Roosevelt Hourly History*, 2017-07-31 One of America's most influential presidents was a man who could not walk The polio that struck Franklin Delano Roosevelt when he was a future political star did not diminish him Instead against all expectations it was the agent that forged his destiny He came from an affluent family a cousin Theodore Roosevelt had been president another Roosevelt cousin Eleanor would become the wife who transformed the role of First Lady into her version of the bully pulpit However FDR's path to politics was far different from the one that Theodore traveled The pampered son of an elderly father and the strong willed Sara Delano Roosevelt showed no particular acumen in his youth FDR was not a scholar or an athlete of great renown His romantic endeavors were awkward What then created the dynamic leader who inspired a nation to believe in itself when it was reeling from the Great Depression and the

shadow of war across the ocean Perhaps it was adversity itself that transformed the golden boy into the tested president who vowed that America would not fall that the economy would recover that liberty would triumph over oppression He had seen in his own life how deprived of the use of his legs he was nonetheless able to mobilize a nation by his energetic example It is true that Franklin Delano Roosevelt could not walk But it was because of him that the United States of America was able in the tumultuous years of the Great Depression and World War II to remain standing when nations all around the world were falling
