**The Mystery of Francis Bacon** William T. Smedley, 2011      Francis Bacon's New Atlantis in the Foundation of Modern Political Thought Kimberly Hurd Hale, 2013-10-10 The relationship between technology philosophy and politics is both contentious and vital to our understanding of human nature and the ways human beings interact with one another in society Francis Bacon outlined the wild potential and great danger of this relationship This book explores Bacon s role as a founder of modern political science and the place of his New Atlantis in the founding of modern political thought      *The Works of Francis Bacon* Francis Bacon, Robert Leslie Ellis, 1860      **The Essayes of Francis Bacon** Francis Bacon, 1944      The Political Philosophy of Francis Bacon Tom van Malssen, 2014-11-19 An ambitious and radically original reading of philosopher Francis Bacon Comprehensive in its ambitions and meticulous in its approach The Political Philosophy of Francis Bacon is a new and unique interpretation of one of early modernity s more important thinkers Whereas recent works on Bacon tend to confine themselves either to interpreting his historical context or to considering the founder of Baconianism from the perspective of one work in particular or the history of science in general Tom van Malssen argues through detailed and provocative interpretations of a number of Baconian writings that the unity of Bacon s thought can only be revealed if these writings are read in historical and philosophical conjunction as well as on the assumption that they are all somehow part of the whole of Bacon s political philosophy In addition to restoring Bacon to the pantheon of great philosophers van Malssen demonstrates that a proper understanding of Bacon s political philosophy contributes significantly to our understanding of the nature of philanthropic science the modern project and ultimately ourselves This book will become an enduring pillar of our understanding of Bacon s philosophy The scholarship and mastery of the historical sources both philosophic and Biblical are brilliant Jerry Weinberger author of *Science Faith and Politics* Francis Bacon and the Utopian Roots of the Modern Age A Commentary on Bacon s *Advancement of Learning* The scholarship of Bacon in this book is masterful It should transform and deepen the field the field being the nature and history of the philosophic life This is arguably the most thoughtful penetrating and ultimately revealing book on Bacon ever written Svetozar Minkov author of *Francis Bacon s Inquiry Touching Human Nature Virtue Philosophy and the Relief of Man s Estate*      Landrechten van Drente ,      **The New Organon and Related Writings of Francis Bacon** Francis Bacon, 1960      **Francis Bacon and the Modern Dilemma** L.
