Tao-Sheng's Commentary on the Lotus Sūtra Young-ho Kim,1990-09-06 Chu Tao sheng stands out in history as a unique and preeminent thinker whose paradigmatic original ideas

paved the way for the advent of Chinese Buddhism The universality of Buddha nature which Tao sheng championed at the cost of excommunication was to become a cornerstone of the Chinese Buddhist ideology This book presents a comprehensive study of the only complete document by Tao sheng still in existence Korea's Great Buddhist-Confucian Debate A. Charles Muller, 2015-05-31 This volume makes available in English the seminal treatises in Korea's greatest interreligious debate of the fourteenth and fifteenth centuries On Mind Material Force and Principle and An Array of Critiques of Buddhism by Confucian statesman Ch'ng Toj'n 1342-1398 and Exposition of Orthodoxy by S'n monk Kihwa 1376-1433 are presented here with extensive annotation A substantial introduction provides a summary and analysis of the philosophical positions of both Neo Confucianism and Buddhism as well as a germane history of the interactions between these two traditions in East Asia offering insight into religious tensions that persist to this day Translator A Charles Muller shows how from the time Confucianism and Buddhism met in China these thought systems existed along with Daoism in a competing relationship that featured significant mutual influence A confrontative situation eventually developed in China wherein Confucian leaders began to criticize Buddhism During the late Koryŏ and early Chosŏn periods in Korea the Neo Confucian polemic became the driving force in the movement to oust Buddhism from its position as Korea's state religion In his essays Ch'ng drew together the gamut of arguments that had been made against Buddhism throughout its long history in Korea Kihwa's essay met Neo Confucian contentions with an articulate Buddhist response Thus in a rare moment in the history of religions a true philosophical debate ensued This debate was made possible based upon the two religions shared philosophical paradigm essence function ch'e-yong This traditional East Asian way of interpreting society events phenomena human beings and the world understands all things to have both essence and function two contrasting yet wholly contiguous and mutually containing components All three East Asian traditions took this as their underlying philosophical paradigm and it is through this paradigm that they evaluated and criticized each other's doctrines and practices Specialists in philosophy religion and Korean studies will appreciate Muller's exploration of this pivotal moment in Korean intellectual history Because it includes a broad overview of the interactive history of East Asian religions this book can also serve as a general introduction to East Asian philosophical thought *Studies in the Laṅkāvatāra Sūtra* Daisetz Teitaro Suzuki, 1999 The title Lankavatara might mean entering Lanka Perhaps referring to the temporary Mahayana period of Ceylon suggesting that the doctrine of this scripture are possibly consistent with earlier Buddhism preserved in the Pali language Suzuki has greatly helped the reader of the basic scripture by discussing the main ideas He tells how to study this scripture compares it with the popular Zen Buddhism discusses such typical and important doctrines as Mind only the Triple body of the Buddha and many minor topics Suzuki is both an exacting scholar and an understanding exponent of these difficult concepts He adds a Sanskrit Chinese English Glossary and also an Index This work is essential for grasping the main ideas of the scripture **The Ethics of Suicide** Margaret Pabst Battin, 2015-09-11 Is suicide wrong profoundly morally wrong Almost always wrong but excusable in

a few cases Sometimes morally permissible Imprudent but not wrong Is it sick a matter of mental illness Is it a private matter or a largely social one Could it sometimes be right or a noble duty or even a fundamental human right Whether it is called suicide or not what role may a person play in the end of his or her own life This collection of primary sources the principal texts of ethical interest from major writers in western and nonwestern cultures from the principal religious traditions and from oral cultures where observer reports of traditional practices are available spanning Europe Asia the Middle East Africa Oceania the Arctic and North and South America facilitates exploration of many controversial practical issues physician assisted suicide or aid in dying suicide in social or political protest self sacrifice and martyrdom suicides of honor or loyalty religious and ritual practices that lead to death including sati or widow burning hara kiri and sallekhana or fasting unto death and suicide bombings kamikaze missions jihad and other tactical and military suicides This collection has no interest in taking sides in controversies about the ethics of suicide rather it serves to expand the character of these debates by showing them to be multi dimensional a complex and vital part of human ethical thought *Circulars* ,1884 **Social Life in Ancient India** Haran Chandra Chakladar,1929 Annals of the Bhandarkar Oriental Research Institute, Poona ,1926
