Lectures In China 1919 1920:

John Dewey-Lectures in China, 1919-1920 John Dewey, 1973 **Lectures in China** John Dewey, 1985 Lectures in China, 1919-1920, on Logic, Ethics, Education, and Democracy John Dewey, 1985 *John Dewey, Lectures in China, 1919-1920 on Logic, Ethics, Education and Democracy* John Dewey, 1985 **John Dewey** John Dewey, Robert W. Clopton, 1985 Lectures in China, 1919-1920 John Dewey, 1973 *China's Education and the Industrialised World* Ruth Hayhoe, Marianne Bastid, 2017-12-12 This book first published in 1987 studies the practical and intellectual import of China's educational relations with the industrialised West the Soviet Union and Japan On the practical level it provides a broad historical and philosophical context within which the possibilities and dangers inherent in China's educational involvement with developed countries may be considered The book tests the theory that education transfers from the developed to the developing world have been used to consolidate political domination and economic exploitation by providing a detailed and provocative historical analysis of China's relations with the major developed nations John Dewey and Chinese Education, 2022-02-22 This book celebrates the centennial of Dewey's visit to China 1919 1921 Reflecting on the history of Dewey's visit is critical to understanding China's modernization and to reevaluating the early efforts of the radical intellectuals in the May Fourth Movement 1919 some of whom were Dewey's students at Columbia University This study also helps us to critically reflect on the China US relationship for our contemporary world The historical philosophical and comparative perspectives applied in this book may shed light on current conflicts Dewey's thoughts were well received by different scholars but also misperceived or misinterpreted in different historical periods This project tries to understand the challenges of both cultures Chinese and Western by using this historical episode as a distant mirror to better perceive and understand the present By reviewing this historical event we also find new space to reinterpret Eastern philosophies such as Confucianism and Buddhism We find that there's some surprising commonalities shared by Confucianism Buddhism and Deweyan pragmatism that provide possibilities for seeking a more inclusive conceptual framework for education in the West as well as the East John Dewey's Democratic Education and its Influence on Pedagogy in China 1917-1937 Lei Wang, 2019-09-24 Lei Wang researches John Dewey's pedagogical influence on the historical context of China and compares his observations and his basic democratic approach with the concepts and practical implementation of his Chinese students As a result it turns out that the spread of pragmatic philosophy in China was accompanied by reductionism misunderstandings Confucian doctrine and nationalism and that Dewey's reform proposals can open a democratic perspective on current challenges in Chinese society On the occasion of the 100th anniversary of Dewey's research trip to China the author emphasizes the contemporary significance of his work The results of her study can clarify and correct errors that continue to have effect today **Rediscovering John Dewey** Rex Li, 2020-11-02 This book tries to trace Dewey's intellectual history from his early years to the end focusing on the themes of psychology and the psychological aspect of

education in Dewey's lifelong writing. The author mixed the discussion on Dewey's work with his life stories and shows readers how his ideas evolved over time. In turn, the book offers a critical review of his ideas in the areas of psychology and education. Lastly, it assesses Dewey's involvement in and impact on education. In short, it provides a comprehensive account of his legacy in psychology and education. Roads to Dystopia, Sociological Essay on the Post Modern Condition (c) Stanford M. Lyman, 2001

Human Rights in Chinese Thought Stephen C. Angle, 2002-06-24. What should we make of claims by members of other groups to have moralities different from our own? Human Rights in Chinese Thought gives an extended answer to this question in the first study of its kind. It integrates a full account of the development of Chinese rights discourse reaching back to important though neglected origins of that discourse in 17th and 18th century Confucianism with philosophical consideration of how various communities should respond to contemporary Chinese claims about the uniqueness of their human rights concepts. The book elaborates a plausible kind of moral pluralism and demonstrates that Chinese ideas of human rights do indeed have distinctive characteristics but it nonetheless argues for the importance and promise of cross-cultural moral engagement.

Abolishing Boundaries Peter Zarrow, 2021-01-01. Honorable Mention 2022 Sharon Harris Book Award presented by the University of Connecticut Humanities Institute. Focusing on four key Chinese intellectuals of the first half of the twentieth century, *Abolishing Boundaries* offers new perspectives on modern Chinese political thought. These four intellectuals—Kang Youwei, Cai Yuanpei, Chen Duxiu, and Hu Shi—were deeply familiar with the Confucian and Buddhist classical texts while also interested in the West's utopian literature of the late nineteenth century as well as Kant and the neo-Kantians, Marxists, and

John Dewey and new liberalism respectively Although none of these four intellectuals can simply be labeled utopian thinkers this book highlights how their thinking was intertwined with utopian ideals to produce theories of secular transcendence liberalism and communism and how in explicit and implicit ways their ideas required some utopian impulse in order to escape the boundaries they identified as imprisoning the Chinese people and all humanity To abolish these boundaries was to imagine alternatives to the unbearable present This was not a matter of armchair philosophizing but of thinking through new ways to commit to action These men did not hold a totalistic picture of some perfect society but in distinctly different ways they all displayed a utopian impulse that fueled radical visions of change Their work reveals much about the underlying forces shaping modern thought in China and the world Reacting to China's problems they sought a better future for all humanity
