Cook,2018-09-17 This open access book explores the key dimensions of a future education system designed to enable individuals schools and communities to achieve the twin twenty first century challenges of sustainability and human well being For much of the twentieth century Western education systems prepared students to enter the workforce contribute to society and succeed in

relatively predictable contexts Today people are at the controls of the planet making decisions that are dramatically reshaping social economic and environmental systems at a global scale What is education s purpose in this new reality What and how must we learn now The volatility and uncertainty caused by digitalization globalization and climate change weave a common backdrop through each chapter Using case studies drawn from Finland and the US chapter authors explore various aspects of learning and education system design through the lenses of sustainability and human well being to evaluate how our understanding and practice of education must transform Using their scholarly research and experience as practitioners the authors propose new approaches to preparing learners for a new frontier of the human experience fraught with risks but full of opportunity

Music Education Michael Mark,2013-02-11 Music Education Source Readings from Ancient Greece to Today is a collection of thematically organized essays that illuminate the importance of music education to individuals communities and nations The fourth edition has been expanded to address the significant societal changes that have occurred since the publication of the last edition with a greater focus on current readings in government philosophy psychology curriculum sociology and advocacy This comprehensive text remains an essential reference for music educators today demonstrating the value and support of their profession in the societies in which they live Reality and Education Daniel Wentland,2013-09-10 A poorly designed system produces poor results Problems with the public education system are reported every day in periodicals and books Improving student achievement is too important a societal issue to continue stumbling along the same unending path of let s try this educational fad and then move to the next proposed solution The uniqueness of this book is that the myths surrounding education and learning are exposed it s like cleaning the lenses of your glasses so you can get a clear view of the world Once myths are moved aside reality can settle in and a practical model for improving education can be developed Rethinking Copyright for Sustainable Human Development Sileshi Bedasie Hirko,2021-11-25 This book explores the interface between copyright and higher education and their complementarities for the advancement of sustainable human development In its broader sense the concept of human development is noted as a set of freedoms and human capabilities that are essential for human flourishing Adopting a rights based human development and capability approach HDCA this book primarily examines the relevant policy and legal flexibilities under the existing international copyright system and their implications for access to knowledge required for creative innovation and higher education Exploring the interfaces between copyright and higher education this book argues that an unbalanced and restrictive copyright system impedes reasonable access to knowledge and stifles creative and learning freedoms or capabilities In effect a restrictive copyright system results in serious ramifications for sustainable human development In view of its findings this book underscores the need for rethinking copyright and reframing its relevant flexibilities as users rights that are vital for promoting creative and learning capabilities towards sustainable human development Further the book emphasizes the complementarities between copyright and higher education and their joint roles for sustainable human

development Given its application of the HDCA to explore ranges of interlinked topics this book will be of a great interest to researchers across the fields of intellectual property law innovation global development human rights and higher education
