K. Walsh, Andrekos Varnava, 2021-09-02 A century after the Armistice and the associated peace agreements that formally ended the Great War many issues pertaining to the UK and its empire are yet to be satisfactorily resolved Accordingly this volume presents a multi disciplinary approach to better understanding the post Armistice Empire across a broad spectrum of disciplines geographies and chronologies Through the lens of diplomatic social cultural historical and economic analysis the chapters engage with the histories of Lagos and Tonga Cyprus and China as well as more obvious geographies of empire such as Ireland India and Australia Though globally diverse and encompassing much of the post Armistice century the studies are nevertheless united by three common themes the interrogation of that transitional moment after the Armistice that lingered well beyond the final Treaty of Lausanne in 1924 the utilisation of new research methods and avenues of enquiry to compliment extant debates concerning the legacies of colonialism and nationalism and the common leitmotif of the British Empire in all its political and cultural complexity The centenary of the Armistice offers a timely occasion on which to present these studies **Making Memory** Alana M Vincent, 2014-11-27 The twentieth century has been called a century of horror Proof of that designation can be found in the vast and ever increasing volume of scholarly work on violence trauma memory and history across diverse academic disciplines This book demonstrates not only the ways in which the wars of the twentieth century have altered theological engagement and religious practice but also the degree to which religious ways of thinking have shaped the way we construct

historical narratives Drawing on diverse sources from the Hebrew Bible to Commonwealth war graves from Greek tragedy to post Holocaust theology Alana M Vincent probes the intersections between past and present memory and identity religion and nationality The result is a book that defies categorization and offers no easy answers but instead pursues an agenda of theological realism holding out continued hope for the restoration of the world *Nelson Handwriting Teacher's Book* John Jackman, Anita Warwick, 2003 Nelson Handwriting is a widely used handwriting scheme in schools throughout the UK It provides a clear practical framework for implementing and developing a whole school handwriting policy The books are sequenced for progression and contain three levels of differentiation designed for a wide range of abilities Structured units introduce clear teaching points followed by plenty of opportunities for practice **The Recovery of Unconscious**
