Lecturers Tale:

The Lecturer's Tale James Hynes, 2007-04-01 The author of *Publish and Perish* returns with a Faustian tale of the horrors of academe Nelson Humbolt is a visiting adjunct English lecturer at prestigious Midwest University until he is unceremoniously fired one autumn morning Minutes after the axe falls his right index finger is severed in a freak accident Doctors manage to reattach the finger but when the bandages come off Nelson realizes that he has acquired a strange power he can force his will onto others with a touch of his finger And so he obtains an extension on the lease of his university owned townhouse and picks up two sections of freshman composition saving his career from utter ruin But soon these victories seem inconsequential and Nelson's finger burns for even greater glory Now the Midas of academia wonders if he can attain what every struggling assistant professor and visiting lecturer covets tenure A pitch perfect blend of satire and horror *The Lecturer's Tale* paints a gruesomely clever portrait of life in academia

The Michigan Alumnus, 2000 In volumes 1-8 the final number consists of the Commencement annual

Faculty Towers Elaine Showalter, 2005 In the days before there were handbooks self help guides or advice columns for graduate students and junior faculty there were academic novels teaching us how a proper professor should speak behave dress think write love and more than occasionally solve murders If many of these books are wildly funny others paint pictures of failure and pain of lives wasted or destroyed Like the suburbs Elaine Showalter notes the campus can be the site of pastoral and refuge But even ivory towers can be structurally unsound or at least built with glass ceilings Though we love to read about them all is not well in the faculty towers and the situation has been worsening In *Faculty Towers* Showalter takes a personal look at the ways novels about the academy have charted changes in the university and society since 1950 With her readings of C P Snow's idealized world of Cambridge dons or of the globe trotting antics of David Lodge's Morris Zapp of the sleuthing Kate Fansler in Amanda Cross's best selling mystery series or of the recent spate of bitter novels in which narratives of sexual harassment seem to serve as fables of power anger and desire Showalter holds a mirror up to the world she has inhabited over the course of a distinguished and often controversial career

Making Writing Matter Ann M. Feldman, 2009-01-01 In *Making Writing Matter* Ann M. Feldman explores how changing scholarship at engaged metropolitan universities offers an opportunity to redesign first year writing classes in ways that make students better writers An engaged university commits to a relationship with its surrounding metropolitan area with faculty members undertaking collaborative research with community partners The more vibrant participatory role of an engaged university allows students to link their academic studies to important public issues and gain real world writing experience such as writing press releases and letters to organizations This newly focused and contextualized research and scholarship at engaged universities shows students how discourse and writing matter in new ways

US American Expressions of Utopian and Dystopian Visions Saskia Fürst, Yvonne Kaisinger, Ralph Poole, 2017 This collection takes stock of current discourses in American studies on the political valence of American utopias be they as

religious diasporas or as socialist experiments fantastic or realist successful or failed The included essays take into account the spatiality of utopias especially in their visionary scope analyze currents in literary utopias and look at dystopian visions in literature This volume strives to keep alive the long tradition of writers artists and scholars who warned against imminent disasters and envisioned ways to counter such ruinous bearings Series American Studies in Austria Vol 17 Subject Sociology Literary Studies

Chemistry no mystery; or, A lecturer's bequest, the subject-matter of a course of lectures, delivered by an old philosopher, arranged and revised John Scoffern,1839 Werner's Directory of Elocutionists. Readers, Lecturers and Other Public Instructors and Entertainers ... Elsie M. Wilbor,1887 *The Genial Showman* Edward Peron Hingston,1881 Contemporary Fiction and the Uses of Theory M. Greaney,2006-08-25 This topical study examines the novelizations of radical literary theory in the work of A S Byatt Angela Carter Umberto Eco John Fowles Richard Powers and many other leading novelists It offers a comprehensive analysis of the post theoretical novel and traces an alternative history of the theory revolution in recent literary fiction

