Greater Vancouver:

The Greater Vancouver Book Chuck Davis,1997 Covers the city of Vancouver and the surrounding metropolitan area primarily located in the Greater Vancouver Regional District

Vancouverism Larry Beasley,2019-05-15 Until the 1980s Vancouver was a typical mid sized North American city But between Expo 86 and the Olympic Games in 2010 something extraordinary happened This otherwise unremarkable city underwent a radical transformation that saw it emerge as an inspiring world class metropolis celebrated for its livability sustainability and competitiveness City watchers everywhere took notice and wanted to learn more about this new model of urban growth and the term Vancouverism was born This book tells the story of Vancouverism and the urban planning philosophy and practice behind it The author is a former chief planner of the City of Vancouver and was a key player at the heart of the action Writing from an insider s perspective Larry Beasley traces the principles that inspired Vancouverism and the policy framework developed to implement it The prologue written by Vancouver journalist Frances Bula outlines the political and urban history of Vancouver up until the 1980s The text is also beautifully illustrated by the author with more than 200 colour photographs Cities everywhere are asking the same question Shall we shape change or will change shape us This book shows how one city discovered positive answers and it offers the principles tools and inspiration for others to follow

Governing Metropolitan Regions in the 21st Century Donald Phares,2015-01-28 While government provides the structure of public leadership governance is the art of public leadership This timely book examines current trends in metropolitan governance issues It analyzes specific cases from thirteen major metropolitan regions in the United States Canada and Mexico all woven together by an overall framework established in the first three chapters The distinguished contributors address such governance issues as city county consolidation local federal coordination annexation and special districting and private contracting with special attention to lessons learned from both successes and failures As urban governance innovations have clearly outpaced urban government structures in recent years the topics covered here are especially relevant

Disease Maps Tom Koch,2011-06-30 In the seventeenth century a map of the plague suggested a radical idea that the disease was carried and spread by humans In the nineteenth century maps of cholera cases were used to prove its waterborne nature More recently maps charting the swine flu pandemic caused worldwide panic and sent shockwaves through the medical community In Disease Maps Tom Koch contends that to understand epidemics and their history we need to think about maps of varying scale from the individual body to shared symptoms evidenced across cities nations and the world Disease Maps begins with a brief review of epidemic mapping today and a detailed example of its power Koch then traces the early history of medical cartography including pandemics such as European plague and yellow fever and the advancements in anatomy printing and world atlases that paved the way for their mapping Moving on to the scourge of the nineteenth century cholera Koch considers the many choleras argued into existence by the maps of the day including a new perspective on John Snow s science and legacy Finally Koch addresses contemporary

outbreaks such as AIDS cancer and H1N1 and reaches into the future toward the coming epidemics Ultimately Disease Maps redefines conventional medical history with new surgical precision revealing that only in maps do patterns emerge that allow disease theories to be proposed hypotheses tested and treatments advanced

Rail Freight Solutions to Roadway Congestion Joseph Bryan, Glen Elliot Weisbrod, Carl Douglas Martland, National Cooperative Highway Research Program, 2007 NCHRP Report 586 explores guidance on evaluating the potential feasibility cost and benefits of investing in rail freight solutions to alleviate highway congestion from heavy truck traffic

OECD Territorial Reviews: Chile 2009 OECD, 2009-07-27 Chile has achieved strong economic growth Yet there are large regional disparities revealing underutilised growth potential This report recommends moving towards a territorial approach to better adapt public management to the different opportunities of the diverse territories of the country

Dream City Lance Berelowitz, 2010-08-24 Located at the edge of a continent and at the corresponding edge of national public consciousness Vancouver has developed in unique and unanticipated ways It is now emerging as an experiment in contemporary city making with international interest in Vancouver as a model of post industrial urbanism increasing exponentially Lance Berelowitz explores the links between the city s seductive natural setting its turbulent political history and changing civic values and its planning and design culture He also makes the startling case that Vancouver is to Canada s imagination what Los Angeles is to the American a mythologized place of endless possibilities while being grounded in an altogether more limited set of socio economic and environmental limitations Dream City is richly illustrated with both historical and contemporary photographs of many significant buildings and public spaces as well as specially commissioned maps that reveal the underlying patterns of growth and change of Canada s youngest metropolis

