**Reframing Italian Economic History, 1861-2021** Nicola Rossi, 2024-09-20  
This book surveys the development of the Italian economy over the 150 years since unification, integrating economic analysis with an economic and social history of Italian society. The book challenges several key assumptions about the growth of the Italian economy, including the notion that Italy has caught up with its main Western partners, and arguing that in the long run, perspective, the Italian economy has performed disappointingly. In particular, the book highlights how the role of cultural values, beliefs, and preferences are just as important as institutions and institutional change in explaining the trajectory of the economy, arguing that a widespread growth-averse culture exists in Italian society that diverges from the dominant market paradigms of the Western world. Rather than treating the twenty years after WWII, the period of rapid growth known as Italy's economic miracle, years as an indicator of Italy's success, the author analyses these years as an anomaly where capitalist processes like creative destruction and innovism were briefly permitted to flourish. The book draws out key questions, for example, exploring why institutional reforms have not led to sustained rates of growth and why other markers of quality of life have improved in Italy while economic performance has remained slow. This book will be a fascinating read for scholars of economics and economic history, as well as non-specialist readers looking for a comprehensive understanding of Italian socio-economic conditions.

**European Culture in a Changing World** Daniel Meyer-Dinkgräfe, 2004 In the words of Ezra Talmor To deal with European Culture in a Changing World is to deal in fact with the reciprocal relation between Politics and Economics on the one hand and Culture on the other In an era when economic forces are pushing towards European Economic Unity or towards the Globalisation of National Markets it is rather difficult to demarcate the role of Culture While the European Narrative may have been written by Monnet De Gaulle and Adenauer the Global Narrative is written by an unknown author or rather by Adam Smith TM's Invisible Hand On the one hand the postmodernist claim that the Grand Narrative is dead is given the lie A Grand Narrative is now being written not by Philosophers but by Managers of Multinationals The Foucauldian *oe a parole* it speaks is instantiated by the anonymous authors of the Global Narrative The question to be asked is What will happen to the rich mosaic of National European Cultures The answer to this question is not only a matter of National Memory and National Identity it is also a matter of the sources of cultural creativity L TM Europe de nations may have been the theatre of endless national wars but it was also the cradle of a very rich mosaic of national cultures The point is how will creative genius adapt to the two new trends European Unification and Globalism This volume brings together essays by leading scholars in a myriad of disciplines all of which attempt to shed light on these issues Contributions by Nicholas Perdikis Shari L Boyd William A Kerr Sylvia MacPhee Marcela Cristi Anu Randveer Martti Randveer Viljar Jaamu Vello Vensel Anatoly Zotov Warren Breckman Douglas Moggach
