Frankfurt An Illustrated Guide To The Metropolis On The Main City Guide:

Frankfurt ,1994 **Enlightened Metropolis** Alexander M. Martin,2013-03-28 Imperial Russia is was said had two capital cities because it had two identities St Petersburg was Russia s window to Europe whereas Moscow preserved the nation s proud historical traditions Enlightened Metropolis challenges this myth by exploring how the tsarist regime actually tried to turn Moscow into a bridgehead of Europe in the heartland of Russia Moscow in the eighteenth century was widely scorned as backward and Asiatic The tsars thought it a benighted place that endangered their state s internal security and their effort to make Russia European Beginning with Catherine the Great they sought to construct a new Moscow with European buildings and institutions a Westernized middle estate and a new cultural image as an enlightened metropolis Drawing on the methodologies of urban social institutional cultural and intellectual history Enlightened Metropolis asks How was the urban environment buildings institutions streets smells transformed in the nine decades from Catherine s accession to the death of Nicholas I How were the lives of the inhabitants changed Did a middle estate come into being How similar was Moscow s modernization to that of Western cities and how was it affected by the disastrous occupation by Napoleon Lastly how were Moscow and its people imagined by writers artists and social commentators in Russia and the West from the Enlightenment to the mid nineteenth century **Metropolis on the Styx** David Lawrence Pike,2007 Pike considers how underground spaces and their many myths have organized ways of seeing thinking about and living in the modern city He details the emergence of the vertical city in the imagination of 19th century Paris and London a city whose ground level was replete with passages between above and below Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen ,1996 **Metropolis** Christos M. Joachimides,Norman Rosenthal,Martin-Gropius-Bau (Berlin, Germany),1991 Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division,1980 **Bulletin of the New York Public Library** New York Public Library,1910 Includes its Report 1896 19 *The Good Metropolis* Alexander Eisenschmidt,2019-01-29 The publication presents the first historical analysis of the tension between the city and architectural form It introduces 20th century theories to construct a historical context from which a new architecture city relationship emerged The book provides a conceptual framework to understand this relationship and comes to the conclusion that urbanization may be filled with potential i e be a Good Metropolis 3 X (days) Cologne Horst Schmidt-Brümmer,1990 **The Freemason and Masonic Illustrated. A Weekly Record of Progress in Freemasonry** ,1902 **The First Proofs of the Universal Catalogue of Books on Art** Great Britain. Department of Science and Art,National Art Library (Great Britain),1870 **Universal Catalogue of Books on Art: L to Z** National Art Library (Great Britain),1870 **Tracing Modernity** Mari Hvattum,Christian Hermansen,2004-08-02 First published in 2004 Walter Benjamin famously defined modernity as the world dominated by its phantasmagorias The chapters in this book focus on one such phantasmagoria namely that of modernity itself From the late

seventeenth century until today the modern has served as a key category by which to understand an ever changing present Art and architecture have played a key role in this pursuit as the means by which the modern was to manifest itself The aim of this anthology is to trace the modern project through its multifarious manifestations in order to understand contemporary culture in a deeper sense than facile discussions of modernism and post modernism often grant Drawing on architectural and urban history as well as philosophy and sociology the chapters outline the complex and conflicting roots of modernity by tracing its manifestations in architecture and the city The book is divided into three parts each exploring a distinct aspect of modernity While part one scrutinizes the much abused concepts of modernity modernism and the modern parts two and three look at the manifestations of the modern in architecture and the city respectively Focusing particularly on the transition between historicism and modernism the chapters offer a re interpretation of early modern architectural and urban culture as it came to expression in people such as Cerda Semper B tticher Scott Baudelaire the Goncourt brothers Benjamin Warburg Kracauer Mackintosh Behrens Taut and Le Corbusier For all their differences these were thinkers and practitioners whose undisputed modernity arose from a deep preoccupation with history A re reading of their legacy may throw light on the neglected reciprocity between modernity and its historical conditions of becoming

Dictator's Dreamscape Joseph R. Hartman,2019-04-23 Joseph Hartman focuses on the public works campaign of Cuban president and later dictator Gerardo Machado Political histories often condemn Machado as a US puppet dictator overthrown in a labor revolt and popular revolution in 1933 Architectural histories tend to catalogue his regime s public works as derivatives of US and European models Dictator s Dreamscape reassesses the regime s public works program as a highly nuanced visual project embedded in centuries old representations of Cuba alongside wider debates on the nature of art and architecture in general especially in regards to globalization and the spread of US style consumerism The cultural production overseen by Machado gives a fresh and greatly broadened perspective on his regime s accomplishments failures and crimes The book addresses the regime s architectural program as a visual and architectonic response to debates over Cuban national identity US imperialism and Machado s own cult of personality

Thinking Through Fashion Agnès Rocamora,Anneke Smelik,2025-04-03 A vital update to the definitive guide to fashion and cultural theory featuring four new chapters and essential revisions throughout in light of key developments in fashion and fashion studies Across 19 major thinkers from the 19th to the 21st century the second edition of this comprehensive collection introduces readers to the process of thinking through rich cultural fields such as fashion with the help of social and cultural theory and thinking through social and cultural theory with the help of fashion Each chapter guides you through the work of a major thinker and considers their historical context the role of fashion within their theory how their theoretical frameworks apply to contemporary fashion studies and the strengths and limitations of their approach

Featuring new chapters on key theorists Edward Said bell hooks Frantz Fanon and W E B Du Bois this new edition prepares readers to question and diversify the field of fashion A revised introduction resituates theories in relation to each other and reflects on changing approaches to fashion studies while revisions to existing chapters equip readers with the most up to date critical perspectives and developments in fashion and fashion theory Touring Beyond the Nation: A Transnational Approach to European Tourism History Eric G.E. Zuelow, 2016-12-05 When tourists travel they often seek the exotic The farther they venture the more unique the cultures they gaze upon the greater the prestige accrued cross cultural contact is commonplace Yet despite the obviously transnational character of the tourist experience national borders define existing studies of tourism Spanish French or German tourism is treated almost in isolation and there are only hints of a larger transnational impetus behind the creation of national tourism products This volume tells a different story Although modern tourism first evolved in Europe changes were never confined to national borders The Grand Tour the birthplace of modern tourism was consummately transnational in both its execution and its influence Although seaside resorts originated in Britain the aesthetic and scientific ideas that made beaches desirable emerged through conversation among Dutch painters English travellers and both British and Continental scientists and philosophers When travel was finally available to the masses Irish tourism advocates looked to England Continental Europe and America for ideas The Nazi leisure organization Strength through Joy KdF was based on an earlier Italian model the Dopolavoro World's Fair promoters raided previous fairs in other countries for ideas European wide demand and taste helped shape nudist practice in France and beyond At every turn practices and products developed because tourism lent itself to trans national discourse The contributors examine a wide range of topics that together make a powerful argument for the adoption of a new transnational model for understanding modern tourism An essential addition to the library of academics studying the history of tourism popular culture and leisure in Europe the book will also provide interest to scholars of transnational topics including Europeanization and globalization
