Fraternity Among The French Peasantry:

Fraternity Among the French Peasantry Alan R. H. Baker, 2004-03-18 The individualism of the French peasantry during the nineteenth century has frequently been asserted as one of its most striking characteristics In this 1999 book Alan Baker challenges this orthodox view and demonstrates the extent to which peasants continued with traditional and developed new forms of collective action He examines representations of the peasantry and discusses the discourse of fraternity in nineteenth century France in general before considering specifically the historical development geographical diffusion and changing functions of fraternal voluntary associations in Loir et Cher between 1815 and 1914 Alan Baker focuses principally upon associations aimed at reducing risk and uncertainty and upon associations intended to provide agricultural protection A wide range of new voluntary associations were established in Loir et Cher and indeed throughout rural France during the nineteenth century Their historical geography throws new light upon the sociability upon the changing mentalities of French peasants and upon the role of fraternal associations in their struggle for survival *Between War and the State* Van Nguyen-Marshall, 2023-07-15 In *Between War and the State* Van Nguyen Marshall examines an array of voluntary activities including mutual help professional charitable community development student women's and rights organizations active in South Vietnam from 1954 to 1975 By bringing focus to the public lives of South Vietnamese people *Between War and the State* challenges persistent stereotypes of South Vietnam as a place without society or agency Such robust associational life underscores how an active civil society survived despite difficulties imposed by the war government restrictions economic hardship and external political forces These competing political forces which included the United States Western aid agencies and Vietnamese communist agents created a highly competitive arena wherein the South Vietnamese state did not have a monopoly on persuasive or coercive power To maintain its influence the state sometimes needed to accommodate groups and limit its use of violence Civil society participants in South Vietnam leveraged their social connections made alliances appealed to the domestic and international public and used street protests to voice their concerns secure their interests and carry out their activities Citizenship and Wars Dr Bertrand Taithe, Bertrand Taithe, 2003-09-02 The early years of democracy in France were marked by a society divided by civil war class war and violent conflict *Citizenship and Wars* explores the concept of citizenship in a time of social and political upheaval and considers what the conflict meant for citizen soldiers women children and the elderly This highly original argument based on primary research brings new life to debates about the making of French identity in the 19th century Putting the latest theoretical thinking into empirical use the author assesses how the function of the state and its citizens changed during the Paris Commune and Franco Prussian War The study considers fresh issues such as how the people coped with the collapse of their government what the upheaval meant for the provinces of France how the issue of citizenship affected religious identities the differences between colonial Algeria and metropolitan France **Markets in Historical Contexts** Mark Bevir, Frank Trentmann, 2004-02-12 Markets in

Historical Contexts is the result of a dialogue between historians and social scientists thinking about markets in modern society How should we approach markets after the collapse of Marxism What alternative ways of thinking about markets can we recover from the past The essays in this volume set out to challenge essentialist accounts of the market Instead they suggest that markets are always embedded in distinctive traditions and practices that shape the ways in which they are conceived and the manner of their working The essays range widely over European and non European societies from the eighteenth century to the present from the great transformation to globalization Rational peasants republican economists popular conservatives guild theorists early environmentalists communitarians progressives consumers Gandhi s descendants and others are all revived The volume thus recovers alternative ways of thinking about markets many of which are neglected or marginalized in contemporary debates Amateur Musical Societies and Sports Clubs in Provincial France, 1848-1914

