Learning Strategies Edited By Harold F Oneil Jr:

Transfer of Learning Stephen M. Cormier, Joseph D. Hagman, 2014-06-28 Since the mid 1970s scientific and educational research has left a gap in the field of basic and applied research on transfer of learning This book fills the gap with state of the art information on recent research in the field emphasizing methodological paradigms and interpretive concepts based on contemporary cognitive information processing approaches to the study of human behavior Issues discussed include how transfer is measured how its direction and magnitude are determined how training for transfer differs from training for acquisition and whether different principles of transfer apply to motor cognitive and meta cognitive processes

Learning Strategies Harold F. O'Neil, 2014-05-10 Learning Strategies describes a program of research in learning strategies initiated by the Defense Advanced Research Projects Agency DARPA in 1976 The goal of the program is to improve learning decrease training time and reduce training costs by developing and evaluating instructional materials designed to teach basic intellectual and affective skills This book records the program s progress and suggests further avenues for research Comprised of eight chapters this book begins with an overview of the theoretical underpinnings of the teaching and learning approaches to the improvement of education followed by a discussion on DARPA s preliminary work on an empirically based learning strategy training program as well as its efforts to expand and modify the program In order to provide an intellectual foundation for this program several fields are surveyed for potential learning strategies namely cognitive psychology artificial intelligence behavioral modification and motor learning An instructional systems development approach for learning strategies is also proposed The final chapter deals with models of evaluation extant in education and training and discusses the specific application of transactional evaluation to the DARPA Learning Strategies Research Program This monograph should be of interest to students teachers and educational psychologists

Noble, 2017-09-29 A quarter of a century after its initial publication The Classroom Arsenal remains pivotal in understanding and challenging the relentless promotion of technology to reform education This seemingly benign education technology juggernaut carries forward the momentum of military agendas in man machine systems detailed in the book Promoters continue to flood schools with technology and its still unfulfilled promise of cutting edge personalized learning Meanwhile they continue as well their insatiable pursuit of federal funding educational legitimacy corporate profits and access to student subjects and their accumulated learning data for product development Less understood though is a companion enterprise there from the start to replace teaching and learning in traditional classrooms by efficient automated systems that manage and monitor human cognition and learning for high performance systems from weapons systems to high tech corporations As education is moved imperceptibly away from its traditional humanistic aims and from the classroom itself the goal of this human engineering project the depersonalized accumulation of cognitive components for a 21st century militarized economy best befits the book's original title The Human Arsenal This ongoing military corporate sponsored enterprise continues to impact education today largely unnoticed One example is the federally funded Advanced Distributed Learning Initiative ADL which has been a major force behind the implementation of electronic learning systems now used in all Defense Department and federal employee training With the Defense Advanced Research Project Agency ARPA ADL is developing structures to capture students soft skills and the Army Research Laboratory is developing intelligent tutoring systems to enable instructional management of affect engagement and grit perseverance ADL through the Department of Defense has developed Experience API a learning technology that can monitor all student online and offline interactions and archive these in data lockers or learning record stores ADL has already impacted thousands of school districts through nonprofits such as IMS Global and Future Ready Schools part of an industry massively subsidized by high tech corporations and valued at 255 billion annually A 90 million Advanced Research Projects Agency for Education ARPA ED modeled after the military's ARPA has been proposed to fund dramatic breakthroughs in learning and teaching These include digital tutors as effective as personal tutors and with the Navy's Full Spectrum Learning project data collection tools for personalized education modeled after corporate data analysis that identifies consumer patterns and preferences ADL is just one example of how the military corporate ed tech enterprise is changing public education by hollowing it out into something that can be digitized data driven automated and monitored Its promoters envision education as children interacting with online learning systems where based on past performance algorithms will serve up what each student needs to know next Through this digital curriculum students create virtual educational identities at very young ages and learning devices are watching students as much as students are watching them Such is the education landscape presaged by The Classroom Arsenal a

quarter century ago whose origins and trajectories need to be deeply understood now more than ever

Cognition, Communication and Interaction Satinder P. Gill, 2007-10-26 This book examines the theoretical and methodological research issues that underlie the design and use of interactive technology The analysis directs attention to three human capacities cognition communication and interaction The examination of these capacities is embedded in understanding concepts of communication and interaction and their application conceptions of knowledge and cognition and the role of aesthetics and ethics in design
