 Chakpitak,2017-11-30 This book presents recent research on predictive econometrics and big data Gathering edited papers
 presented at the 11th International Conference of the Thailand Econometric Society TES2018 held in Chiang Mai Thailand on
 January 10 12 2018 its main focus is on predictive techniques which directly aim at predicting economic phenomena and big
 data techniques which enable us to handle the enormous amounts of data generated by modern computers in a reasonable
 time The book also discusses the applications of more traditional statistical techniques to econometric problems
 Econometrics is a branch of economics that employs mathematical especially statistical methods to analyze economic
 systems to forecast economic and financial dynamics and to develop strategies for achieving desirable economic performance
 It is therefore important to develop data processing techniques that explicitly focus on prediction The more data we have the
 better our predictions will be As such these techniques are essential to our ability to process huge amounts of available data
