this book is part history part science fiction and a lot of speculation What would future everyday life look like How would door locks work How about access to your computer How about your computer itself How does one get from place to place in this futuristic world These items must be looked at from the standpoint of a three or four generation advancement
