,      **InfoWorld** ,1983-01-31 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects      Educational Programs that Work ,1987      Education Transformation Ron Packard,2013-11-19 Education Transformation authored by the leading expert in customized online education Ron Packard shows why technology is critical to the future of education and the future of our nation's children We can no longer afford to lag the benefits of technology must be harnessed for the benefit of students nationwide and around the globe It is an imperative One size does not fit all in education Education Transformation shows us how technology can be used to accommodate individual's needs rather than making each student force fit into the traditional classroom model which works for many but not for all Like so many other modern conveniences education can benefit from technological advancement and only technology can provide personalized instruction affordably Education Transformation has never been needed more than today It is the future of education and of our nation's children      *Disorders of Learning in Childhood* Archie A. Silver,Rosa A. Hagin,1990-06-20 Presents a comprehensive and interdisciplinary approach to understanding and diagnosing learning disabilities in children With emphasis on those disorders most frequently seen in the clinic and classroom the text surveys clinically based classifications of learning disorders and offers general principles of diagnosis and management from biological psychological social and educational perspectives Contains specific recommendations for management including educational remediation the use of drugs and psychological therapies The coverage includes a broad range of opinions to provide alternative theoretical viewpoints and ideas It concludes with a discussion of future research trends in the neurosciences that will have implications for learning disorders      **Serious Games in Education** Simon Egenfeldt-Nielsen,Bente Meyer,Birgitte Holm Sørensen,2011-12-12 In the global culture of education game based learning needs to be an integrated part of formal education and not just an exotic spice for many educators as it is today The critical role of the educator as a facilitator gatekeeper and enabler of serious games is often downplayed Therefore a comparison across regions is needed so that we do not limit the potential of transferring best practice research results and the development of games across borders This book deals with three key questions How are serious games understood and designed How do they establish themselves in learning and education locally And how can games as a learning culture be explored in a global perspective      *Handbook of Research on Educational Communications and Technology* J. Michael

Spector, M. David Merrill, Jan Elen, M. J. Bishop, 2013-07-03 The 4th edition of the Handbook of Research on Educational Communications and Technology expands upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies Chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten expanded and updated Additionally new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest Each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research including major findings and methodologies employed The Handbook authors continue to be international leaders in their respective fields the list is cross disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community
