Martin Godfrey Cook,2011-09-16 Zero Carbon is an abstract concept for most people but we have lived energy profligate lifestyles for too long on finite fossil fuel resources We now face potential environmental catastrophe from climate change and global warming with a continuing exponentially expanding global population that doubles every four decades The capacity of the planet to reabsorb carbon dioxide is about two to three tonnes of carbon equivalent per person at current population levels of seven billion and therefore there is a desperate need for us to reduce our carbon footprint A way of helping to achieve this is to live in a zero carbon house and this will become UK legislation for new homes by 2016 This fascinating book covers all aspects of the zero carbon house from its evolution to achieving carbon neutrality in old and new

homes as well as entire communities Includes an overview of zero carbon and how to achieve it on a global scale covers communities of zero carbon houses and provides inspirational examples of low carbon lifestyles Case studies show how principles are put into successful practice to save energy carbon money and the environment *Building Surveys and Reports* Edward A. Noy, 2008-04-15 This book deals with structural surveys for all types of building domestic industrial and commercial and includes diagnosis of a wide range of defects It considers both modern and older construction methods and deals with the particular problems of alterations and restoration work Guidance is given on how to carry out measured surveys and on report writing The third edition covers the latest definitions of types of property surveys more information on report writing and a range of detail updates Covers all types of building commercial industrial and historical not just domestic Deals with particular problems of conversion and renovation work increasingly important today New edition features latest definitions of survey types more on report writing and a range of other updates a valuable reference book *ASI Journal* *An Introduction to Urban Housing Design* Graham Towers, 2013-05-13 1 Unique introductory guide to urban housing design 2 An accessible text that outlines the current debate on urban planning and presents guidance for design solutions 3 Contemporary case studies showcase the best examples for high density housing design **Historic Preservation Technology** Robert A. Young, 2008-03-21 This introduction to historic preservation goes well beyond the Secretary of the Interior's Standards for Rehabilitation and shows how wood stone masonry and metal were used in the past and how adaptive re use can be employed to bring modern amenities to historic structures The book covers all aspects of the exterior and interior building fabric including windows roofing doors porches and electrical and mechanical systems for both residential and small scale commercial buildings Richly illustrated with photographs showing typical elements of historic buildings decay mechanisms and remediation techniques the book also contains a variety of useful case studies and features a companion Website that offers dozens of additional images and resources *Urban Utopias* Malcolm Miles, 2007-11-21 Utopia tends to generate a bad press regarded as impracticable perhaps nostalgic or contradictory when visions of a perfect world cannot accommodate the change that is necessary to a free and self organizing society But people from diverse backgrounds are currently building a new society within the old balancing literal and metaphorical utopianism and demonstrating plural possibilities for alternative futures and types of settlement Thousands of such places exist around the world including intentional communities eco villages permaculture plots religious and secular retreats co housing projects self build schemes projects for low impact housing and activist squats in urban and rural sites This experience suggests however that when planning and design are not integral to alternative social formations the modern dream to engineer a new society cannot be realized The book is structured in four parts In part one literary and theoretical utopias from the early modern period to the nineteenth century are reconsidered Part two investigates twentieth century urban utopianism and contemporary alternative settlements focusing on social and environmental issues activism and eco village living Part three

looks to wider horizons in recent practices in the non affluent world and Part four reviews a range of cases from the author s visits to specific sites This is followed by a short conclusion in which a discussion of key issues is resumed This book brings together insights from literary theoretical and practical utopias drawing out the characteristics of groups and places that are part of a new society It links today s utopian experiments to historical and literary utopias and to theoretical problems in utopian thought *Building Adaptation* James Douglas,2006 Introduction Feasibility Principles of Building Conversion Adaptive fuses Lateral extensions Vertical extensions Structural alterations Principles of refurbishment Further aspects of refurbishment Sustainable adaptation Implementation Appendices *The Organic Directory* Clive Litchfield,2000

Building Surveys and Reports James Douglas,2010-12-13 This book provides guidance on building survey work for typical residential commercial and industrial buildings with advice on how to diagnose a wide range of defects It considers both modern and older construction methods together with new and traditional materials The particular problems of alteration and renovation work are discussed with guidance on how to carry out measured surveys A separate chapter covers survey problems after flood and fire damage and the legal section takes account of recent developments in case law relating to inspections and surveys of properties This new edition continues to provide a thorough treatment of all the key issues relating to surveying buildings dealing with the problems that surveyors are likely to encounter when inspecting buildings Changes for the new edition include Examples and references have been updated Evaluation of condition rating systems for domestic and commercial buildings A new section on the home condition reports More information on slate defects Bibliography revised and expanded to make it more comprehensive Additional appendix showing the home condition report format **Real Goods News** ,1994 *Toward Sustainable Interiors* Hae-Jin Yoon,2002 **El-Hi Textbooks & Serials in Print, 2000** ,2000
