Living War, Thinking Peace (1914-1924) Bruna Bianchi, Geraldine Ludbrook, 2016-04-26 This volume is the result of a long commitment of the online journal DEP *Deportate esuli profughe* to the themes of women pacifists thought and activism in the 1900s The volume is a collection of contributions centred around three main themes The first part *Living War* Women's Experiences during the War brings together first hand accounts from women's lives as they face the horrors of war drawn mainly from original sources such as diaries letters memoirs and writings The second *Thinking Peace* Feminist Thought and Activism explores the lives and thought of several key women activists who challenged inequalities and sought to create new opportunities for women contributing to the definition of a transnational culture of peace The final section *International Relations Toward Future World Peace* examines the work of a group of women who saw the outbreak of the First World War and the emergence of an international women's movement for peace as an opportunity to act for their personal emancipation and in some cases for a different idea of politics The volume

fills a notable gap in international history studies providing a selection of contributions from little known European contexts such as Italy Poland and Austria The presence and contribution of African American women which has been neglected in the history of women s pacifism is also explored Particular attention is given to the Women s International League for Peace and Freedom and to the International Congress of Women held in The Hague in 1915 **Wilsonian Visions** James

McAllister,2021-11-15 In *Wilsonian Visions* James McAllister recovers the history of the most influential forum of American liberal internationalism in the immediate aftermath of the First World War The Williamstown Institute of Politics Established in 1921 by Harry A Garfield the president of Williams College the Institute was dedicated to promoting an informed perspective on world politics even as the United States still gathering itself after World War I retreated from the Wilsonian vision of active involvement in European political affairs Located on the Williams campus in the Berkshire Mountains of Western Massachusetts the Institute s annual summer session of lectures and roundtables attracted scholars diplomats and peace activists from around the world Newspapers and press services reported the proceedings and controversies of the Institute to an American public divided over fundamental questions about US involvement in the world In an era where the institutions of liberal internationalism were just taking shape Garfield s institutional model was rapidly emulated by colleges and universities across the US McAllister narrates the career of the Institute tracing its roots back to the tragedy of the First World War and Garfield s disappointment in America s failure to join the League of Nations He also shows the Progressive Era origins of the Institute and the importance of the political and intellectual relationship formed between Garfield and Wilson at Princeton University in the early 1900s Drawing on new and previously unexamined archival materials *Wilsonian Visions* restores the Institute to its rightful status in the intellectual history of US foreign relations and shows it to be a formative institution as the country transitioned from domestic isolation to global engagement **The Routledge**

Dietrich Bonhoeffer Refuting Carl Schmitt's Decision Karola Radler,2025-06-26 Radler examines Bonhoeffer s and Schmitt s intellectual paradigms of thought of theology and jurisprudence Whilst both thinkers encounter constitutional institutional models they arrive at opposing conclusions and actions This book tackles how they approach the indicators for a decision of choices between alternatives the urgency of resolving the problems at hand the intended goal and the following active manifestation in Christ Radler reveals how Schmitt s form of Decision resting on a linear model of history abstracts metaphysical content from objective normative evaluation and in support of a human personality representing the idea of Christ elevates the significance of the self over content and subject in structural analogy to theological dogma On the other hand Bonhoeffer s theology repudiates Schmitt s political

jurisprudential position contesting that history ultimately focuses on leading to human wholeness through reconciliation