Chaucer's Afterlife Kathleen Forni,2013-03-13 This study explores Chaucer's present day cultural reputation by way of popular culture In just the past two decades his texts have been adapted to a wide variety of popular genres including television stage comic book hip hop science fiction horror romance and crime fiction This cultural recycling involves a variety of functions but Chaucer's primary association is with the idea of pilgrimage and the prevailing tenor is populist satire The target is not only cultural elitism but also the dominant discourse of professional Chaucerians Academics in turn may have doubts about the value of popular Chaucer popular culture theory however would maintain that such skepticism has less to do with critical discrimination than the assertion of social distinction Nonetheless the fact that Chaucer has a popular afterlife and remains an ideological product over which competing groups lay claim attests to his current cultural vitality

The Sustainability Tales Kerry Shephard,2024-11-25 Drawing from the plot of Chaucer's Canterbury Tales this innovative work imagines a conference about sustainability education to which ten academics from diverse disciplines and nations are attending All are well known in their own fields albeit recognised as something other than popular or mainstream In their own institutions and discourses they all promote a message that higher education is losing its way and needs to change if it is to contribute to the attainment of the Sustainable Development Goals though its teaching A mysterious benefactor has paid for much of their costs dictated the conference style conversational rather than presentational and selected a host to facilitate proceedings Each academic is to tell a tale that encourages conversation One of the ten is the book's narrator who writes a prologue and an epilogue and records and summarises each tale The narrator suggests that each of the ten is using the conference as a form of pilgrimage For each of the pilgrims their tale provides an opportunity to reflect on their career's achievements and failings and on the purposes of universities For readers the tales collectively amount to a broad analysis of higher education's teaching roles in the achievement of the sustainable development goals its culpability in creating the need for these goals and provide hope for

change **Education and the Voice of Michael Oakeshott** Kevin Williams, 2024-08-14 The work of Michael Oakeshott has retained a striking currency in philosophical discourse about education This is hardly surprising in view of his influence on Paul Hirst and Richard Peters two philosophers whose work had an enormous impact on educational thinking and practice in the English speaking world And although much of the detail in educational debate may change the fundamental underlying concerns regarding the conception of the person the nature of knowledge and the moral life and their expression in educational institutions and activities remain subject of disagreement In the light of this continuing interest and of Oakeshott's extensive writing on so many aspects of education it is timely that a book be published on his thinking on the subject

Universities and Colleges: A Very Short Introduction David Palfreyman, Paul Temple, 2017-12-28 What is a university What is the University How have universities evolved over the centuries How might they change over the coming decades as the physical and organisational entity most identified with higher education being delivered to over 250 million students What will be the impact of digital and distance learning of commercial for profit new entrants to the higher education market of government austerity of globalization of student consumerism Exploring the origins and the concept the idea and the ideal of the university this Very Short Introduction discusses one of the world's oldest most resilient and most adaptable institutions David Palfreyman and Paul Temple consider the links between universities and the economy and the role of universities within society Highlighting some of the key questions surrounding the position of universities they ask how the university can be politically accountable for its taxpayer funding if it needs to be autonomous to function effectively as a public good Are professors professional enough in their teaching practices at a time that increasing tuition fees transform students more and more into consumers And just what does academic freedom for university faculties really entail ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine

facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Knowledge-Power/Resistance Vinod Kumar Rawat, 2014-10-22 Schools Colleges Universities and Educational institutes that is knowledge factories apart from producing self governing citizens and skilled docile workers function as minute social observatories that indirectly monitor their families Michel Foucault delineates power in terms of Pastoral church and salvation Sovereign visible and verifiable Disciplinary invisible and unverifiable Bio power reproduction and individualization Psychiatric normal and abnormal and Governmentality sovereignty discipline and government By applying Foucaults theory the research investigated the relevance of the Francis Bacons popular dictum Knowledge is Power and Dr B R Ambedkars final words Educate Agitate Organize The insights of the research may benefit the seekers and disseminators of knowledge in understanding the subtle operative modes of the government capitalist nexus and in advocating appropriate resistance against the pathologies of power

