put legendary studio United Artists out of business and marked the end of Hollywood's auteur era. Or so the conventional wisdom goes. Noted television producer and author Charles Elton delves deeply into the making and aftermath of the movie and presents a surprisingly different view to that of Steven Bach, one of the executives responsible for Heaven's Gate, who wrote a scathing book about the film and solidified the widely held view that Cimino wounded the movie industry beyond repair. Elton's *Cimino* is a richly detailed biography that offers a revisionist history of a lightning rod filmmaker. Based on extensive interviews with Cimino's peers and collaborators and enemies and friends most of whom have never spoken before, it unravels the enigmas and falsehoods many perpetrated by the director himself which surround his life and sheds new light on his extraordinary career. This is a story of the making of art, the business of Hollywood and the costs of ambition, both financial and personal. **The Publishers Weekly**, 1999
