Green Count Of Savoy Amadeus Vi Transa:

The Green Count of Savoy Eugene L. Cox, 2015-12-08 The fourteenth century is usually portrayed as a period of retrogression and disaster in European history but for the transalpine state of Savoy it was a period of glory During this time almost the entire region between Lombardy and Burgundy was brought under the control of Savoyard rulers The buffer state created between France and Italy hindered French expansion for many centuries and helped preserve the independence of Italy Drawing upon much unpublished material Professor Cox traces the social and political evolution of the principality He discusses how the Savoyard state was governed financed and defended He also provides a fascinating biography of the Green Count Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Green Count of Savoy. Amadeus VI and Transalpine Savoy in the 14. Century Eugene L. Cox, 1967

Contact and Conflict in Frankish Greece and the Aegean, 1204-1453 Nikolaos G. Chrissis, Mike Carr, 2016-05-23 The conquest of Constantinople by the Fourth Crusade shattered irreversibly the political and cultural unity of the Byzantine world in the Greek peninsula the

Aegean and western Asia Minor Between the disintegration of the Byzantine Empire after 1204 and the consolidation of Ottoman power in the fifteenth century the area was a complex political ethnic and religious mosaic made up of Frankish lordships Italian colonies Turkish beyliks as well as a number of states that professed to be the continuators of the Byzantine imperial tradition This volume brings together western medievalists Byzantinists and Ottomanists combining recent research in the relevant fields in order to provide a holistic interpretation of this world of extreme fragmentation Eight stimulating papers explore various factors that defined contact and conflict between Orthodox Greeks Catholic Latins and Muslim Turks highlighting common themes that run through this period and evaluating the changes that occurred over time Particular emphasis is given on the crusades and the way they affected interaction in the area Although the impact of the crusades on Byzantine history leading up to 1204 has been extensively examined in the past there has been little research on the way crusading was implemented in Greece and the Aegean after that point Far from being limited to crusading per se however the papers put it into its wider context and examine other aspects of contact such as trade interfaith relations and geographical exploration

The Sultan's Fleet Christine Isom-Verhaaren, 2021-12-02 While the Ottoman Empire is most often recognized today as a land power for four centuries the seas of the Eastern Mediterranean were dominated by the Ottoman Navy Yet to date little is known about the seafarers who made up the sultans fleet the men whose naval mastery ensured that an empire from North Africa to Black Sea expanded and was protected allowing global trading networks to flourish in the face of piracy and the Sublime Porte's wars with the Italian city states and continental European powers In this book Christine Isom Verhaaren provides a history of the major events and engagements of the navy from its origins as the fleets of Anatolian Turkish beyliks to major turning points such as the Battle of Lepanto But the book also puts together a picture of the structure of the Ottoman navy as an institution revealing the personal stories of the North African corsairs and Greek sailors recruited as admirals Rich in detail drawn from a variety of sources the book provides a comprehensive account of the Ottoman Navy the forgotten contingent in the empire's period of supremacy from the 14th century to the 18th century

The Crusade in the Fifteenth Century Norman Housley, 2016-06-17 Increasingly historians acknowledge the significance of crusading activity in the fifteenth century and they have started to explore the different ways in which it shaped contemporary European society Just as important however was the range of interactions which took place between the three faith communities which were most affected by crusade namely the Catholic and Orthodox worlds and the adherents of Islam Discussion of these interactions forms the theme of this book Two essays consider the impact of the fall of Constantinople in 1453 on the conquering Ottomans and the conquered Byzantines The next group of essays reviews different aspects of the crusading response to the Turks ranging from Emperor Sigismund to Papal legates The third set of contributions considers diplomatic and cultural interactions between Islam and Christianity including attempts made to forge alliances of Christian and Muslim powers against the Ottomans Last a set of essays looks at what was arguably the most complex region of all for

inter faith relations the Balkans exploring the influence of crusading ideas in the eastern Adriatic Bosnia and Romania Viewed overall this collection of essays makes a powerful contribution to breaking down the old and discredited view of monolithic and mutually exclusive fortresses of faith Nobody would question the extent and intensity of religious violence in fifteenth century Europe but this volume demonstrates that it was played out within a setting of turbulent diversity Religious and ethnic identities were volatile allegiances negotiable and diplomacy ideological exchange and human contact were constantly in operation between the period s major religious groupings *A Distant Mirror* Barbara W. Tuchman, 2011-08-03 A marvelous history of medieval Europe from the bubonic plague and the Papal Schism to the Hundred Years War by the Pulitzer Prize winning author of *The Guns of August* Lawrence Wright author of *The End of October* in *The Wall Street Journal* The fourteenth century reflects two contradictory images on the one hand a glittering age of crusades cathedrals and chivalry on the other a world plunged into chaos and spiritual agony In this revelatory work Barbara W Tuchman examines not only the great rhythms of history but the grain and texture of domestic life what childhood was like what marriage meant how money taxes and war dominated the lives of serf noble and clergy alike Granting her subjects their loyalties treacheries and guilty passions Tuchman re creates the lives of proud cardinals university scholars grocers and clerks saints and mystics lawyers and mercenaries and dominating all the knight in all his valor and furious follies a terrible worm in an iron cocoon Praise for *A Distant Mirror* Beautifully written careful and thorough in its scholarship What Ms Tuchman does superbly is to tell how it was No one has ever done this better *The New York Review of Books* A beautiful extraordinary book Tuchman at the top of her powers She has done nothing finer *The Wall Street Journal* Wise witty and wonderful a great book in a great historical tradition *Commentary* NOTE This edition does not include color images *The Green Count of Savoy* Eugene L.