Innovation, Technology and Knowledge Charlie Karlsson, Börje Johansson, Roger Stough, 2013-03-01 The editors are experienced well published authors in the area of innovation and economic development This book offers a wide coverage of issues within Europe

America's Urban Future Ray Tomalty, Alan Mallach, 2015 In this book the authors examine U S policy in the light of the Canadian experience and use that experience as a starting point to generate specific policy recommendations Their recommendations are designed to help the U S further its urban revival build more walkable energy efficient communities and in particular help land use adapt better to the needs of the aging population

Publisher s description The New African Diaspora in Vancouver Gillian Laura Creese, 2011-01-01 The New African Diaspora in Vancouver documents the experiences of immigrants from countries in sub Saharan Africa on Canada s west coast Despite their individual national origins many adopt new identities as African and are actively engaged in creating a new place based African community In this study Gillian Creese analyzes interviews with sixty one women and men from twenty one African countries to document the gendered and

racialized processes of community building that occur in the contexts of marginalization and exclusion as they exist in Vancouver Creese reveals that the routine discounting of previous education by potential employers the demeaning of African accents and bodies by society at large cultural pressures to reshape gender relations and parenting practices and the absence of extended families often contribute to downward mobility for immigrants The New African Diaspora in Vancouver maps out how African immigrants negotiate these multiple dimensions of local exclusion while at the same time creating new spaces of belonging and emerging collective identity The Infrastructure of Play Dennis R. metropolitan case studies Examining Minneapolis St Paul and Portland Oregon in the United States and Toronto and Vancouver in Canada Taylor shows how differences in the structure of governing institutions in American states and Canadian provinces cumulatively produced different forms of urban governance Arguing that since the nineteenth century American state governments have responded less effectively to rapid urban growth than Canadian provinces he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War while dispersed authority in American state governments fostered indecision and catered to parochial interests Most contemporary policy problems and their solutions are to be found in cities Shaping the Metropolis shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future Needle Work Jamie Jelinski,2024-06-15 In 1891 J Murakami travelled from Japan via San Francisco to Vancouver Island and began working in and around Victoria His occupation creating permanent images on the skin of paying clients From this early example of tattooing as work Jamie Jelinski takes us from coast to coast with detours to the United States England and Japan as he traces the evolution of commercial tattooing in Canada over more than one hundred years Needle Work offers insight into how tattoo artists navigated regulation the types of spaces they worked in and the dynamic relationship between the images they tattooed on customers and other forms of visual culture and artistic enterprise Merging biographical narratives with an examination of tattooing s place within wider society Jelinski reveals how these commercial image makers bridged conventional gaps between cultural production and practical for profit work thereby establishing tattooing as a legitimate career Richly illustrated and drawing on archives print media and objects held in institutions and private collections across Canada and beyond Needle Work provides a timely understanding of a vocation that is now familiar but whose intricate history has rarely been considered *Air Quality Management* Eric Taylor,Ann McMillan,2013-10-30 This book provides a wide overview of the issues related to managing of air quality in Canada Learn about the air issues that have caused impacts to ecosystems or human health and hence been targeted to be managed Discover how Canada s national governance involving a federal government along with provincial and territorial governments impacts the air quality management process Understand how Canadians manage their air quality in context with the USA their largest and closest neighbour Benefit from the experience of 43 of Canada s most experienced air quality management professionals who share their insights into the state of air quality in Canada today how it is managed as well as giving a glimpse into the future World Cities and Urban Form Mike Jenks,Daniel Kozak,Pattaranan Takkanon,2013-12-02 This book presents new research and theory at the regional scale showing the forms metropolitan regions might take to achieve sustainability At the city scale the book presents case studies based on the latest research and practice from Europe Asia and North America showing how both planning and flagship design can propel cities into world class status and also improve sustainability The contributors
