Grey Funnel Lines:

Grey Funnel Lines Cyril Tawney, 2015-12-22 Originally published in 1987 In this book we find songs reflecting every aspect of life in the twentieth century Royal Navy both upper and lower deck war ship s routine aviation submarines the antics of dockyard personnel not to mention the matelot s shore going adventures both amorous and bibulous The compiler was well known as a folk singer though he began his career in the Royal Navy Based on his personal collection of Navy songs this book proves that the sailor s muse did not desert him with the passing of the sailing ship It also dispels the notion that the modern Jack Tar when he produces any songs at all confines himself to the pornographic With the songs Cyril Tawney interweaves a commentary on the Royal Navy setting providing a backdrop to the sailor s own words This book is of enduring appeal to all who have served as well as to students of twentieth century oral tradition *Centaur from the Triangle: A*

The Life and Ship Models of Norman Ough Alistar Roach, 2016-10-30 Brings Ough s life and work beautifully to light in a volume rich in photographs drawings technical detail and personality Schopenhauer s Workshop Norman Ough is considered by many as simply the greatest ship modeler of the twentieth century and his exquisite drawings and meticulous models have come to be regarded as masterpieces of draughtsmanship workmanship and realism more than technically accomplished ship models they are truly works of art This new book is both a tribute to his lonely genius and a practical treatise for model

shipwrights Ough lived most of his adult life far from the sea in a flat high above the Charing Cross Road in London where his frugal existence and total absorption in his work led to hospitalization on at least two occasions he was an eccentric in the truest sense but he also became one of the most sought after masters of his craft Earl Mountbatten had him model the ships he had served on his model of HMS Queen Elizabeth was presented to Earl Beatty film production companies commissioned models for effects in several films Incorporating many of his original articles from Model Maker Magazine his detailed line drawings now kept in the Brunel Institute and photographs of his models held in museums and at Mountbatten s house this book presents an inspiring panorama of perhaps the most perfect warship models ever made An amazing almost intimidating view of the method modelling drawings and a life of a builder so obsessed with his work that some may say he was a man who went down with his ships FineScale Modeler Novitates Zoologicae ,1901 *Folk Song in England* Steve

Roud,2017-08-15 In Victorian times England was famously dubbed the land without music but one of the great musical discoveries of the early twentieth century was that England had a vital heritage of folk song and music which was easily good enough to stand comparison with those of other parts of Britain and overseas Cecil Sharp Ralph Vaughan Williams Percy Grainger and a number of other enthusiasts gathered a huge harvest of songs and tunes which we can study and enjoy at our leisure But after over a century of collection and discussion publication and performance there are still many things we don t know about traditional song Where did the songs come from Who sang them where when and why What part did singing play in the lives of the communities in which the songs thrived More importantly have the pioneer collectors restricted definitions and narrow focus hindered or helped our understanding This is the first book for many years to investigate the wider social history of traditional song in England and draws on a wide range of sources to answer these questions and many more

Metamorphosis John Kennedy,2010-02 The second book in the Trilogy Nought to Sixty This covers his time spent in the Royal Navy from the age of 15 at the notorious H M S Ganges and his subsequent time in the R N Very funny **Creative Methods in Military Studies** Alice Cree,2023-08-02 What can creative methods offer our understanding of military power and militarised cultures What constitutes creative research in military studies And what are some of the challenges of this type of work This edited volume brings together authors working at the cutting edge of creative research in military studies to explore how creativity and creative practice can shed new light on often taken for granted concepts in critical military research In twelve empirically and conceptually rich chapters authors from a diverse range of disciplinary fields draw on theatre model making songwriting dance spoken word paper making and more to question what military research can and should look like As a collection the book explores topics of central concern in military studies such as militarism military experience and militarised cultures as well as more practical questions around ethics positionality and research relationships This path breaking new volume considers what exactly constitutes creativity in critical military research while offering the tools for researchers to think anew about big questions in the field *Exploring Experiences of Advocacy by People with*

Learning Disabilities Duncan Mitchell, 2006 This book charts the course through which people with learning disabilities have become increasingly able to direct their own lives as fully active members of their communities Many of the personal accounts photographs and songs included in this book will be accessible and encouraging to people with learning disabilities

Diver Tony Groom, 2023-12-21 Diver is an honest moving and sometimes hilarious account of a hair raisingly exciting career both in the Royal Navy and in commercial deep sea diving training the most unlikely of raw recruits handling unexploded bombs while under air attack living for months in a pressurized bottle with a voice like Donald Duck commuting to work through a hole in the floor in the freezing black depths of the North Sea *Nought to Sixty*, *Follow Me Through* Wing Commander Mike Brooke AFC RAF, 2013-11-01 Catch a rare glimpse into the training of the nation's defence personnel as pilot turned flying instructor Mike Brooke shares with us some of his amusing firsthand flying stories After his success as a Cold War Canberra pilot Mike was dispatched to become a flying instructor at the Central Flying School in the 1970s Follow him through as he would instruct his trainees as he experiences the quite literal ups and downs of teaching the Glasgow and Strathclyde Air Squadron Discover how he battled the diminutive de Havilland Chipmunk in order to teach others how to fly the aircraft before finally moving to instruct on the Canberra in its many marks Here Mike will take you on a quite often bumpy journey as an instructor of pilots old and new recounting tales of flying near accidents and less serious incidents that flying these old but still demanding aircraft bring Following on from his debut book *A Bucket of Sunshine* Mike continues to use his personal experience to bring aviation to life proving indispensable for any aviation enthusiast

