Women's Vision in Western Literature Laurence M. Porter, 2005-02-28 From ancient Greece through the present day women writers have confronted the male urge to make war by imagining communities in which intuitive bonding among individuals questions and replaces masculinist values of aggression and competition Women's Vision in Western Literature traces the gender gap in literature from 600 B C to the present day through an examination of seven extraordinary women writers from Sappho to Christa Wolf Combining close readings with a comprehensive overview of the careers of these women Porter shows how the threat the experience and the

aftermath of war incites them to imagine tolerant empathic communities This careful consideration of these seven great writers brings to light an underappreciated aspect of Western women's writing Starting with Sappho Porter illustrates this ancient poet's ability to rewrite the Homeric war rhetoric to reflect a non-possessive love experience Marie de France arranges traditional animal fables to imply an open-ended situation ethics according to the author and Madame de Staël in a Europe torn by Napoleonic conquests advocates cross-cultural unions among countries In the works of Mary Shelley we see the warnings of the dangers of vainglorious soulless technology and Virginia Woolf depicts intuitive bonding beyond gender stereotypes amid the ruins of war and crumbling empire He shows how Marguerite Yourcenar dreams of a new era of world peace after Hitler's defeat and how Christa Wolf tries to cope with her country's Nazi past even as she reaffirms European identity threatened by annihilations in nuclear conflict The Oxford Handbook of Adaptation Studies Thomas

Leitch, 2017-03-17 This collection of forty new essays written by the leading scholars in adaptation studies and distinguished contributors from outside the field is the most comprehensive volume on adaptation ever published Written to appeal alike to specialists in adaptation scholars in allied fields and general readers it harkens back to the foundations of adaptation studies a century and more ago surveys its ferment of activity over the past twenty years and looks forward to the future It considers the very different problems in adapting the classics from the Bible to Frankenstein to Philip Roth and the commons from online mashups and remixes to adult movies It surveys a dizzying range of adaptations around the world from Latin American telenovelas to Czech cinema from Hong Kong comics to Classics Illustrated from Bollywood to zombies and explores the ways media as different as radio opera popular song and videogames have handled adaptation Going still further it examines the relations between adaptation and such intertextual practices as translation illustration prequels sequels remakes intermediality and transmediality The volume's contributors consider the similarities and differences between adaptation and history adaptation and performance adaptation and revision and textual and biological adaptation casting an appreciative but critical eye on the theory and practice of adaptation scholars and occasionally each other The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read teach create and write about adaptations in order to prepare for a world in which adaptation already ubiquitous is likely to become ever more important **The Palgrave**

Checklist of Terror 2020: 356 Franchises Steve Hutchison, 2023-02-23 This book contains 356 lists of horror and horror adjacent movies grouped by franchise For each franchise you ll find a list of movies with checkboxes How many have you seen Fantastic Cinema Subject Guide Bryan Senn, 2024-10-16 About 2 500 genre films are entered under more than 100 subject headings ranging from abominable snowmen through dreamkillers rats and time travel to zombies with a brief essay on each topic development highlights and trends Each film entry shows year of release distribution company country of origin director producer screenwriter cinematographer cast credits plot synopsis and critical commentary **In Defense of Lost Causes** Slavoj Žižek, 2009-10-19 In this combative major work philosophical sharpshooter Slavoj Žižek looks for the kernel of truth in the totalitarian politics of the past Examining Heidegger's seduction by fascism and Foucault's flirtation with the Iranian Revolution he suggests that these were the right steps in the wrong direction On the revolutionary terror of Robespierre Mao and the Bolsheviks Žižek argues that while these struggles ended in historic failure and horror there was a valuable core of idealism lost beneath the bloodshed A redemptive vision has been obscured by the soft decentralized politics of the liberal democratic consensus Faced with the coming ecological crisis Žižek argues the case for revolutionary terror and the dictatorship of the proletariat A return to past ideals is needed despite the risks In the words of Samuel Beckett Try again Fail again Fail better Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of

Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse, including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic Prose Fiction, where the basic Romantic themes and story types—the romance novel, novella, short story, and other narrative forms—are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes, which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

The Book of the Undead: A Zombie Film Guide Terry Rowan, 2014-08-16 Since *The Night of the Living Dead*, screen zombies have become increasingly bizarre, bloodthirsty, yes, even cannibalistic. A complete film guide to all your favorite undead zombie and the living dead films. Interesting stories behind the scenes and a list of my favorite zombie films. One thing is for sure: zombies in various forms remain very much alive in the movies and in audiences' imagination like yours and mine. I want to eat your brains.

High School English Teacher's Guide to Active Learning Victor J. Moeller, Marc V. Moeller, 2000 These books show you how you can foster reflective, independent thinking in your class, boost the number of students who actively participate, prevent the discussions from falling flat or degenerating into bull sessions. This volume features 18 student-centered lesson plans and includes answer keys for teachers. Each lesson plan engages students in active learning.

Nightmare Movies Kim Newman, 2011-04-18 Now over twenty years old, the original edition

of *Nightmare Movies* has retained its place as a true classic of cult film criticism. In this new edition Kim Newman brings his seminal work completely up to date both reassessing his earlier evaluations and adding a second part that assesses the last two decades of horror films with all the wit, intelligence and insight for which he is known. Since the publication of the first edition horror has been on a gradual upswing and taken a new and stronger hold over the film industry. Newman negotiates his way through a vast back catalogue of horror charting the on-screen progress of our collective fears and bogeymen from the low budget slasher movies of the 60s through to the slick releases of the 2000s in a critical appraisal that doubles up as a genealogical study of contemporary horror and its forebears. Newman invokes the figures that fuel the ongoing demand for horror: the serial killer, the vampire, the werewolf, the zombie and draws on his remarkable knowledge of the genre to give us a comprehensive overview of the modern myths that have shaped the imagination of multiple generations of cinema goers. *Nightmare Movies* is an invaluable companion that not only provides a newly updated history of the darker side of film but a truly entertaining guide with which to discover the less well trodden paths of horror and re-discover the classics with a newly instructed eye.
