

Eight Study Skills for Learning

Learning and You

A skill that students need to understand learning styles, strengths, and motivations. It also helps students create and follow through on plans to achieve goals.

Organized for Learning

A skill that students need to find materials and information when needed. It also helps them brainstorm, categorize and write ideas clearly and effectively.

Reading to Learn

A skill that students need to survey, analyze, and annotate texts. It also helps them understand, connect, and retain information from their reading.

Learning in the Classroom

A skill that students need to get the most out of each class. It helps students participate, communicate, and evaluate their performance.

Time for Learning

A skill that students need to analyze, estimate, and set aside time for learning. It also allows students to create plans, prioritize, and finish tasks and projects.

Learning with Notes

A skill that students need to record and remember important details from lectures and texts so that they can effectively use the information when needed later.

Learning to Remember

A skill that students need to accurately demonstrate what they have learned from a class. It also helps them make meaningful connections with content.

Test Your Learning

A skill that students need to perform well on assessments. It helps them create plans, learn information, and evaluate strategies for future exams.