Musical Colours Ian Pearson, Jack Kopstein, 2022-01-31 On the cover of the 1970 record *THE VANISHING REGIMENTS* Colonel CH Jaeger OBE made an interesting observation Be it true or not that old soldiers never die but only fade away it is absolutely certain that the music connected with soldiering never does in fact Many famous Regiments in the last few years have passed off the scene others have been amalgamated Much of the music of former Regiments is still in use though the names of the Regiments concerned have vanished perhaps forever Regimental colours are the symbolic spirit of the regiment their marches are the musical spirit Their histories are sometimes older than the regiments themselves and very much guarded and cherished by them When you hear a regimental band play a march why that march This book is an attempt to cover the fascinating histories of military marches how and why regiments adopted them even those that have faded into history It will appeal to those interested in Regimental Marches of Canadian and United Kingdom Armed Forces Over 500 marches are covered with many band photos from across the centuries Also included are narratives of the composers Victoria Cross musicians and even words to many marches So get out the records crank up the volume and listen to the bands play their *MUSICAL COLOURS* while reading all about them *Gunboats, Empire and the China Station* Matthew Heaslip, 2020-10-01 Examining Britain's imperial outposts in 1920s East Asia this book explores the changes and challenges affecting the Royal Navy's third largest fleet the China Station as its crews fought to hold back the changing tides of fortune

Bridging the gap between high level naval strategy and everyday imperial culture Heaslip highlights the importance of the China Station to the British imperial system foreign policy and East Asian geopolitics while also revealing the lived experiences of these imperial outposts Following their immersion into a new world and the challenges they encountered along the way it considers how its naval officers were perceived by the Chinese populations of the ports they visited how the two communities interacted and what this meant at a time of peace Against the changing nature of Britain's informal empire in the 1920s Gunboats Empire and the China Station highlights the complex nature of naval operations in between major conflicts and calls into question how peaceful this peacetime truly was *Industrial Canada*, 1927 *Churchill's Thin Grey Line* Bernard Edwards, 2017-11-30 The naval historian and retired merchant navy captain recounts the contributions of Britain's civilian ships during WWII in this cracking read *The Bridgend Porthcawl Gem* The first British casualties of the Second World War were not members of the Royal Navy the army or the Royal Air Force They were British merchant seamen on the transatlantic passenger liner SS *Athenia* torpedoed by a German U 30 submarine on September 3 1939 For the duration of the war Britain's merchant fleet performed a vital role carrying the essential supplies that kept the country running during the darkest days and made victory possible Their achievements came at a terrible cost with 2 535 British oceangoing merchant ships being sunk and of the 185 000 men and women serving in the British Merchant Navy at the time 36 749 sacrificed their lives Another 4 707 were wounded and 5 720 ended up as prisoners of war Their casualty rate of twenty five percent was second only to RAF Bomber Command's Thoroughly researched and full of fascinating true accounts Bernard Edwards's Churchill's *Thin Grey Line* tells the inspiring story of those brave civilian volunteers who fought so gallantly to defend their ships cargo and country A cracking read which brings home to the reader how much we in England owe to the Merchant Navy Bernard Edwards has done them proud *The Bridgend Porthcawl Gem* [How to Build an Aircraft Carrier](#) Chris Terrill, 2022-01-20 Discover the enthralling story of the HMS *Queen Elizabeth* the Royal Navy's largest ever aircraft carrier and SUBJECT OF THE MAJOR NEW BBC DOCUMENTARY SERIES *THE WARSHIP* Fascinating often funny and sometimes moving Terrill takes us deep into the bowels of Britain's biggest warship Exhilarating *THE TIMES* _____ 65 000 tons 280 metres long A flight deck the size of sixty tennis courts A giant piece of Sovereign British territory that's home to up to 50 Aircraft HMS *Queen Elizabeth* is the biggest ship in the Royal Navy's history and one of the most ambitious and exacting engineering projects ever undertaken in the UK But it's her ship's company of 700 alongside an air group of 900 air and ground crew that are Big Lizzie's beating heart And *How to Build an Aircraft Carrier* tells their story From before the first steel of her hull was cut Chris Terrill has enjoyed unprecedented access to *Queen Elizabeth* and the men and women who have brought her to life From Jerry Kyd the ship's inspirational Captain to Lt Cdr Nathan Grey the first pilot to land Britain's new stealth jet fighter on her deck Terrill has won the trust and confidence of the ship's people *How to Build an Aircraft Carrier* tells the story of Britain at its best innovative confident outward looking and world beating _____ A

Grayson, 2015-03-12 Jerry Grayson is an ordinary man who chose an extraordinary career At age 17 he became the youngest helicopter pilot to ever serve in the Royal Navy By age 25 he was the most decorated peacetime naval pilot in history For the Navy's Search and Rescue pilots getting to work is both an adventure and an ordeal Whether rescuing a wounded fighter pilot who has ditched in the sea saving desperate survivors from a sinking ship or picking up a grievously ill crewman from the deck of a nuclear armed submarine that is playing a cat and mouse game with the Soviet navy Jerry Grayson has lived a life of unparalleled excitement and adventure His finest hour came during the infamous Fastnet Yacht Race of 1979 in which 25 yachts were lost When a catastrophic storm enveloped the competitors he and his crew pushed their Wessex helicopter to its absolute limits and put their own lives at risk flying into hurricane force winds to winch shipwrecked sailors from heaving tempestuous seas An investiture at Buckingham Palace with Her Majesty the Queen was the result Being a Rescue Pilot is a fast paced career because there is no choice Lives are at stake and pilots must move and think fast Jerry Grayson's inside view of this heroic service is as inspirational as it is celebratory Excitingly told frequently funny but also very poignant Jerry's story is not an account of just one man's deeds it is a salute to all the men and women he worked with who were able to turn tragedies into triumphs Includes a Foreword by HRH The Duke of York Prince Andrew Commodore in Chief of the Fleet Air Arm