World Marxist Review, 1971 Death to Fascism John P. Enyeart, 2019-06-30 Born to Slovenian peasants Louis Adamic commanded crowds met with FDR and Truman and built a prolific career as an author and journalist Behind the scenes he played a leading role in a coalition of black intellectuals and writers working class militants ethnic activists and others that worked for a multiethnic America and against fascism John Enyeart restores Adamic's life to the narrative of American history Dogged and energetic Adamic championed causes that ranged from ethnic and racial equality to worker's rights to anticolonialism Adamic defied the consensus that equated being American with Anglo Protestant culture Instead he insisted newcomers and their ideas kept the American identity in a state of dynamism that pushed it from strength to strength In time Adamic's views put him at odds with an establishment dedicated to cold war aggression and white supremacy He increasingly fought smear campaigns and the distortion of his views both of which continued after his probable murder in 1951 *Barbara Ward* Jean Gartlan, 2010-12-30 The first major study of the immensely influential political economist Barbara Ward drawing heavily on her own writings **Quacks and Crusaders** Eric S. Juhnke, 2002 One promoted goat gland transplants as a remedy for lost virility or infertility Another blamed aluminum cooking utensils for causing cancer The third was targeted by the Food and Drug Administration as public enemy number one for his worthless cures John Brinkley Norman Baker and Harry Hoxsey were the ultimate snake oil salesmen of the twentieth century With backgrounds in lowbrow performance carnivals vaudeville night clubs each of these charismatic con men used the emerging power of radio to hawk alternative cures in the Midwest beginning in the roaring twenties through the Depression era and into the 1950s All scorned the medical establishment for avarice while amassing considerable fortunes of their own and although the American Medical Association castigated them for preying on the ignorant this book shows that the case against them wasn't all that simple *Quacks and Crusaders* is an entertaining and revealing look at the connections between fraudulent medicine and populist rhetoric in middle America Eric Juhnke examines the careers of these three personalities to paint a vision of medicine that championed average Americans denounced elitism and affirmed rustic values All appealed to the common man winning audiences and patrons in rural America by casting their pitches in everyday language and their messages proved more potent than their medicines in treating the fears insecurities and failing health of their numerous supporters Juhnke first examines the career of each man revealing their geniuses as businessmen and propagandists with such success that Brinkley and Baker ran for governor of their states and Hoxsey had thousands of supporters protest his persecution by the FDA Juhnke then investigates the identity motives and willingness to believe of their many patients and followers He shows how all three men used populist rhetoric evangelical anti Communist anti intellectual to attract their clients and then how their particular brand of populism sometimes mutated to anti Semitism and other sentiments of the radical right By treating the incurable Brinkley Baker and Hoxsey took on the mantles of common folk crusaders Brinkley was idolized for his goat

gland cures until his death and Hoxsey's former head nurse continued his work from Tijuana until her death in 1999. In considering who visits quacks and why Juhnke has shed new light not only on the ongoing battle between alternative and organized medicine but also on the persistence of quackery and gullibility in American culture. Lectures on Negative Dialectics Theodor W. Adorno, 2014-11-05 This volume comprises one of the key lecture courses leading up to the publication in 1966 of Adorno's major work *Negative Dialectics*. These lectures focus on developing the concepts critical to the introductory section of that book. They show Adorno as an embattled philosopher defining his own methodology among the prevailing trends of the time. As a critical theorist he repudiated the worn-out Marxist stereotypes still dominant in the Soviet bloc; he specifically addresses his remarks to students who had escaped from the East in the period leading up to the building of the Berlin Wall in 1961. Influenced as he was by the empirical schools of thought he had encountered in the United States, he nevertheless continued to resist what he saw as their surrender to scientific and mathematical abstraction. However, their influence was potent enough to prevent him from reverting to the traditional idealisms still prevalent in Germany or to their latest manifestations in the shape of the new ontology of Heidegger and his disciples. Instead, he attempts to define perhaps more simply and fully than in the final published version a negative, i.e., critical approach to philosophy. Permeating the whole book is Adorno's sense of the overwhelming power of totalizing dominating systems in the post-Auschwitz world. Intellectual negativity therefore commits him to the stubborn defence of individuals both facts and people who stubbornly refuse to become integrated into the administered world. These lectures reveal Adorno to be a lively and engaging lecturer. He makes serious demands on his listeners but always manages to enliven his arguments with observations on philosophers and writers such as Proust and Brecht and comments on current events. Heavy intellectual artillery is combined with a concern for his students' progress.

Introduction to Phenomenology Dermot Moran, 2002-06-01 *Introduction to Phenomenology* is an outstanding and comprehensive guide to phenomenology. Dermot Moran lucidly examines the contributions of phenomenology's nine seminal thinkers: Brentano, Husserl, Heidegger, Gadamer, Arendt, Levinas, Sartre, Merleau-Ponty, and Derrida. Written in a clear and engaging style, *Introduction to Phenomenology* charts the course of the phenomenological movement from its origins in Husserl to its transformation by Derrida. It describes the thought of Heidegger and Sartre, phenomenology's most famous thinkers, and introduces and assesses the distinctive use of phenomenology by some of its lesser-known exponents such as Levinas, Arendt, and Gadamer. Throughout the book, the enormous influence of phenomenology on the course of twentieth-century philosophy is thoroughly explored. This is an indispensable introduction for all unfamiliar with this much-talked-about but little-understood school of thought. Technical terms are explained throughout, and jargon is avoided. *Introduction to Phenomenology* will be of interest to all students seeking a reliable introduction to a key movement in European thought.
