Learning Through Storytelling:

Learning Through Storytelling in Higher Education Maxine Alterio, Janice McDrury, 2003-12-16 Learning Through Storytelling in Higher Education explores ways of using storytelling as a teaching and learning tool When storytelling is formalized in meaningful ways it can capture everyday examples of practice and turn them into an opportunity to learn encouraging both reflection a deeper understanding of a topic and stimulating critical thinking skills The technique can accommodate diverse cultural emotional and experiential incidents and may be used in many different contexts eg formal informal one on one group setting The authors outline the different models of storytelling and explain how to make use of this technique and encourage a storytelling culture within the workplace or in tutorial sessions Academic yet accessible this book provides a new perspective on learning techniques and will be a great asset to any educator looking to improve reflective practice

Learning Through Storytelling Janice McDrury, Maxine Alterio, 2002

The Power of Story Rives Collins, Pamela J. Cooper, 2005 A guide to developing storytelling skills includes examples techniques and interviews with many storytellers

Beyond the Beanstalk Lynn Rubright, 1996 Lynn Rubright demonstrates how K 6 teachers can use storytelling and the expressive arts as motivational tools to develop students skills

Tell Me Another... Jacqueline Harrett, 2009

Teaching Math Through Storytelling Gigi Carunungan, Making math accessible to young learners is especially challenging This hands on book provides a method for teaching math with fun stories that allow students to experience math concepts in real world contexts Teachers can choose from a selection of suggested stories or they can create their own to reflect the interests and identities of their students This lively resource includes math learning activities and creative simulations that make math concepts come alive guidance for incorporating intercultural scenarios and stories to foster inclusivity teaching strategies and lesson designs grounded in research a focus on transforming traditional math teaching into an approach that enhances critical thinking and problem solving skills and detailed lesson plans for integrating innovative approaches into existing curricula Teachers K 5 can use this book to move away from memorizing and rote activities into dynamic learning experiences that make math learning fun

Book Features Uses engaging interactive storytelling to help young learners develop a deeper understanding of mathematical principles Incorporates intercultural scenarios and stories so students see themselves in the lessons fostering a more inclusive and relatable learning environment Provides teaching strategies and lesson designs drawn from academic sources and field studies to provide educators with reliable and effective methods Provides detailed lesson plans that demonstrate innovative and effective ways for children to overcome math anxiety and integrate math into everyday thinking

Life Lessons through Storytelling Donna Eder, 2010-09-06 Storytelling empowers children to engage in discussions explore ideas about power respect community fairness equality and justice and help frame their understanding of complex ethical issues within a society In Life Lessons through Storytelling Donna Eder interviews elementary students and presents their responses to stories from different

cultures Using Aesop's fables and Kenyan and Navajo storytelling traditions as models for classroom use Eder demonstrates the value of a cross cultural approach to teaching through storytelling while providing deep insights into the social psychology of learning

Narrative Matters Dr Grant Bage, Grant Bage, 2012-10-02 In recent years there has been a massive revival of interest internationally in what story can offer to education This book covers a range of issues at the heart of teaching history such as the use of talk the pitfalls of narrative as a pedagogical tool translating curriculum content into lessons story telling and story making It also questions what it means to teach the difficulties for teachers of remaining constructively critical of policy and their own practice during periods of national legislation and change

Story Frames for Teaching Literacy Carolee Dean, 2021 Story Frames for Teaching Literacy provides a dynamic engaging approach to help students understand analyze and create stories in order to master literacy skills

Digital Simulations for Improving Education: Learning Through Artificial Teaching Environments Gibson, David, Baek, Young Kyun, 2009-04-30 Contains research and current trends used in digital simulations of teaching surveying the uses of games and simulations in teacher education

The Instructional Value of Digital Storytelling Patricia McGee, 2014-12-17 Although storytelling has been recognized as an effective instructional strategy for some time most educators are not informed about how to communicate a story that supports learning particularly when using digital media The Instructional Value of Digital Storytelling provides a broad overview of the concepts and traditions of storytelling and prepares professors workplace trainers and instructional designers to tell stories through 21st century media platforms providing the skills critical to communication lifelong learning and professional success Using clear and concise language The Instructional Value of Digital Storytelling explains how and why storytelling can be used as a contemporary instructional method particularly through social media mobile technologies and knowledge based systems Examples from different sectors and disciplines illustrate how and why effective digital stories are designed with learning theory in mind Applications of storytelling in context are provided for diverse settings within higher education as well as both formal and informal adult learning contexts

