Journal of the American Unitarian Association ,1856 **The Evolution of College English** Thomas P. Miller,2014-03-18 Thomas P Miller defines college English studies as literacy studies and examines how it has evolved in tandem with broader developments in literacy and the literate He maps out four corners of English departments literature language studies teacher education and writing studies Miller identifies their development with broader changes in the technologies and economies of literacy that have redefined what students write and read which careers they enter and how literature represents their experiences and aspirations Miller locates the origins of college English studies in the colonial transition from a religious to an oratorical conception of literature A belletristic model of literature emerged in the nineteenth century in response to the spread of the penny press and state mandated schooling Since literary studies became a common school subject professors of literature have distanced themselves from teachers of literacy In the Progressive era that distinction came to structure scholarly organizations such as the MLA while NCTE was established to develop more broadly based teacher coalitions In the twentieth century New Criticism came to provide the operating assumptions for the rise of English departments until those assumptions became critically overloaded with the crash of majors and jobs that began in 1970s and continues today For models that will help the discipline respond to such challenges Miller looks to comprehensive departments of English that value studies of teaching writing and language as well as literature According to Miller departments in more broadly based institutions have the potential to redress the historical alienation of English departments from their institutional base in work with literacy Such departments have a potentially quite expansive articulation apparatus Many are engaged with writing at work in public life with schools and public agencies with access issues and with media ethnic and cultural studies With the privatization of higher education such pragmatic engagements become vital to sustaining a civic vision of English studies and the humanities generally **Transcendental Resistance** Johannes Voelz,2010 A timely and engrossing critique of the New Americanists *Literature of the republic. pt. 4.*

Short biographies of all authors represented in this work, by Arthur Stedman. General index** Edmund Clarence Stedman, Ellen Mackay Hutchinson, 1890 Arguments in Rhetoric Against Quintilian Peter Ramus, 2010-08-27 First published in 1986 this book offers the Latin text and English translation of a pivotal work by one of the most influential and controversial writers of early modern times Pierre de la Ram e better known as Peter Ramus was a college instructor in Paris who published a number of books attacking and attempting to refute foundational texts in philosophy and rhetoric He began in the early 1540s with books on Aristotle which were later banned and burned and Cicero and later in 1549 he published Rhetoricae Distinctiones in Quintilianum The purpose of Ramus s book is announced in the opening paragraph of its dedication to Charles of Lorraine I have a single argument a single subject matter that the arts of dialectic and rhetoric have been confused by Aristotle Cicero and Quintilian I have previously argued against Aristotle and Cicero What objection then is there against calling Quintilian to the same account Carole Newlands s excellent translation the first in modern English remains the standard English version This volume also provides the original Latin text for comparative purposes In addition James J Murphy s insightful introduction places the text in historical perspective by discussing Ramus s life and career the development of his ideas and the milieu in which his writings were produced This edition includes an updated bibliography of works concerning Ramus rhetoric and related topics **The Monthly Religious Magazine** , 1856