Alan R. H. Baker, 2017-09-14 This book explores leisure related voluntary associations in France during the nineteenth century as practical expressions of the Revolutionary concept of fraternit Using a mass of unpublished sources in provincial and national archives it analyses the history geography and cultural significance of amateur musical societies and sports clubs in eleven d partements of France between 1848 and 1914 It demonstrates that although these voluntary associations drew upon and extended the traditional concept of cooperation and community and the Revolutionary concept of fraternity they also incorporated the fundamental characteristics of competition and conflict Although intended to produce social harmony in practice they reflected the ideological hostilities and cultural tensions that permeated French society in the nineteenth century A Social History of France 1780-1914 Peter McPhee, 2017-03-03 This volume provides a lively and authoritative synthesis of recent work on the social history of France and is now thoroughly updated to cover the long nineteenth century from 1789 1914 Peter McPhee offers both a readable narrative and a distinctive coherent argument about this remarkable century and explores key themes such as Peasant interaction with the environment The changing experience of work and leisure The nature of crime and protest Changing demographic patterns and family structures The religious practices of workers and peasants The ideology and internal repercussions of colonisation At the core of this social history is the exercise and experience of social relations of power not only because in these years there were four periods of protracted upheaval but also because the history of the workplace of relations between women and men adults and children is all about human interaction Stimulating and enjoyable to read this indispensable introduction to nineteenth century France will help readers to make sense of the often bewildering story of these years while giving them a better understanding of what it meant to be an inhabitant of France during that turbulent time **The Letter in Flora Tristan's Politics, 1835-1844**

Máire Fedelma Cross, 2004-04-19 This innovative study analyzes Flora Tristan s correspondence with militant republicans socialists and democrats active in the July Monarchy It examines the role of the letter in fostering links at a time of a significant growth of literacy and search for citizenship by the disenfranchised Combining a gendered analysis of socialist

movements with a textual analysis of letters it illustrates the vitality of political tensions in Tristan's communications and the sophistication of political networks on the eve of the 1848 revolution *Franco-America in the Making* Jonathan K. McLean, David A. Schultz, Manfred B. Steger, 2002-11 This collection tackles the theme of isolation and the breakdown of mediating social institutions It is in part a response to Robert Putnam's *Bowling Alone* as well as an attempt to create a broader idea of civil society **Life History Evolution** Steven C. Hertler, Aurelio José Figueredo, Mateo Peñaherrera-Aguirre, Heitor B. F. Fernandes, Michael A. Woodley of Menie, 2018-07-04 The social sciences share a mission to shed light on human nature and society However there is no widely accepted meta theory no foundation from which variables can be linked causally sequenced or ultimately explained This book advances life history evolution as the missing meta theory for the social sciences Originally a biological theory for the variation between species research on life history evolution now encompasses psychological and sociological variation within the human species that has long been the stock and trade of social scientific study The eighteen chapters of this book review six disciplines eighteen authors and eighty two volumes published between 1734 and 2015 re reading the texts in the light of life history evolution *Artistic Brotherhoods in the Nineteenth Century* Laura Morowitz, William Vaughan, 2017-11-01 This title was first published in 2000 The nineteenth century saw the emergence of numerous artistic brotherhoods groups of artists bound together in communal production sharing spiritual and aesthetic aims Although it is widely acknowledged that this is a unique feature of the period there has not previously been a separate study of the phenomenon This collection of essays provides a thorough and wide ranging exploration of the issue Situating artistic brotherhoods within their historical context it offers unique insights into the social political economic and cultural milieu of the nineteenth century It focuses on the most celebrated and influential brotherhoods while also bringing to light lesser known or forgotten artists The essays explore the artistic fraternity from a wide variety of perspectives probing issues of gender identity professional practices and artistic formation in Europe and the United States This book investigates the Nazarenes the Pre Raphaelites the Russian Abramstova the Primitifs the Nabis as well as other leading groups The book contains a substantial introduction which establishes the key questions and issues surrounding the phenomena of the artistic brotherhood including their relation to the larger artistic community their association with other social and political organizations of the period and the ways in which mythologies have been built around them in subsequent histories and recollections of the period Geography and History Alan R. H. Baker, 2003-11-06 Table of contents **The French Peasantry, 1450-1660** Emmanuel Le Roy Ladurie, 1987-01-01 **Liberty and Authority in Victorian Britain** Peter Mandler, 2006-07-20 Victorian Britain is often considered as the high point of laissez faire the place and the time when people were most free to make their own lives without the aid or interference of the State

