Healing The Bereaved Child Alan Wolfelt, 2013-12-19 First published in 1996. One spring morning a gardener noticed an unfamiliar seedling poking through the ground near the rocky untidy edge of his garden. So begins the parable that sets the tone for this inspiring heartfelt new book for caregivers to bereaved children. By comparing grief counseling to gardening Dr. Wolfelt frees caregivers of the traditional medical model of bereavement care which implies that grief is an illness that must be cured. He suggests that caregivers instead embrace a more holistic view of the normal natural and necessary process that is grief. He then explores the ways in which bereaved children can not only heal but grow through grief. *Healing the Bereaved Child* also contains chapter after chapter of practical caregiving guidelines. How a grieving child thinks feels and mourns. What makes each child's grief unique. How the bereaved child heals. The six needs of mourning. Foundations of counseling bereaved children. Counseling techniques play art writing nature and many others. More than 15 pages. A family systems approach to counseling. Support groups for bereaved kids including a 10 session model. Helping grieving children at school including a crisis response team model. Helping the grieving adolescent. Self care for the child's bereavement caregiver. A must read for child counselors hospice caregivers funeral directors school counselors and teachers clergy parents anyone who wants to offer support and companionship to children affected by the death of someone loved.

Silent Grief Christopher Lukas, Henry M. Seiden, 1997. The authors present the only practical book to guide friends and families of suicides through a program of grief recovery to mental health. To be of special interest to parents and educators of teenagers.
