WHO country presence in least developed countries (LDCs), 2021, 2021-08-18 WHO country presence in least developed countries LDCs 2021 provides an overview of health related information in Least Developed Countries LDCs and WHO s presence in LDCs in the last two years 2019 2020 The document is presented in the specific context of the Thirteenth General Programme of Work of the WHO GPW13 with a special edition on COVID 19 *Least Developed Countries and the WTO* H. Hawthorne, 2013-05-07 A norm of special treatment for LDCs created by the UN has spread to various international organisations including the WTO Within the WTO evidence of the institutionalization of the norm can be found both in the agreements and legal documents and the way in which the LDCs have been treated by other states Helen Hawthorne investigates how norms impact on negotiations in international organisations She shows that few studies of international organisations focus on the role of the weaker states in the organization the majority focus either on the major states or the emerging economies By ignoring the role of the poorer weaker states in the GATT WTO we are ignoring the history of these states in the organisation and do not get a true picture of the organization how it operates in relation to them and their impact on the organisation *Least Developed Countries* National Foreign Assessment Center (U.S.), 1978

Bangladesh's Graduation from the Least Developed Countries Group Debapriya Bhattacharya, 2018-09-21 Since the group of least developed countries LDCs was identified in 1971 only five countries have graduated from the group all of which are characterised by small size or population The projections are that the next decade will see a rapid increase in the pace of graduation with Bangladesh in particular poised to be one of the largest countries in terms of its economy and population yet to leave the group While previously many LDCs viewed the prospect of graduation with some apprehension fearing significant erosion of international support increasingly the move is being seen as a more positive landmark This book aims to articulate appropriate strategies and initiatives to help Bangladesh to maintain its developmental momentum and to prepare for a sustainable graduation in 2024 In doing so the book explores themes such as key analytical issues of the LDC graduation paradigm smooth transition and structural transformation and post graduation challenges and opportunities Further against the backdrop of Gross National Income per capita the Human Assets Index and Economic Vulnerability Index goals required for graduation the Sustainable Development Goals SDGs set by the 2030 Agenda will also be in the process of implementation Whilst some feel that the two agendas might be in conflict the book teases out some of the important synergies which can be drawn when LDCs are undertaking the journey of graduation in the era of the SDGs The book also takes into cognisance the uncertain external environment and the emerging global scenario within which Bangladesh s graduation is to take place Conceptual discourse around LDC graduation and the particular narrative around Bangladesh s journey towards LDC graduation will be of interest not only to scholars of Bangladesh but also to researchers and

policymakers with an interest in LDC graduation for other countries facing similar challenges *Least Developed Countries; Economic Characteristics and Stake in North-South Issues* National Foreign Assessment Center (U.S.),1978 Accessing Resources Under the Least Developed Countries Fund Global Environment Facility,2011-05-02 **Economic Policies Towards Less Developed Countries** Harry G.
