Learn to Read with Images 6 BARNABY. POLLOCK, 2022-12-19 *Learn to Read with Images* An Introduction *Learn to Read with Images* is a creative educational resource designed to make reading easier and more visually engaging The philosophy is simple effective and suitable for learners of any age This self-paced learning and teaching tool is highly convenient for use at home or in the classroom It is targeted at beginner readers and is also beneficial to ESL and visual learners who struggle with literacy and breaking down phonics patterns Progressive Reading Levels *Learn to Read with Images* is the key to unlocking each child's reading potential There are six levels each containing four stories that progressively increase in difficulty Each level uses rhyme sentence patterns and elements of compound learning The colorful age-appropriate learning images help early readers see the words so they can connect the image to a word and then easily decode sound them out By engaging more deeply with the content readers can make quick connections which aid significantly with vocabulary retention and memorization

How Does *Learn to Read with Images* Work *Learn to Read with Images* is a simple two-part learning process as shown below The upper half of each page tells a story and provides a visual environment for children to use their imagination The bottom half of each page uses learning images to represent the words in the story and helps with the pronunciation of more complex words Sight words that appear frequently are represented as text on a cloud to help the students memorize words when it's time to read without the aid of the learning images This creative approach helps keep children interested so they can concentrate on learning vocabulary and fluency

How Can You Use *Learn to Read with Images* It's as easy as 1 2 3 1

- 1 As with any story begin by reading to children using the illustrations to help tell the story and spark their imagination
- 2 Point to the learning images as you pronounce each word It is important that children learn to point to the words too so urge them to point along with you as soon as possible Help cement their recognition of the learning images by repeatedly asking what it says
- 3 Take time between pages to develop recognition of the learning images by asking children to point at particular words and pronounce them While they are not yet reading the written word this is the first step in learning to read which is exciting for everyone

How Can Readers Build Confidence Begin with an easy learning image like an eye Keep in mind that learning images are a visual tool to help make a connection between the image its pronunciation and the written form of the word For

example the image of an eye is used to phonetically represent the word I as well as eye the actual word itself These regular prompts are important to ensure that children are learning to recognize the learning images and not just memorizing words or sentences How Do You Know Readers Are Ready for the Next Level of Learn to Read with Images Once readers can correctly identify a word and its connection to the learning image they are ready for the next level of Learn to Read with Images There are several sight words in the text For younger children it is recommended to count the number of words in the text upper half of the page and do the same for the learning images bottom half of the page This is a useful prompt to remind children that not all words in the text are connected to a learning image and therefore they must read from memory As children move up the levels they will recognize and strengthen their recognition of words making them more
