In the Path of an Avalanche Vivien Bowers, 2012-01-06 On a clear cold morning in January 1998 in the Selkirk Mountains of southeastern British Columbia a massive avalanche buried six experienced back country skiers. They didn't have a chance. Thus began the worst day for avalanche deaths in Canadian history and one of the most tragic in North America. This book is the biography of a deadly avalanche detailing how a combination of factors steep open terrain an unstable winter snow pack primed to slide aggravating weather conditions and a trigger provided by a handful of back country skiers resulted in human tragedy. It is the story of a particular avalanche but it illustrates a natural phenomenon that has threatened human endeavours throughout the world since people first ventured within the reach of steep snow slopes.
