

A scenic landscape at sunset or sunrise. A winding road leads through a field of tall grass towards a distant horizon. A bright sun is low on the horizon, creating a lens flare and casting a warm glow over the scene. A faint rainbow is visible in the sky. In the foreground, there is a large, dark, textured rock formation.

Some people come into
your life and leave a mark.

Freyd, Pamela Birrell, 2013-02-14 One of the world's top experts on betrayal looks at why we often can't see it right in front of our faces. If the cover up is worse than the crime, blindness to betrayal can be worse than the betrayal itself. Whether the betrayer is an unfaithful spouse, an abusive authority figure, an unfair boss, or a corrupt institution, we often refuse to see the truth in order to protect ourselves. This book explores the fascinating phenomenon of how and why we ignore or deny betrayal and what we can gain by transforming betrayal blindness into insight. Explains the psychological phenomenon of betrayal blindness in which we implicitly choose unawareness in order to avoid the risk of seeing treachery or injustice. Based on the author's substantial original research and clinical experience carried out over the last decade as well as their own story of confronting betrayal. Filled with fascinating case studies involving unfaithful spouses, abusive authority figures, and corrupt institutions to name a few. In a remarkable collaboration of science and clinical perspectives, Jennifer Freyd, one of the world's top experts on betrayal, and child abuse teams up with Pamela Birrell, a psychotherapist and educator with 25 years of experience.