This book explores the truth of that assumption and what it might mean. It considers what the Victorian State did or did not do, what were the prevailing definitions and practices of liberty, what other sources of discipline and authority existed beyond the State to structure people's lives, in sum, what were the broad conditions under which such a profound belief in liberty could flourish and a complex society be run on those principles. Contributors include leading scholars in British political, social, and cultural history so that liberty is seen in the round, not just as a set of ideas or of political slogans but also as a public and private philosophy that structured everyday life. Consideration is also given to the full range of British subjects in the nineteenth century: men, women, people of all classes from all parts of the British Isles, and to placing the British experience in a global and comparative perspective.

Governmentality and the Mastery of Territory in Nineteenth-Century America Matthew G. Hannah, 2000-09-14. Matthew Hannah's book focuses on late nineteenth-century America, the period of transformation which followed the Civil War and gave birth to the twentieth century. This was a time of industrialization and urbanization. Immigration was on the increase and traditional hierarchies were being challenged. Using a combination of empirical and theoretical material, Hannah explores the modernization of the American federal government during this period. Discussions of gender, race, and colonial knowledge engage with Foucault's ideas on governmentality. The empirical strands of the narrative surround the career and writing of Francis A. Walker, a hugely influential figure at that time. Walker was Director of the 1870 and 1880 US censuses, Commissioner of Indian affairs, and a prominent political economist and educator. Through an analysis of his work, Hannah enriches previous interpretations of the period, demonstrating that the modernization of the American national state was a thoroughly spatial and explicitly geographical project.

Gender and Fraternal Orders in Europe, 1300-2000 Máire Fedelma Cross, 2010-09-30. What have medieval nuns, parrot shooting, Freemasonry, and Shetland revelry got in common? This study of monastic orders, guilds, Freemasonry, and friendly societies over centuries and across frontiers provides new insights into their contribution to the gendering of public space and the evolution of separate spheres in Europe.

Place, Culture, and Identity Alan R. H. Baker, 2001. Alan R. H. Baker of the Geography Department of the University of Cambridge has played a leading role in the development of historical geography. This book, which features twelve specially commissioned essays, recognizes his highly influential and innovative contributions. The contributors address the following topics: methodology and ideology in historical geography; historical geographies of state regulation and political discourse; the social and cultural use of public and private space; and the interpretation of images of place in relation to cultural and national identity.

Disease and Democracy Peter Baldwin, 2005. A historical masterpiece. Just when we thought we knew everything about the politics and policies of the HIV/AIDS pandemic, Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries, as well as complex tradeoffs between civil liberties and public goods. This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS. Baldwin offers a deeply

historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin s probing and synthetic analysis of AIDS in the industrialized world Building on his masterful Contagion and the State in Europe 1830 1930 Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of Private Acts Social Cosequences Aids and the Politics Of Public Health and coauthor with Gerald Oppenheimer of AIDS Doctors Voices from the Epidemic

Tocqueville, Democracy and Social Reform M. Drolet, 2003-08-11 Alexis de Tocqueville is best known as the author of Democracy in America and The Ancien R gime and the Revolution Yet among his contemporaries he was also esteemed for his brilliant investigations on social issues such as prison reform pauperism and the plight of abandoned children This study explores the intellectual and social context of these neglected yet startlingly innovative writings and it reveals how they proved central to the composition of those works for which Tocqueville is best known

Democracy Tamed Gianna Englert, 2024 Liberal democracies are under constant threat in the twenty first century and there is growing scepticism about whether liberalism and democracy can continue to survive together In Democracy Tamed Gianna Englert argues that the dilemmas facing liberal democracy are not unique to our present moment but have existed since the birth of liberal political thought in nineteenth century France Combining political theory and intellectual history Democracy Tamed tells the story of how the earliest liberals deployed their new democracy to combat universal suffrage But it also reveals how later liberals would appropriate their predecessors antidemocratic arguments to safeguard liberal democracies as we have come to know them
