Learning And Teaching Genre:

Learning and Teaching Genre Aviva Freedman, Peter Medway, 1994 This collection examines academic genres types of writing produced by students in secondary school and college from the perspective of genre as social action Such a perspective expands the understanding of what students do when they learn new school genres of what teachers and institutions do to enhance and constrain such learning and of what all this signifies for conceptions of writing pedagogy The book begins with an overview of the reconception of genre study The essays that follow have an interest in genre particularly those that appear in educational settings as instances of either student reading or writing Common motifs recur throughout questions are raised concerning learning and teaching new genres the ideological power of genres read and written and the power of the teacher curriculum planner or student to invent new genres or to resist and subvert those that exist Throughout the contributors give detailed accounts of successful classroom practices Learning and Teaching Genre brings recent developments in research and thinking about written genres to the attention of high school and college teachers and illustrates how that work can effectively inform classroom practice *Genre Across The Curriculum* Anne

Herrington, Charles Moran, 2005-02-24 Genre across the Curriculum will function as a good textbook one not for the student but for the teacher and one with an eye on the context of writing Here you will find models of practice descriptions written by teachers who have integrated the teaching of genre into their pedagogy in ways that both support and empower the student writer While authors here look at courses across disciplines and across a range of genres they are similar in presenting genre as situated within specific classrooms disciplines and institutions Their assignments embody the pedagogy of a particular teacher and student responses here embody students prior experiences with writing In each chapter the authors define a particular genre define the learning goals implicit in assigning that genre explain how they help their students work through the assignment and finally discuss how they evaluate the writing their students do in response to their teaching The

Theorizing Composition Mary Kennedy,1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory s critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works
