The Civil War on Film Peg A. Lamphier,Rosanne Welch,2020-10-01 The Civil War on Film informs high school and college readers interested in Civil War film history on issues that arise when film viewers confuse entertainment with historical accuracy The nation s years of civil war were painful destructive and unpleasant Yet war films tend to embrace mythologies that erase that historical reality romanticizing the Civil War Opening with a timeline and introduction the book

goes on to explore ten films across decades of cinema history in ten chapters from *Birth of a Nation* which debuted in 1915 to *The Free State of Jones* which debuted 101 years later. It analyzes and critiques the myriad of mythologies and ideologies which appear in American Civil War films including Lost Cause ideation, Black Confederate fictions, Northern Aggression mythologies, and White Savior tropes. Readers will better understand how particular films mirror the time in which they were written and filmed, and a list of further resources guides readers to explore the topic in more detail.

Southern History on Screen Bryan M. Jack, 2019-01-08. Hollywood films have been influential in the portrayal and representation of race relations in the South and how African Americans are cinematically depicted in history from *The Birth of a Nation* 1915 and *Gone with the Wind* 1939 to *The Help* 2011 and *12 Years a Slave* 2013. With an ability to reach mass audiences, films represent the power to influence and shape the public's understanding of our country's past, creating lasting images both real and imagined in American culture. In *Southern History on Screen: Race and Rights 1976-2016*, editor Bryan Jack brings together essays from an international roster of scholars to provide new critical perspectives on Hollywood's relationships between historical films, Southern history, identity, and the portrayal of Jim Crow era segregation. This collection analyzes films through the lens of religion, politics, race, sex, and class, building a comprehensive look at the South as seen on screen. By illuminating depictions of the southern belle in *Gone with the Wind*, the religious rhetoric of southern white Christians, and the progressive identity of the white heroes in *A Time to Kill* 1996 and *Mississippi Burning* 1988, as well as many other archetypes found across films, this book explores the intersection between film, historical memory, and southern identity.

It engages this popular and dynamic field that has evolved rapidly from film and television to digital streaming into the age of user-created content. The volume addresses moving image history through a theoretical lens, modes and genres, representation, race and identity, and evolving forms and formats. It brings together a range of scholars from across the globe who specialize in film and media studies, cultural studies, history, philosophy of history, and education. Together, the chapters provide a necessary contemporary analysis that covers new developments and questions that arise from the shift to digital screen culture. Each contributor's unique approach highlights the necessity of engaging with moving images for the academic discipline of history. The collection, written for a global audience, offers accessible discussions of historiography and a compelling resource for advanced undergraduates and postgraduates in history, film, and media studies, and communications. Unrest Enrico Dal Lago, 2018-03-15 Between 1861 and 1865 both the Confederate South and Southern Italy underwent dramatic processes of nation building with the creation of the Confederate States of America and the Kingdom of Italy in the midst of civil wars This is the first book that compares these parallel developments by focusing on the Unionist and pro Bourbon political forces that opposed the two new nations in inner civil conflicts Overlapping these conflicts were the social revolutions triggered by the rebellions of American slaves and Southern Italian peasants against the slaveholding and landowning elites Utilizing a comparative perspective Enrico Dal Lago sheds light on the reasons why these combined factors of internal opposition proved fatal for the Confederacy in the American Civil War while the Italian Kingdom survived its own civil war At the heart of this comparison is a desire to understand how and why nineteenth century nations rose and either endured or disappeared

The Age of Lincoln and Cavour Enrico Dal Lago, 2015-02-19 In the 19th century both Italy and the US were young countries pursuing liberal nationalism even as unity was threatened by a recalcitrant southern population This nuanced analysis of abolitionism and Italian democratic nationalism Lincoln and Cavour and the nation's two civil wars provides powerful new insights into their histories

The Long Shadow of the Civil War Victoria E. Bynum, 2010-04-15 The Long Shadow of the Civil War relates uncommon narratives about common Southern folks who fought not with the Confederacy but against it Focusing on regions in three Southern states North Carolina Mississippi and Texas Victoria E Bynum introduces Unionist supporters guerrilla soldiers defiant women socialists populists free blacks and large interracial kin groups that belie stereotypes of Southerners as uniformly supportive of the Confederate cause Centered on the concepts of place family and community Bynum's insightful and carefully documented work effectively counters the idea of a unified South caught in the grip of the Lost Cause