Transmedia Storytelling Amanda S. Hovious, 2015-11-10 This practical and thorough guide offers clear explanations of what transmedia storytelling is and shows how it can be integrated into library programming that fosters multimodal literacy with K 12 learners When fictional worlds are brought to life in multiple media via books and comics or through films animated shorts television audio recordings and games it is called transmedia storytelling Transmedia storytelling offers children's and teen librarians at public libraries K 12 school librarians and educators an effective method for bringing story to youth a perfect fit for today's media saturated environment This book demonstrates how to create new pathways to the future of stories and storytelling The book serves as a guide to integrating transmedia storytelling into library programs and services It defines transmedia storytelling identifies the key connections between it and 21st century learning discusses the role of librarians and libraries in supporting and promoting transmedia storytelling and provides concrete examples of transmedia programs The suggested programs ranging

from transmedia storytimes for early literacy learners to maker programs for young adults can be implemented with different levels of technology capabilities and within numerous library settings In addition the book offers practical advice on technology planning for libraries that plan to incorporate transmedia storytelling *Stories of Transformative Learning* Michael Kroth, Patricia Cranton, 2014-11-04 *Stories of Transformative Learning* is intended to encourage people to explore the potential for transformative learning in their lives practices and communities This book illustrates the transformative learning process through ten stories of individuals from both inside and outside of the classroom Adult educators and adult learners will find the book to be personally insightful and professionally useful There have been many accounts of transformative learning experiences but it is not often that we have the opportunity to hear first hand personal stories of transformative learning Here ten stories are told directly by the people who experienced them with additional commentary from the authors These stories are intended to resonate with readers and to inspire people to create the conditions where transformative learning can occur in their lives and professional practice Storytelling is one way in which both educators and learners can understand the process of transformative learning Telling stories reading others stories and contemplating our own stories all help us to become aware of alternative perspectives a process that is at the heart of critical reflection and critical self reflection which is in turn central to transformative learning We hope to increase readers sense of agency and more self directed self fulfilling lives By demonstrating how others have examined and reconsidered otherwise hidden assumptions that constrained the quality and potential of their lives we show readers how they may do the same

Storytelling Pedagogy in Australia & Asia Louise Gwenneth Phillips, Thao Thi Phuong Nguyen, 2022-01-01 This book on teaching through story is the first to highlight the rich storytelling cultures of Australia and Asia It presents insights from practicing storytelling educators from Black and White Australia China India Japan Thailand and Vietnam who share their art of storytelling as pedagogy Designed for early childhood and primary teachers teacher educators and student teachers across Australia and Asia *Storytelling Pedagogy in Australia Asia* provides inspiration to teach through storytelling to promote intercultural understanding imagination active citizenship and language and literacy learning Each chapter includes told stories and teaching and learning ideas to guide and encourage those who are new to the art of storytelling pedagogy and those wishing to expand their understanding of storytelling in Australia and Asia *Digital Storytelling in Higher Education*

improve enhance and expand teaching learning research and interactions with society Written by an international range of academics researchers and practitioners from disciplines spanning medicine anthropology education social work film and media studies rhetoric and the humanities the book demonstrates the variety of ways in which digital storytelling offers solutions to key challenges within higher education for students academics and citizens It will be compelling reading for students and researchers working in education and sociology

Using Story to Enrich Learning and Teaching Jennifer A. Moon, 2010-06-28 Story is everywhere in human lives and cultures and it features strongly in the processes of teaching and learning Story can be called narrative case study critical incident life history anecdote scenario illustration or example creative writing storytelling it is a unit of communication it is in the products of the media industries in therapy and in our daily acts of reflecting Stories are told in many ways they are spoken written filmed mimed or acted presented as cartoons and in new media formats and through all these they are associated with both teaching and learning processes but in different ways and at different levels As a result of growing interest and simultaneous confusion about story it is timely to untangle the various meanings of story so that we can draw out and extend its value and use Using Story aims to clarify what we mean by story to seek out where story occurs in education and life and to explore the processes by which we learn from story In this way the book intends to bring story into the open and improve its use Building on her wealth of experience in the field Jenny Moon explores the theory of story and demonstrates both its current uses and new ways in which to enrich and enliven teaching learning and research processes Ideal for anyone involved in education personal or professional development or with a more general interest in story the book begins by considering the range of what is meant by story and then considers the theory behind the meanings In the large final part of the book Jenny provides a rich patchwork of different uses of story in education that cut across forms of story story activities disciplines and applications all of which will aid the use of story

Storytelling, 19??

Biblical Narrative Learning Tung Chiew Ha, 2015-10-02 Biblical narrative learning is a non critical educational approach for Christian communities with diverse learning backgrounds involving three sets of movement inquire and invent interpret and imagine inspire and imitate and impart It is grounded in humankind's universal capacity to teach and learn through stories and built on practices in narrative learning along with biblical narratives The Gospel of John provides a model for this interpretive process that continues the teaching of living in a loving relationship with God and one another John uses many literary devices to enhance an affective and reflective learning The literary devices create the familiar strange effect John's narrative fosters remembrance of the Story and guides the learner to adequate faith in God It inculcates adequate faith to wait in suspense while the Jesus Story and our stories when they are remembered create new understanding and transform the life experiences of the person

Educating for Peace through Countering Violence Candice Carter, Raj Kumar Dhungana, 2023-11-08 This book advances knowledge about the implementation of peace and non violence strategies in education that counter violence Addressing both hidden and direct violence it examines

the harm to wellbeing and learning through a unique exploration of the role of teachers and confronts the roots of violence in educational settings Presenting and critiquing a range of pedagogical tools case examples and research it examines how various methods can be used for identifying and proactively responding to conflicts such as injustice discrimination and prejudice among others Contributors present case studies from a range of global contexts and offer cutting edge research on the applications of these resources and how they contextualize peace education An essential read for educators teacher educators and peace scholars it crucially offers pathways for confronting and healing from violence in both formal and informal sites of education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