In Pursuit of Knowledge Deborah Rhode, 2006-09-25 Although academics have never lacked for critics publications on the profession tend to be either popularized polemics which are engaging but misleading or scholarly analyses which are intellectually responsible but of little interest to anyone but specialists In Pursuit of Knowledge offers an alternative a unique portrait of academic life that should appeal to both experts and a general audience Drawing on a wide range of disciplines including higher education history law sociology economics and literature the book focuses on the ways in which the pursuit of status has undermined the pursuit of knowledge Deborah Rhode argues that both individual scholars and institutions in higher education are caught in an arms race of reputation The result has been to skew priorities in scholarship erode commitments to teaching compromise efforts of public intellectuals and impede effectiveness in administration The book offers several solutions to counter these pervasive problems in our research institutions Rhode makes a case for increasing accountability and realigning reward systems She argues that what is needed is a greater sense of responsibility among universities and their faculties to narrow the gap between academic ideals and practices In Pursuit of Knowledge is meticulously researched and elegantly written It is also exceptionally entertaining in its use of quotations culled from over a hundred academic novels including works by Kingsley Amis Saul Bellow David Lodge and C P Snow For example from P G Wodehouse s The Girl in Blue The Agee woman told us for three quarters of an hour how she came to write her beastly book when a simple apology was all that was required The result is a highly readable but also deeply reflective analysis of the academic profession

Discourses of Denial Thomas Discenna, 2017-09-22 Discourses of Denial explores the myriad ways that the labor of those employed by universities is situated as somehow distinct from ordinary labor Focusing on a variety of sites where academic labor is discursively constructed in popular consciousness including among the professoriate itself its critics and detractors the unionization struggles of graduate students the invisibility of contingent academics and the resistance to the unionization of student athletes Merging Critical Rhetoric CR with Critical Discourse Analysis CDA this study examines myth that academic work is not the same as other labor Pason 2011 p 1786 The denial of

academic labor functions to underwrite an attack on labor in all of its variations producing what Berardi 2009 calls a new kind of worker who values labor as the most interesting part of his or her life and therefore no longer opposes the prolongation of the working day but is actually ready to lengthen it out of personal choice and will p 79 The professoriate is therefore not a retrograde figure of more genteel times but the emblematic figure of late capitalism's transition to cognitive labor and with it an unceasing colonization of the human lifeworld *Shakespeare, Einstein, and the Bottom Line* David L. Kirp, 2003-11-30 Wry and insightful Shakespeare Einstein and the Bottom Line takes us on a cross country tour of the most powerful trend in academic life today the rise of business values and the belief that efficiency immediate practical usefulness and marketplace triumph are the best measures of a university's success *Professional Development for Practitioners in Academia* Jill Dickinson, Teri-Lisa Griffiths, 2023-07-31 This multi disciplinary collection addresses issues relating to current or former practitioners within the context of higher education Drawing together a range of voices the contributors explore contemporary issues organised around three core themes of pracademic identities professional development and teaching practice Underpinned by theoretical frameworks reporting empirical findings and adopting a reflective lens this critical examination draws on a range of experiences to provide a deeper understanding of the contribution of pracademics within the sector for stakeholders including leaders policy makers and professional bodies and current and future pracademics Dedicated to highlighting the potential of the pracademic contribution this collection explores key topics including building networks practice informed teaching consultancy and collaborative research Contributions investigate some of the practical barriers faced by pracademics making the transition into higher education including imposter syndrome cultural adjustment and managing dual professional identities The aim of this collection is to champion the benefits of a diverse academy for everyone involved *Erotic Mentoring* Janice Hocker Rushing, 2016-06-16 They're everywhere in the academy young bright women mentored by older scholars usually men who attempt to mold them into their own masculine ideals Janice Hocker Rushing's study of over 200 women and their life transformations is the subject of this eloquent book Using the tropes of mythology and Jungian psychology the author characterizes the many paths these women's academic lives take as Muse for a faltering older scholar as Mistress or wife as the dutiful academic daughter Their resistance to this power differential also takes many forms as a Veiled Woman silent in public but active in private or the Siren using her sexuality to beat the system Ultimately Rushing arrives at the myth of Eros and Psyche where women's self understanding and personal development turns her erotic mentoring into an autonomous whole and free life unfettered by any man These women's stories and Rushing's literary and literate framing of their lives will ring true to many in the university
